This print edition of the 2015-2016 Undergraduate Calendar was produced on July 20, 2015 and is an abridged version produced for the convenience of academic advisors, faculty and staff. Please visit http://academiccalendars.romcmaster.ca for the most complete version of this calendar.
This calendar covers the period from September 2015 to August 2016. For terminology changes, please see the annotated Glossary for terms that were affected.

Using the Calendar

Please read carefully all sections in this Calendar which pertain to your residency at McMaster University. Some sections describe University-wide procedures and regulations, and include Sessional Dates, Admission Requirements, Application Procedures and General Academic Regulations. Other important sections include Degrees and Programs: Duration in Years, Glossary, Collection and Disclosure of Personal Information, Senate Policy Statements, and Financial Information. The Faculty and Department descriptions, which also outline program and degree requirements, can be found in the Arts and Science Program, the DeGroote School of Business, the Engineering, Health Sciences, Humanities, Science, and Social Sciences Faculties. The program section concludes with a description of Interdisciplinary Minors and Thematic Areas and Certificate and Diploma Programs. The Course Listings section completes the academic part of the Calendar and includes course descriptions sorted alphabetically by subject.

When choosing your courses, please be careful to note all prerequisites, antirequisites, corequisites and cross-listings; they may have a significant impact on your program.

If you are unsure of the meanings of these terms, please consult the Glossary section of the Calendar. Information about awards, scholarships, bursaries and loan funding can be found in the Student Financial Aid & Scholarships section. University services, the libraries, residences, computing facilities, and student activities and organizations are included in the latter sections of this Calendar.

Glossary

Please note that effective May 2015 (Spring/Summer Term), some terminology used in this calendar was changed as a result of the implementation of the Mosaic enterprise resource planning system. Please see annotations below for the Glossary terms that were affected.

A

Academic Probation, which may be assigned to students whose Grade Point Average (GPA) is at least 3.0 but less than 3.5, will allow a student to continue at the University for one reviewing period.

Academic Standing is the statement of the academic performance of a student at the end of Winter or Spring/Summer terms. Good Standing, On Program Probation, May Not Continue in Program, May Not Continue in Faculty, On Academic Probation, and Required to Withdraw from University are examples of academic standings.

Advanced Standing/Credit may be granted to an applicant who has completed work at another university or college or who has completed a Certificate/Diploma program at McMaster University, subject to the applicant having met the minimum requirements prescribed by the University.

Anti-requisite is a course which cannot be taken for credit before, after, or at the same time as the course with which it is listed.

B

Bursaries are granted based upon demonstrated financial need, a minimum expectation of academic accomplishment and, in some cases, other forms of earned merit. They may vary in monetary value, based upon the level of financial need demonstrated.

Continuing Student is a university graduate who is not proceeding to an advanced degree, but wishes to take one or more undergraduate courses after graduation.

Co-requisite is a course which must be taken together with another course in the same term.

Course Numbers (e.g. 1A03) can be interpreted as follows: the initial digit indicates the Level of the course; the letter(s) in the middle identifies the specific courses within the Level; and the final digit(s) defines the number of units of credit associated with the course.

Cross-listed Course is a course which is listed under two or more subjects.

Cumulative Average (CA) is the weighted average based on the grades obtained in all courses taken. Failed courses are included in the GPA calculation.

D

Degree is conferred when a student completes a program of study (e.g. Bachelor of Arts, Bachelor of Kinesiology, Master of Science, Doctor of Philosophy).

Department is a subdivision of a Faculty, responsible for a particular subject or group of subjects (e.g. Department of Chemistry, Department of Modern Languages and Linguistics).

Elective Courses are those courses taken by a student which are not specifically designated in a student’s program, but which form part of the total number of units required to complete the program.

Extra Courses are those courses designated at the time of registration as “Extra,” which are not included as units toward completion of a student’s program. The grades obtained in such courses will not be included in the computation of the GPA. However, they will be included in the computation of the Fall-Winter Average.

F

Faculty is a major administrative and teaching unit of the University responsible for programs and courses relating to common fields of study or academic disciplines (e.g. Faculty of Humanities, Faculty of Engineering).

Full Load is the number of units specified in the Calendar for an individual level of a program in a given year. If the Calendar does not specify the program requirements by individual levels, divide the total units for all levels by the number of levels, discarding the remainder.

Full-load Average (FA) is based on the successful completion of a full load of course units (see Full Load definition), and includes only courses taken in the Fall/Winter session. Overload units (those above Full Load) and Extra Courses taken during the Fall/Winter session are included in the FA.

Full-time Student for academic purposes is an undergraduate student who is registered in at least 9 units in a term, including Extra Courses. Full-time status for students in the Faculty of Science and Engineering Co-op programs is granted to those students registered in at least 9 units in a term.

Fall-Winter Average is a weighted average based on the grades attained in the Fall and Winter Terms. Overload courses and extra courses are included in the Fall-Winter Average.

G

Grade Point Average (GPA) is the weighted average based on the grades obtained in all courses taken. Failed courses are included in the GPA calculation.

Letter of Permission is a formal document which allows a McMaster student to take one or more courses at another university for credit towards a McMaster degree.

Level is used to describe a student’s progression through a program.

Loans are monetary advances granted to students currently registered, based upon a demonstrated means and promise of repayment.

M

Mature Student has not attended secondary school or college on a full-time basis for at least two years; and has not previously attended university.

Minor is an option available to students enrolled in four- or five-level programs. A Minor consists of at least 24 units of which normally no more than six units may be from Level I that meet the requirements set out in the program description of that Minor.

Multi-Term Course is a course taught over the Fall and Winter terms. Students enroll in both the ‘A’ and the ‘B’ parts of the same course. Part ‘A’ is taken in the Fall term. Part ‘B’ is taken in the Winter term. Academic Load and Billing units are assigned to both parts. Units for GPA calculation are assigned to part ‘B’ of the course only.

Multi-Session Course is a course taught over the Spring and Summer sessions of the Spring/Summer Terms. Students enroll in both the ‘A’ and the ‘B’ parts of the same course. Part ‘A’ is taken in the Spring session. Part ‘B’ is taken in the Summer session. Academic Load and Billing units are assigned to both parts. Units for GPA calculation are assigned to part ‘B’ of the course only.

Part-time Student (for academic purposes), is an undergraduate student who is registered in fewer than 9 units in a term, including Extra Courses.

Post-Degree Student is a university graduate or a person with professional qualifications who is not proceeding to an advanced degree, but wishes to take one or more graduate courses.

Prerequisite is a requirement to be fulfilled before registration in a course is permitted. This is usually the successful completion of another course.

Program is a specific combination of courses that fulfills the requirements for a degree.

Program Probation which may be assigned to students whose GPA falls within the probationary band below the minimum GPA required to remain in the program in good standing, will allow a student to continue in his/her program for at least one reviewing period. (See the General Academic Regulations section in this Calendar.)

Readmission See Readmission in the Admission Requirements section General Academic Regulations in this Calendar.

Required Courses are those courses which are specifically designated for inclusion in a program.

Requisite is an academic requirement that must be met to register in a course. A course requisite may comprise Prerequisites, Corequisites and/or Antirequisites.
Result of Session was renamed Academic Standing effective May 2015. Review is an assessment of a student’s performance to determine eligibility to continue in a program or to graduate. Reviewing Period is the time between two reviews for a student. Reviews will take place in May and August, provided the student has attempted 18 units of work since the last review or is a potential graduand.

S
Session is a period of study within a Term. Each term may have multiple sessions. For example, the Summer session runs from June to August within the Spring/Summer term.

Sessional Average (SA) was renamed Fall-Winter Average, effective May 2015.

T
Term is a period within the Academic Year. The Academic Year will have three Terms that may have multiple Sessions within them. For example, Fall Term (September-December), Winter Term (January-April), and Spring/Summer Term (May-August).

Transcript is an official document summarizing the entire academic record of a student at a particular educational institution.

Tuition is fees paid in consideration for enrolment in a program of study and selected courses.

Notes
1Prior to May 2015 the definition of Session, as used in this calendar, was: A period of study within the academic year. For example, the Fall/Winter session runs from September to April.
2Prior to May 2015 the definition of Term, as used in this calendar, was: A period of study within a session. The Fall/Winter session, for example, contains three terms, Term 1 runs from September to December; Term 2 runs from January to April; Term 3 runs from September to April.
3Effective May 2015 Cumulative Average (CA) was renamed to Grade Point Average (GPA) and retained the same definition.
4Effective May 2015 Result of Session was renamed to Academic Standing and prior to May 2015, was defined as: The statement of the academic standing of a student at the end of a reviewing period. May continue in program, May not continue in program, and Clear to graduate are three examples.
5Effective May 2015 Sessional Average (SA) was renamed to Fall-Winter Average and prior to May 2015, was defined as: A weighted average based on the grades attained in a session. Overload courses and Extra courses are included in the Sessional Average.

U
Undergraduate Student is a student enrolled in a program of study leading to a bachelor’s degree or to the degree Doctor of Medicine.

Units define the number of credits associated with a course. A unit is roughly equivalent to one lecture-hour per week for one term or two hours of laboratories or seminars per week for one term. Three-unit courses are usually one term in length. Six-unit courses are usually two terms in length.

W
Weighted Average is calculated by multiplying the grade points achieved in each course by the number of units in each course, totaling these results, and then dividing this result by the total number of course units. (See example under Grading System in the General Academic Regulations section in this Calendar.) Withdrawal With Academic Penalty is the formal process of discontinuing studies in a particular course or program after the Last Day for Course Withdrawal Without Academic Penalty in the term (see the Sessional Dates section in this calendar). Withdrawal Without Academic Penalty is the formal process of discontinuing studies in a particular course or program before the Last Day for Course Withdrawal Without Academic Penalty in the term (see the Sessional Dates section in this calendar).
Sessional Dates

The academic year is divided into terms, as shown below. Most undergraduate students register for the Fall and Winter terms, which run from September December and January to April respectively. The Spring/Summer term starts at the beginning of May and ends in early August.

## Second Undergraduate Degree

Provision exists for a university graduate to take a second bachelor's degree. This program is normally shortened (except for the B.H.Sc. Midwifery program). An application for admission is necessary for entry to a second degree program, and it should be submitted by the application deadlines. (See Application Procedures and General Academic Regulations sections of this Calendar.)

Combined Programs: There is the opportunity to combine two subjects of study within one Faculty, or between two Faculties. Further information can be obtained by referring to the Faculty sections of this Calendar, or contacting the appropriate Office of the Associate Dean.

Admission Requirements

1. Admission from Secondary Schools

All Level 1 programs have enrolment limits and admission is by selection.

A. Ontario

GENERAL REQUIREMENTS (FOR ALL LEVEL I PROGRAMS)

To be considered for admission, you must satisfy the general requirements of the university and the specific subject requirements for the program to which you applied plus any specified supplementary application/audition/portfolio required by some programs at the university.

If you are an applicant from an Ontario secondary school you must meet the following minimum requirements:

1. An Ontario Secondary School Diploma (OSSD) with acceptable standing; AND
2. An overall average in completed Grade 12 U and/or M courses which meets or exceeds the minimum set by the specific program to which you applied; AND
3. Satisfactory completion of six Grade 12 U and/or M courses including the subject requirements for your chosen program.

Note: Music External (Conservatory) 4M is acceptable as a credit and the mark obtained can be included in the calculation of your admission average. Alternatively, you may submit certificates from a recognized conservatory of music in Grade 8 practical and Grade 2 theory to your secondary school for one Grade 12M credit.

ADMISSION AVERAGE

The Admission Average is calculated using the best six Grade 12 U and/or M grades, including those for all of the required subjects. McMaster calculates averages to two decimal points and we do not round up averages. Please Note: Grade 12 Co-op courses are not eligible to be used as one or more of the required prerequisite courses used to calculate admissibility and/or the admission average. See Early Conditional Admission and Final Admission below for specific details. Estimated cut-off ranges for our Level I Programs can be found at: http://future.mcmaster.ca and click on Admission Requirements.

EARLY CONDITIONAL ADMISSION

Early conditional admission may be granted annually to qualified applicants with strong academic standing. Early conditional admission is based on:

1. six appropriate midterm/interim Grade 12 U and/or M grades, OR
2. at least three final Grade 12 U and/or M grades PLUS enrollment in the appropriate additional three Grade 12 U and/or M courses.
3. In some cases, Grade 11 marks may be considered in extending early conditional offers of admission.

If you do not receive an offer of admission in March, you will automatically be reassessed for admission until May 15 after additional Grade 12 U and/or M marks are received from your secondary school. Due to enrolment limits, McMaster may not be able to consider additional grade data for admission purposes received after May 15.

The University reserves the right to withdraw a conditional offer of admission due to any of the following:

1. You do not meet the minimum final average prescribed for your chosen program; OR
2. You do not receive an OSSD; OR
3. You do not complete six Grade 12 U and/or M courses including all required subjects; OR
4. You do not successfully accept your offer of admission at the Ontario Universities’ Application Centre (OUAC) by the response deadline indicated on your offer letter; OR
5. You do not meet any other condition stipulated on your conditional offer of admission; OR
6. You attend a post-secondary institution prior to beginning your studies at McMaster; OR
7. Your offer of admission to the university was secured through fraudulent means. Please note the University’s statements regarding application fraud at the end of the Admission section of this calendar.

MINIMUM FINAL AVERAGE

If you are a secondary school applicant who receives a conditional offer of admission, you will be required to achieve an overall average (on six (6) final grades including all required courses for your desired program) as indicated on your offer of conditional admission.

If your final average falls below this level (or its equivalent), your offer of admission will be rescinded and your registration will be cancelled.

The required minimum final average will vary from year to year and by program. This average will be stated clearly on the offer of conditional admission.

SUPPLEMENTARY APPLICATION FORMS AND EXTENUATING CIRCUMSTANCES SITUATIONS

Certain Level I programs such as Arts & Science, Bachelor of Health Sciences (Honours) and Honours Integrated Science have mandatory supplementary application forms which must be completed by specific deadline dates. See Application and Documentation Deadlines, for specific deadline dates. McMaster does not normally use optional supplementary application forms. Applicants will be notified if the program they applied to decides to use an optional supplementary application form.

Applicants with special circumstances whose average falls slightly below the required admission average may forward a letter to the Enrolment Services, Admissions Office explaining the nature of their extenuating circumstances.

In some cases, the university may request letters of recommendation, personal history or other additional information to aid in the admission process.

OFFERS OF ADMISSION FOR SECONDARY SCHOOL GRADUATES

Applicants may be eligible for final admission if they have fulfilled the requirements for their OSSD and have final grades in six Grade 12 U and/or M courses.

If you fulfill the requirements for your chosen program by the end of February, you may be granted an offer of final admission.

The University reserves the right to withdraw an offer of final admission due to any of the following:

1. You do not successfully accept your offer of admission at the Ontario Universities’ Application Centre (OUAC) by the response deadline indicated on your offer letter; OR
2. You attend a post-secondary institution prior to beginning your studies at McMaster.
3. Your offer of admission to the university was secured through fraudulent means. Please note the University’s statements regarding application fraud at the end of the Admission section of this calendar.

DEFERRAL OF ADMISSION

McMaster does not normally grant a deferral of an offer of admission unless special extenuating circumstances exist. Each case is evaluated on its own merits.

All requests for deferral of both admission and scholarship should be made in writing to: Enrolment Services, Admissions Office McMaster University Gilmour Hall 109, 1280 Main St. W. Hamilton, Ontario L8S 4L8 by September 1 of the application year, outlining the reasons for the request. If a deferral is granted, it is conditional upon the student not attending a secondary or post-secondary institution during the deferral period.

**SUBJECT REQUIREMENTS FOR LEVEL I PROGRAMS**

In addition to the minimum requirements below, satisfactory completion of the specified subject requirements for the program to which you applied is also required. Please refer to our website noted below for more details.

Averages used to determine eligibility for admission and residence are calculated based on the minimum provincial requirements, including the prerequisite courses for the program to which you have applied.

**EARLY CONDITIONAL ADMISSION**

Applications are reviewed for conditional admission as soon as all required documents, with sufficient course and grade data, are received by the Enrolment Services, Admissions Office. All Canadian applicants should ensure that their schools (vs. the Provincial Ministry for those provinces where transcripts are issued by the Ministry), forward interim/midyear school grade reports showing marks for all courses taken during the Grade 11 and 12 year as soon as they are available. The terms and conditions of the offer of admission are stated clearly on the offer letter. The Provincial Ministry final transcript confirming final grades and graduation status will be required at the end of the school year. Students from all other provinces where transcripts are issued by their high schools should have their schools forward the appropriate interim and final transcripts. Applicants are required to meet the following minimum requirements including the specified subject requirements (not listed below) for their chosen program.

For a complete listing of our specific course requirements by province and Level I program you may refer to our web site: [http://future.mcmaster.ca/admissions/admission-requirements/](http://future.mcmaster.ca/admissions/admission-requirements/)

The University will not accord to you privileges which would not be granted by your own university. Grades obtained in courses taken at another university will not be included in McMaster’s Grade Point Average, and, therefore, cannot be used to raise your standing.

If you have been required to withdraw from another university and have fulfilled your period of suspension, you may apply for admission. However, you must present a letter of explanation and clarification concerning your past academic performance. You may also be asked to provide academic documentation for proof of further academic achievement which is both current and relevant.

D. Continuing Students
At McMaster, a Continuing Student is defined as a graduate from an undergraduate program, who wishes to take more undergraduate courses, either out of general interest or to upgrade or obtain courses required for future applications to graduate studies or other professional programs. To be eligible to take courses as a Continuing Student you will be expected to have an undergraduate university degree and at least a C average, with no failures, in your final year’s work (or the equivalent, in the case of a degree taken through part-time studies), and academic records which are satisfactory to the Department and the Office of the Associate Dean of the appropriate Faculty. *Please Note: not all courses are available to Continuing students and course prerequisites for selected courses must be met. Also note that admission as a Continuing student does not guarantee registration in courses of interest to the student.

MCMASTER GRADUATES
If you are a graduate of a McMaster undergraduate degree program and wish to become a Continuing Student, you do not need to apply for admission. You may submit a registration. Registrants who have not attended courses for more than
two years will need to contact the Office of the Registrar prior to attempting to register for courses.

**GRADUATES FROM OTHER UNIVERSITIES**

As a Continuing Student with a non-McMaster degree, you need only apply formally for admission in the first instance. In subsequent sessions, you will only be required to register. Acceptance as a Continuing Student carries no implications with respect to acceptance in the School of Graduate Studies. If you plan to proceed to a graduate degree you should apply directly to the specific department of your program of interest.

**E. From Six Nations Polytechnic**

McMaster University, along with four other universities, partnered with Six Nations Polytechnic to offer university courses in the community of Six Nations. The courses offered are eligible for transfer credit at any of the universities within the consortium. For more information please contact the Aboriginal Recruitment & Retention Officer at (905) 525-4600.

**F. From Post-Secondary Institutions with Religious Affiliation**

Undergraduate general academic studies taken at colleges with religious affiliation that are member institutions of specific accredited associations will be considered for admission and transfer credit on a case by case basis. Applicants from a non-accredited postsecondary institution with religious affiliation will be considered for admission based on completion of a Grade 12 high school diploma.

### 3. Other Categories of Admission

**A. Part-time Admission**

Students interested in beginning studies on a part-time basis should review the requirements and information found in the following sections of this Calendar:

- Admission Requirements
- Application Procedures
- General Academic Regulations
- Sessional Dates
- Program descriptions found in the specific Faculty sections
- Subject Requirements For Specific Level I Programs
- Sessional Dates
- General Academic Regulations
- Program descriptions found in the specific Faculty sections

Applicants who wish to pursue undergraduate studies on a part-time basis at McMaster must meet one of the admissions criteria outlined in the sections above. If applicants do not meet any of these criteria, they may qualify for Mature Student Admission as outlined under the heading Mature Student Admission below. Students interested in studying on a part-time basis may contact Enrolment Services, Admissions Office, at (905) 525-4600 for information about application procedures and admission regulations. Detailed information can also be found on our website: [http://future.mcmaster.ca/admission/process/105pt](http://future.mcmaster.ca/admission/process/105pt).

**B. Mature Students (Admission)**

If you do not qualify for admission consideration under one of the above categories, McMaster will assess your eligibility as a mature student. You may be considered for limited admission, provided both of the following conditions are satisfied:

- You have not attended secondary school or college on a full-time basis for at least two years.
- You have never attended university.

Applicants admitted as mature students will not be granted transfer credit. Programs in the Faculties of Humanities and Social Sciences have no specific course requirements for mature student admission. The following Level I programs have specific course requirements that mature applicants must present from secondary school, as outlined:

- Business I: requires one Grade 12 U Mathematics course (or equivalent).
- Chemical and Physical Sciences I: requires satisfactory standing in four Grade 12 U mathematics and science courses (or equivalent) as specified under the heading Subject Requirements For Specific Level I Programs.
- Environmental and Earth Sciences I: requires satisfactory standing in three Grade 12 U mathematics and science courses (or equivalent) as specified under the heading Subject Requirements For Specific Level I Programs.
- Life Sciences I: requires satisfactory standing in three Grade 12 U mathematics and science courses (or equivalent) as specified under the heading Subject Requirements For Specific Level I Programs.
- Mathematics and Statistics I: requires satisfactory standing in two Grade 12 U mathematics courses – Advanced Functions U and Calculus and Vectors U as specified under the heading Subject Requirements For Specific Level I Programs.
- Midwifery I: does not offer mature admission directly to the program. However, students interested in Midwifery may be admitted as a mature student to another program in order to complete a minimum of six university courses (18 units) in their program of admission before applying to the Midwifery Education Program.
- Nursing I: does not offer mature admission directly to the program. However, students interested in Nursing may be admitted as a mature student to another program in order to complete university prerequisite courses for later consideration for admission to Nursing I. Possession of the minimum admission requirements does not guarantee an offer of admission. Contact the School of Nursing for more details.

If admitted to a program as a mature student, you may register to take up to 18 units of course work (normally Level I courses) during the Fall/Winter session with no more than nine units in each term (three courses). Within the first 18 units, mature students will be limited to taking three units in each term of the Spring/Summer session. Upon completion of 18 units, your performance will be reviewed according to the general academic regulations of the university. (See Level I Registration and Academic Standing Requirements under General Academic Regulations).

**C. Visiting Students (Letter of Permission - For Credit at Another University)**

If you are a student currently attending another university, you may apply to take McMaster courses for credit at your own/home institution. Please note, not all courses are available for credit outside McMaster and all are subject to enrolment limits, so it is important that all applicants adhere to McMaster application deadlines.

You must initially apply through the Ontario Universities’ Application Centre (OUAC) and send your Letter of Permission and an official transcript from your home institution directly to the Enrolment Services, Admissions Office. Upon receipt, your transcript will be reviewed to ensure you have met the prerequisites for courses you plan to take at McMaster. Approval of your application as a Visiting Student does not guarantee your registration in a course.

Subsequent requests to take courses on a Letter of Permission do not require another application; however, you must send an updated Letter of Permission and a current official transcript from your home institution to the Office of the Associate Dean of the Faculty offering the course at McMaster. If you are attempting to register in courses offered by more than one Faculty, you must obtain approval from each Office of the Associate Dean.
### D. Graduates of McMaster Certificate/Diploma Programs
If you have completed certificate or diploma programs from McMaster, you may be granted advanced credit up to maximum specified by Undergraduate Council upon successful completion of the certificate/diploma program. Faculties will take into account the subject matter of both the certificate and degree programs. The credit will normally be applied against your elective courses. For more information concerning the amount of advanced credit granted, please refer to the Certificate and Diploma Programs section of this Calendar.

### E. Post-Degree Students
If you are a university graduate or a person with professional qualifications who wishes to take one or more graduate courses but not proceed to an advanced degree, you may apply to McMaster as a post-degree student. To enroll as a post-degree student, you must apply to the appropriate departments and have your admission and registration approved by the School of Graduate Studies for each session in which you wish to take courses. You will register and pay fees as a graduate student. Acceptance as a post-degree student carries no implications with respect to admission to advanced degrees, and even if such admission is granted subsequently, credit toward the advanced degree will not normally be granted for the work previously taken.

### F. Listeners
If you are uncertain about degree courses, you may register as a listener in a degree course, but not for credit. You attend all classes, but do not complete any of the essays, tests and other formal requirements. You do not receive a grade for courses that you attend. Some students have eased their way into degree study of this option, subsequently applying for admission and enrolling in further courses for credit. Please note not all courses are available to Listeners. Please see http://www.mcmaster.ca/bms/student/index.htm for any applicable fees. For more information please contact the Office of the Registrar. Written permission to attend must be obtained from the instructor delivering the course. An I.D. card cannot be issued until permission has been obtained.

### G. Enrichment Program for Secondary School Students
If you are an outstanding Grade 12 student and wish to enroll in a university-level course while completing Grade 12 U and M courses in your final year of study, you may apply for the Enrichment Program. For more information contact the Office of the Registrar at (905) 525-9140.

### H. Former McMaster Degree Students (Returning Students)
#### READING
If you are a former McMaster student who voluntarily withdrew from an undergraduate program more than five years ago (and have not attended another university or completed a college diploma elsewhere) and you wish to return to your studies, then you must apply for Readmission. Students from the School of Nursing must apply for Readmission regardless of time elapsed following voluntary withdrawal. If you were registered (have a record of course registrations) within the last five years and you left the university in good academic standing (and have not attended another university or completed a college diploma elsewhere), then it is not necessary for you to apply for Readmission. Normally, you will be permitted to register in your previous program or another program for which you qualify.

### 4. Transfer Credits

#### A. General Policy on the Transfer of University Course Credits
To facilitate program completion by undergraduate students seeking to transfer course credit from an accredited university to McMaster, the University has implemented the following principles:

1. Acceptance of transfer credits from accredited universities shall be based on the recognition that, while learning experiences may differ in a variety of ways, their substance may be essentially equivalent in terms of their content and rigour. Insofar as possible, acceptance of transfer credit shall allow for the maximum recognition of previous learning experience in university-level courses;
2. Subject to degree, grade and program requirements, any course offered for credit by an accredited university shall be accepted for credit by McMaster when there is an essential equivalency in course content. However, no course for which a grade of less than C- (60%) has been achieved will be considered.
3. Evaluation of all possible transfer credits available at the time of admission must be completed within one year of the date of admission to the University.

#### B. From Colleges of Applied Arts and Technology
Normally, if you are a well-qualified graduate of a three-year program and the college work is appropriate to your chosen university program, you could receive up to 30 units of transfer credit. If you have completed a two-year program and performed well, transfer credit will be reviewed on a case-by-case basis. Credit beyond this may be given on an individual basis where the college and university programs are in similar areas, and where your academic record warrants special consideration.

In the granting of credit, attention will be given to:
1. your performance in the college program;
2. the duration of the college program;
3. the program taken at the college and the program to which entry is sought;
4. your secondary school record.

Each case will be considered individually on its own merits for the program desired.

#### C. Advanced Credit
Subject to the discretion of the Faculty, advanced credit may be granted if you have completed the International Baccalaureate (I.B.) Diploma, the Advanced Placement (A.P.) Program and the CollegeBoard examinations or the General Certificate of Education (G.C.E.) and you have met the minimum requirements prescribed. Advanced credit may shorten your degree program at McMaster.

#### D. Credit in Courses by Special Assessment (Challenge Examinations)
If you have acquired knowledge at a different type of institution or in a manner that makes assessment of your qualifications difficult, you may be permitted to seek degree credit through special assessment (Challenge for Credit). Challenge for credit is not intended to give credit for skills or knowledge gained through high school, college or previous university instruction. The special assessment may include one or more of the following: written examinations, papers, essays, submissions of a substantial body of work, or portfolios, or laboratory tests. Credit can be granted only for those courses listed in the current McMaster calendar. Not all courses in all disciplines are available for challenge. Faculties and departments are free to determine which, if any, of their courses are open for special assessment. Challenges are assessed on a pass/fail basis. The passing grade for a challenge appears on the transcript as COM (Complete) and is not used in computing averages or evaluating honours or scholarship standing, but is
counted as a course attempt. Unsuccessful attempts will be noted on the transcript. Special Assessment is not available for a course taken previously and a course may be attempted only once by special assessment. Once you have registered for a course by such means (known as challenge exams) the registration may not be cancelled and you may not withdraw from the course.

Waivers of prerequisites only (ie. no degree credit) will be at the discretion of the department.

5. English Language Proficiency

If you have been asked to meet our English Language Proficiency requirement, you must demonstrate English language proficiency by achieving the minimum requirements as specified by McMaster. The university reserves the right to require applicants with an English Language Proficiency score disparate from their English prerequisite subject grade to present further evidence of achievement. You may review acceptable tests of English Language Proficiency and minimum score requirements on our web site [http://future.mcmaster.ca/admission/admission-requirements/language/](http://future.mcmaster.ca/admission/admission-requirements/language/). It is your responsibility to make all arrangements regarding the writing of the English Language Proficiency tests and to have the official score report forwarded to the Enrolment Services, Admissions Office directly from the testing center in a timely manner.

At the discretion of the university, you may be exempted from this requirement if you meet one of the following requirements:

i. Attended immediately prior to application to McMaster, in full-time academic studies (non-ESL), an accredited Secondary School (High School) or Post-Secondary College in an English-speaking country for at least three years, or

**4. Review of Admission and Re-Admission Decisions**

No appeal procedure shall be available for decisions on admission or re-admission to the University. Such decisions may be reviewed within the following framework:

a. An applicant to the University who believes that the admission or re-admission decision, or, in the case of a transfer student the decision to grant credits, is incorrect, or based on incorrect or incomplete information, may, **within one week of receiving the decision**, request a review of that decision by writing to the Associate Director, Enrolment Services, Admissions Office, stating why she/he thinks the decision should be reviewed.

b. The Associate Director, Enrolment Services Admissions shall determine whether the information on which the decision was based was incomplete or incorrect and, if so, shall refer the request for review to the appropriate Faculty Committee. That Committee shall make a final decision and report it to the Associate Director, Enrolment Services Admissions, who shall then convey the decision in writing to the student. The Associate Director, Enrolment Services Admissions may, at his/her discretion, supply reasons.

**Academic Counselling for Admitted Students**

If you are offered admission to a program at McMaster, you will be asked to confirm that you have accepted the offer of admission and will attend the University. Your admission package will include information regarding acceptance procedures for the offer of admission, specified deadline for your acceptance and registration procedures. Offer of admission acceptance deadlines specified in your Offer of Admission letter are strictly enforced. Please ensure that you accept your offer of admission as directed well before the specified deadline date.

If you are admitted to Level I, your Faculty may also arrange a visit to the University so you may meet with a Faculty advisor to set up your program. Although attendance at the summer counselling and registration sessions is not compulsory, you are strongly advised to participate. If you cannot attend one of these sessions, counselling will be provided in September.

If you are offered admission above Level I, you may arrange for academic counselling with the Office of the Associate Dean of the Faculty offering the program, or the Office of the Director of the program.
General Academic Regulations

Academic Commitments
Students should expect to have academic commitments Monday through Saturday but not on Sunday or statutory holidays. Students who require accommodations to meet a religious obligation or to celebrate an important religious holiday should make their requests as soon as possible after the start of term to their Faculty/Program office.

Student Academic Responsibility
In its commitment to helping students achieve their academic goals, McMaster University makes available numerous tools and resources, including the Undergraduate Calendar, advisement reports and academic advisors. However, students must assume certain responsibilities. They include:
- meeting admission requirements for a program
- applying to that program by the stated deadline
- selecting courses that meet the program requirements
- completing courses in an order that meets prerequisite requirements
- becoming familiar with and respecting University Sessional dates (see Sessional Dates), the General Academic Regulations and the Faculty/Program/School specific regulations as found in the appropriate section of this Calendar

Experience has shown that students who do not follow these guidelines may experience academic consequences such as cancellation of registration in courses, completion of courses that are not counted towards their degree, or delayed graduation.

In addition to the responsibilities listed above, students are expected to:
- become familiar with and respect the Senate Policy Statements (see Senate Policy Statements section of this Calendar)
- pay, within the prescribed deadline, undergraduate fees
- be aware that changes to course load and program may affect eligibility for government financial aid (e.g. OSAP and out-of-province student loan programs), University financial aid (e.g. bursaries and work programs) and scholarships
- consult with Student Accessibility Services in a timely manner to make the necessary accommodations for special needs.

Student Communication Responsibility
It is the student’s responsibility to:
- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student’s designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student’s @mcmaster.ca alias.

Academic Regulations
The regulations which follow are the general regulations of the University. You should read both these general regulations and your Faculty regulations which may be more specific. They appear in the Faculty sections of this Calendar. Since the Academic Regulations are continually reviewed, we reserve the right to change the regulations in this section of the Calendar. This University also reserves the right to cancel the academic privileges of a student at any time should the student’s scholastic record or conduct warrant so doing.

In the event there is a conflict between the program regulations and the general regulations in this chapter, the program regulations take precedence.

Academic Regulations are continually reviewed, and may be adjusted.

University Regulations

Residence Requirements
While most students will complete all their undergraduate work at McMaster University, the minimum requirements set out below apply to students who take part of their work at other institutions. In order to obtain any four- or five-level, first undergraduate degree, you must complete at least two of the levels (approximately 60 units of work) beyond Level I, including the final level, at McMaster. To obtain a three-level, first undergraduate degree, you may satisfy the residence requirements either:
1. by completing the final level and at least one other level (a minimum of approximately 60 units of work) at McMaster University;
2. by completing the final level (approximately 30 units of work) at McMaster University, including at least 18 units of program-specific courses.

The work used to satisfy the residence requirements must be completed at McMaster University; work taken at another university on a Letter of Permission will not count toward the minimum residence requirements.

All the work for a second bachelor’s degree must be completed at McMaster University.

Enrolment

POLICY ON ACCESS TO UNDERGRADUATE COURSES
McMaster’s policy on access to Undergraduate courses is designed to ensure that resources are properly managed while enabling students to enrol in required courses so that their program admission requirements and course requisites can be met, and that their program of study is not extended.

1. Enrolment capacities are set on all undergraduate courses taking into account enrolment projections along with resources, enrolment trends and type of course (required or elective).
2. If need exceeds approved capacity, enrolment capacities for courses will be reviewed and may be adjusted.
3. Faculties and Department Offices are responsible for determining which courses require seats to be reserved. These reserved seats must be managed so that students are able to complete program admission requirements, meet course requisites and enrol in courses required to meet their program of studies in a timely manner.
4. Where students are selecting from a list of required courses, access to a specific course is not guaranteed when there is another course available to meet a specific degree requirement.

ENROLMENT:
The purpose of enrolment is to officially record your program and courses. Information on how to enrol is available online at: http://registrar.mcmaster.ca/category/enrol/. You must enrol in courses during the official registration period designated for each session or term. You are responsible for ensuring that your enrolment information is complete, and that your course selections meet the requirements
of your degree. Academic counselling is available from your Faculty or Program Office to assist you in course selections.

ADMISSION TO PROGRAMS

Admission to and transfer between programs must be approved by the Office of the Associate Dean of your Faculty.

SELECTION OF COURSES

Before you select the courses you wish to take, please read the requirements for your program in the appropriate Faculty sections of this Calendar. You are responsible for ensuring that your course selection meets the requirements of your degree. If you fail to meet the program requirements, you will not be eligible to graduate. Select the courses required for your program; then select your electives. Ensure that you have completed the courses which are listed as prerequisites, have completed or chosen courses that are listed as co-requisites and that permissions have been obtained, if required. If you do not have the course requisites, you will not be able to take the course selected.

MULTI-TERM COURSE POLICY

Prior to Spring/Summer Term 2015:

All undergraduate courses had course codes of 4 alpha-numeric digits and were administered as a singular course (e.g. ENGLISH 2G06 CANADIAN LITERATURE).

Effective Spring/Summer Term 2015:

All undergraduate course codes will retain the 4 alpha-numeric digits. Courses that span more than one term (e.g. both Fall and Winter terms), will have the characters A and B added to the code. Therefore, all courses with an additional A/B suffix are multi-term courses. (e.g. ENGLISH 2G06A/B CANADIAN LITERATURE).

Neither Part A nor Part B of a multi-term course has academic credit or value independent of both parts being successfully completed. Students who drop or cancel the ‘B’ portion of a course are not eligible to receive academic credit for the ‘A’ portion. Part A must always precede Part B and both must be taken sequentially within the same academic year. Upon completion of the first Term, the ‘A’ portion of the course will be included on the transcript with a grade designation of MT (Multi-Term). Final grades will not be determined until both A and B components have been completed.

The last day for enrolment and adding or dropping as well as the last day for cancelling without failure by default for multi-term courses are reflected in the Sessional Dates.

CHANGES TO ENROLMENT

The last day for adding or dropping courses is approximately one week after classes begin for each term. (Please see the tables in the Sessional Dates section for the relevant dates for each term of the academic year.). After the above-mentioned period, you may cancel courses until the last day to withdraw without failure by default. Cancelled courses will be shown on your transcript with the notation W. After this date, you will remain enrolled in courses whether or not you attend classes. Your transcript will show a grade of F for any course not successfully completed. You are responsible for ensuring that your course selection meets the requirements of your degree. You should review your personal advisement report on the working day following each time you drop or add courses, and contact an Academic Advisor in the Office of the Associate Dean of your Faculty if you have questions. Changes to your course load may also affect your fees and your eligibility for scholarships and financial aid such as OSAP. Limit on Level I Courses: In most Faculties, you may not obtain credit in more than 42 units of Level I courses in a three-level program, or more than 48 units in a four-level program.

ELIGIBILITY FOR AWARDS

See Undergraduate Academic Awards chapter in this Calendar for more information.

OVERLOAD WORK

If you wish to take more than the normal number of units prescribed for a Level, you may do so only with the permission of the Office of the Associate Dean of your Faculty. Normally, a Fall-Winter Average of at least 7.0 in the immediately preceding review period will be required if an overload is to be permitted. Additional academic fees will be assessed for overload work. (For further information please visit http://www.mcmaster.ca/bms/student/)

LOAD IN SPRING/SUMMER TERM

If you wish to take more than 12 units in the Spring/Summer term, or more than six units in either session of that term, you may do so only with the permission of the Office of the Associate Dean of your Faculty.

REPETITION OF COURSES

Students may repeat courses that have been failed or for which credit has been obtained a number of times, with the exception of the students in the Faculty of Business who may only repeat courses which they have failed. The grades for all attempts appear on the transcript and enter into the computation of the Grade Point Average. However, only one successful attempt will enter into the computation of credit earned towards your degree.

AUDITING COURSES

If you are a currently enrolled student in a degree program and you do not wish to have credit for a course, you may, with the approval of the Chair of the Department and the Office of the Associate Dean, audit the course. You must satisfy the prerequisite for the course, but will not complete assignments nor write the final examinations. You will not be permitted to enrol for credit in the course after the enrolment deadline for the term has passed. Please see http://www.mcmaster.ca/bms/student/ for any applicable fees.

LETTERS OF PERMISSION

If you are in good academic standing at McMaster and if you wish to attend another university to take courses for credit towards a McMaster degree, you must obtain permission ahead of time. To do this you must seek a Letter of Permission from the Office of the Associate Dean. This request can be initiated in the Student Centre in Mosaic. Please take note of any conditions that might apply, including the requirement of a grade of at least C- for transfer credit. You should note that the grades obtained in courses taken at another university will not be included in the Grade Point Average. Full-time students taking courses on a Letter of Permission must continue to carry a full load at McMaster during the Fall and Winter terms if they wish to be considered for Undergraduate In-course Academic Awards; i.e. courses taken on a Letter of Permission do not count toward your load for purposes of academic awards.

WITHDRAWAL FROM THE UNIVERSITY

If you wish to withdraw from the University, you must consult the appropriate Office of the Associate Dean. Your student identity card must be surrendered to the Office of the Associate Dean. Your course record will be handled as outlined above in Changes to Registration.

TRANSFER OF CREDIT BETWEEN FACULTIES

Transfer of credit between Faculties is handled by the Office of the Associate Dean to which you wish to transfer. It is possible that full credit may not be given at the time of transfer between Faculties and additional courses may need to be taken.

CALCULATION OF GRADE POINT AVERAGE FOLLOWING

REINSTATEMENT AFTER POOR ACADEMIC PERFORMANCE:

Effective September 1997, if you are reinstated at the University, your Grade Point Average will be reset to 0.0 on zero units, although you may (at Faculty discretion) retain credit for prior work. If you are reinstated, you will be on academic probation. You must complete a minimum of 60 units of work after reinstatement to be eligible for Graduation with Distinction or other recognition based on the Grade Point Average.

International Study

If you wish to engage in international study, you may do so either by participating in one of the formal exchange programs that exist between McMaster and a number of universities in other countries; by participating in one of the programs available through specific Faculties; or by independent study abroad. Formal exchange programs are those in which McMaster has an agreement with another institution, involving a temporary exchange of students. As an exchange student, you enrol and pay your tuition fees, and supplementary fees at McMaster. No tuition is paid at the foreign institution. If you are interested in participating in a formal exchange program, you can obtain further information and an application form from the International Student Services Office, Gilmour Hall, Room 104.
Academic Standing and Program Requirements

Academic Standing
Academic standing is reviewed in May and August each year for students who
1. have attempted at least 18 units of work since the last review; or
2. may be eligible to graduate at the next Convocation;
In the review of academic standing, three sets of decisions are made:
1. whether a student may graduate;
2. whether a student may continue at the University; and
3. whether a student may continue in a program.

Minimum Requirements to Continue at the University
All students must maintain a Grade Point Average (GPA) of at least 3.5 at each review to continue at the University. Under certain circumstances, as described below, students may be allowed to continue on academic probation for one reviewing period with a GPA of 3.0 to 3.4. If your GPA is less than 3.0, you may not continue at the University.

Level I Registration and Academic Standing Requirements
When you are admitted to McMaster University for a first degree, you will enroll in one of the following Level I programs: Arts and Science I, Business I, Automotive and Vehicle Technology I, Biotechnology I, Process Automation Technology I, Chemical & Physical Sciences I, Computer Science I, Engineering I, Environmental and Earth Sciences I, Health Sciences I, Humanities I, Honours Integrated Science I, Honours Kinesiology I, Life Sciences I Mathematics and Statistics I, Medical Radiation Sciences I, Midwifery I, Music I, Nursing I, Social Sciences I, Studio Art I. If you enter the University without Advanced Standing being granted, you must normally attempt a full load of Level I work before proceeding to the work of higher levels.

If you are studying part-time, the Office of the Associate Dean has the discretion to permit you to take some of the work in the higher levels prior to having attempted the full load of Level I. Decisions will be made on an individual basis, according to the special circumstances that apply in the particular case.
At any review during Level I before you complete the Level I work, as in the case of a part-time student, you must attain a GPA of at least 3.5 to continue at the University in good standing. If you attain a GPA of 3.0 to 3.4 you may remain at the University for one reviewing period, but will be placed on academic probation.

You may be on academic probation only once during your University career. If your GPA is less than 3.0 you may not continue at the University.

At the review when you complete the Level I work, if you attain a GPA of at least 3.0 and have not previously been on academic probation, but fail to meet the admission requirements of any program, you may continue at the University for one additional reviewing period on academic probation. You will be enrolled in your original Faculty, and will be classified as a Level I transition student if your work may only qualify you to be considered for admission to a program in another Faculty. If, at the end of the next reviewing period, you again do not qualify for admission to a program, you may not continue at the University. If your GPA is less than 3.0 you may not continue at the University.

Students in Arts & Science I should refer to the Arts & Science Program regulations listed below.
Health Sciences I, Nursing I and Midwifery I students should refer to the program regulations listed in the Faculty of Health Sciences section in this Calendar.

Minimum Requirements for Entering and Continuing in a Program Beyond Level I
Admission to the programs beyond Level I is based on performance in Level I. You must meet both the minimum requirements to continue at the University, as described above, and program-specific requirements of each Faculty, as described in this Calendar.

ARTS & SCIENCE PROGRAM
B. ARTS SC. (HONOURS) AND B. ARTS SC. PROGRAMS
You must have a Grade Point Average (GPA) of at least 6.0 to continue in the program. If your GPA is from 5.5 to 5.9, you may remain in the program, but will be placed on program probation for one reviewing period. You may be on program probation only once.
If your GPA is 3.5 to 5.4, you must transfer to another program for which you qualify, or enrol in the Arts & Science Program as a transition student for one reviewing period. During that period you cannot take Arts & Science Program courses. At the end of that period you may apply for readmission to the Arts & Science Program. If your GPA is 3.0 to 3.4, you will be placed on academic probation. You may continue in the program for one reviewing period as a transition student but cannot take Arts & Science Program courses. The purpose of this period is to prepare yourself for a program outside the Arts & Science Program. You may be on academic probation only once. (Potential graduands may not continue at the University)
If your GPA is less than 3.0 you may not continue at the University.

SCHOOL OF BUSINESS
Business I
For specific admission requirements to Commerce II see Program Notes under the heading Programs in the School of Business section of this Calendar. If you are not admitted to Commerce II at the end of Business I, you have the following options available to you.
If your Grade Point Average (GPA) is 3.5 or greater, although you may not continue into a Commerce program either now or in the future, you are still in good standing at the University. You may continue at the University in a program outside the School of Business or as a transition student in Business. To continue in a program outside the School of Business you must apply for admission to that program through the Office of the Associate Dean appropriate for that program. You should consult that office for more details.
If you are not admitted to another Faculty you may enroll in the School of Business as a transition student for one reviewing period. During that period you cannot take Commerce courses and you will not be eligible for consideration for admittance to Commerce II or re-admittance to Business I. The purpose of your registration as a transition student is to make you eligible for admission to a program outside the School of Business. If you have a GPA of 3.0 to 3.4, you will be on academic probation and may continue at the University for one reviewing period as a transition student in the School of Business but will not be permitted to take any Commerce courses. At the end of your probation period you will
not be eligible for consideration for Commerce II or re-admittance to Business I. The purpose of the probation period is to make yourself eligible for a program outside the School of Business.

If you have a GPA of less than 3.0 at the end of Business I you may not continue at the University either on a full-time or part-time basis.

Commerce II
Upon satisfactory completion of Commerce II, qualified students may continue in one of the following programs:

Honours B.Com. Program (Requirements for Students Entering in 2013-14 or Later):
You must have a Grade Point Average (GPA) of at least 5.0 to enter the Honours B.Com. Program in Level II or III or to continue in the Honours B.Com. Program. Once admitted to Honours B.Com., if your GPA is 4.5 to 4.9, you may continue in the Honours B.Com. Program, but will be placed on program probation. You may be on program probation for only one reviewing period (as specified in the Glossary section of this Calendar). If your GPA is a 3.5 to 4.4, you may transfer to the B.Com Program. If your GPA is less than 3.5, you may not continue at the University. Regardless of your CA, if you receive more than six units of failure (in required or elective course work) after entry to Level II Commerce, you will not be permitted to continue in a program in the School of Business.

B.Com. Program:
You must have a Grade Point Average (GPA) of at least 4.0 to continue in the B.Com. Program. If your GPA is 3.5 to 3.9, you are permitted to continue in the B.Com. Program on program probation for one reviewing period (as specified in the Glossary section of this Calendar). If your GPA is less than 3.5, you may not continue at the University. Regardless of your CA, if you receive more than six units of failure (in required or elective course work) after entry to Level II Commerce, you will not be permitted to continue in a program in the School of Business.

FACULTY OF ENGINEERING
B.ENG., B.A.Sc., Programs
To be admitted to a Level II Engineering program, you must have completed all non-elective Engineering I courses with a minimum Grade Point Average (GPA) of 4.0. Admission to Level II Honours Business Informatics requires completion of the minimum requirements for these individual programs as stated within the Faculty of Engineering section in this Calendar. In Level II and above, you must maintain a GPA of at least 4.0 to continue in an Engineering program or in the Honours Computer Science or Honours Business Informatics programs. If you have a GPA of 3.0 to 3.9, you may not continue in the Faculty. If your GPA is less than 3.0, you may not continue at the University.

B.TECH Programs
For specific minimum requirements, please see the descriptions for the individual programs within the Faculty of Engineering section in this Calendar.

FACULTY OF HEALTH SCIENCES
For specific minimum requirements, please see the descriptions for the individual programs within the Faculty of Health Sciences section in this Calendar.

FACULTIES OF HUMANITIES AND SOCIAL SCIENCES
Honours B.A. Programs; B.MUS. (Honours) Program; B.F.A. (Honours) Program (Excluding Honours Psychology, Neuroscience & Behaviour (B.A.) Programs):
You must have a Grade Point Average (GPA) of at least 5.0 to continue in an Honours program. If your GPA is 4.5 to 4.9, you may remain in the Honours program, but will be placed on program probation for one reviewing period. You may be on program probation only once. If your GPA is 3.0 to 4.4, you must transfer to another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

Honours Psychology, Neuroscience & Behaviour (B.A.) Programs and Combined Psychology, Neuroscience & Behaviour Programs:
You must have a Grade Point Average (GPA) of at least 6.0 to continue in an Honours Psychology, Neuroscience & Behavior (B.A.) program. If your GPA is 5.5 to 5.9, you may remain in the Honours B.A. program, but will be placed on program probation. You may be on program probation only one reviewing period. If your GPA is 3.0 to 5.4, you must transfer into another program for which you qualify. If your GPA is less than 3.0, you may not continue at the University.

M.R. SC. Program
You must complete all the course requirements prescribed for Medical Radiation Sciences I by the end of term 2 of Level I, with a Grade Point Average (GPA) of at least 5.0 or permission of the Committee of Instruction (Chair Medical Radiation Sciences (Mohawk), Coordinator Medical Radiation Sciences (McMaster), Coordinator Radiation Therapy Specialization, Coordinator Radiography Specialization, Coordinator Ultrasonography Specialization). For additional program-specific regulations, see Medical Physics (Dept. of Med. Physics & Appl. Radiation Sciences) in the Faculty of Science section of this Calendar.
Reinstatement

A. MAY NOT CONTINUE AT THE UNIVERSITY
If you are ineligible to continue at the University (i.e. the Academic Standing on your last grade report was May Not Continue at University) and you wish to apply for reinstatement to a particular program, please contact the Office of the Registrar to obtain the appropriate application form. Students are considered for reinstatement for September entry or for May entry only. You will be required to submit the following information along with your application:

- A brief summary of the circumstances relevant to your lack of academic success.
- Reasons for selection of program indicated.
- Reasons for selection of courses/program indicated.
- Activities since last enrolled at the University, including all academic work. You should provide evidence that you will now be able to succeed in a post-secondary program. Please refer to the website of the Faculty offering your selected program for further advice.

If applicable, you should support your application with appropriate documentation (e.g. from a doctor, lawyer, therapist).

Reinstatement is not guaranteed. There is limited room for students who have been unsuccessful in their previous studies. If at any review after reinstatement your Grade Point Average (GPA) falls below 3.5, you will be required to withdraw from the University for a period of at least 12 months.

B. REQUIRED TO WITHDRAW FROM UNIVERSITY
If you are required to withdraw from the University because your GPA falls below 3.5 at any review after reinstatement, you may apply for reinstatement only after you have been away from the University for a period of at least 12 months. Please contact the Office of the Registrar to obtain the appropriate application form and follow the procedure above.

Transfer Between Programs
If you wish to transfer from one program to another, you should discuss the possibility with the appropriate Office of the Associate Dean to which you wish to transfer. It is possible that full credit may not be given at the time of transfer between Faculties and additional courses may need to be taken.

Minors
If you are enrolled in a four- or five-level program (with the exception of the Medical Radiation Sciences program which is a three-level program offered over a four-year period), you are eligible to obtain a Minor in another subject area, provided that the subject area is not integral to the requirements of your degree program. You should check the calendar requirements statement for your program in the case of Science programs, or check with your Faculty in the case of other programs, for subject areas that are excluded from consideration as a Minor in your program. If you wish to receive a Minor, you should check the information under the heading Minor in the appropriate department's listing. McMaster also offers many different minors including those in Archaeology, Globalization Studies and Jewish Studies (see Interdisciplinary Minors and Thematic Areas.) You will be responsible for ensuring that you enrol in the required Minor courses. Normally, you must complete a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the minor. At least 18 units must be completed at McMaster.

In the final year of your program, when you complete your profile in the online Graduation Information Centre, you must indicate your desire to receive a Minor in the chosen subject. The Faculty Reviewing Committee will verify that the requirements have been met. If you are successful, your transcript will contain a designation for Minor in that area. See the Sessional Dates for deadlines.

The Specialized Minor in Commerce for Students Completing a Single Honours B.A. in Humanities requires an application for admission after Level I. See the Faculty of Humanities section for more information.

Minors cannot be revoked once approved (see Note 3 under Second Bachelor's Degree Programs.)

Second Bachelor's Degree Programs
For admission to a second undergraduate degree program you must hold a first undergraduate degree whether it be a three-level, four-level, or five-level degree. The minimum admission requirements and program of study for the second degree depend on the subject areas of the two degrees.

- Honours Degree following a Three-Level Degree in the Same Subject: For entry, a Grade Point Average of at least 6.0 in the first degree program is required. If admitted, you must take at least 30 units beyond the first degree, including all Honours requirements specified for the program. In some Faculties, this includes a minimum number of units of work in the discipline.

- B.A. or B.Sc. in Another Subject: For entry, you must meet the admission requirements for the program. If admitted, you must complete at least 30 units beyond the first degree, including all program requirements. In some Faculties, this includes a minimum number of units of work in the discipline.

- Honours B.A. or B.Sc. in Another Subject: For entry, you must meet the admission requirements for the program and have a Grade Point Average of at least 6.0. If admitted, you must complete at least 60 units beyond the first degree, including all Honours requirements specified for the program.

- B.M.R.Sc.: Students will be required to complete a minimum of 24 units during Level I of the program. Some of these units may be extra to the degree requirements.

- B. Eng., B.Tech., and B.A.Sc.: For entry, you must meet the admission requirements for the program. If admitted, you must complete at least 60 units beyond the first degree including all program requirements.

NOTES
1. All work for the second degree must be completed at McMaster University.
2. A second degree is not available in all subject areas. You will not be admitted to a second degree program where there is substantial overlap in the requirements. See individual Faculty/Program regulations or consult Faculty/Program Offices for exclusions or further information.
3. Minors will not be revoked to permit later registration in a three-level second degree in the same subject. Students may return for a second degree in a subject in which they have obtained a Minor, but only at the Honours level. (See Minors)
4. Extra courses taken while you are enrolled in a first degree program, or courses completed as a Continuing Student, may, with the approval of the Faculty, be applied to the second degree program.
5. You must meet the same standards for continuation and graduation as are applied to students enrolled in a first degree program.
6. Credit from the first two degrees cannot be applied to a third undergraduate degree. To obtain a third undergraduate degree you must take the complete program, i.e. approximately 90 units for a three-level degree and approximately 120 units for a four-level degree.

Deans' Honour List
Each year outstanding students with a minimum average of 9.5 on at least 30 units are named to the Deans’ Honour List. Students will be assessed at the reviewing period (either after the Fall and Winter terms or Spring/Summer term) when a minimum of 30 units (may not exceed 6 units that are pass/fail) has been completed since the previous Deans’ Honour List review. At each review the assessment will be based on all units completed since the previous Deans’ Honour List review.

Provost’s Honour Roll
Each year outstanding students with a 12.0 average on at least 30 units (usually their Fall-Winter Average) are named to the Provost’s Honour Roll. Students will always be assessed at the same time and using the same average calculation.
as applied to the Deans’ Honour List assessment (may not exceed 6 units that are pass/fail). (See Deans’ Honour List section above)

**Petitions for Special Consideration**

The University wishes to assist students with legitimate difficulties. It also has the responsibility to ensure that degree, program and course requirements are met in a manner that is equitable to all students. Students may submit, in a prompt and timely manner, a Petition for Special Consideration to the Office of the Associate Dean of their Faculty (Faculty office) in those instances where a student acknowledges that the rules and regulations of the University have been applied fairly, but is requesting that an exception to the regulations be made because of special circumstances. Petitions should be submitted in a prompt and timely manner for the relevant term, but no later than July 31 immediately following the Winter term or November 15 immediately following the Spring/Summer term. Two forms are available in the Offices of the Associate Deans (Faculty office):

**PETITION FOR SPECIAL CONSIDERATION (FORM A):**

The Petition for Special Consideration (Form A) is submitted for a variety of issues, including, when a student wishes to have a leave of absence or seeks to depart from University requirements based on compelling medical or personal reasons; or a student believes that an adverse ruling or decision about his/her academic performance, such as failing a course, or being required to withdraw from a program for failure to meet program requirements, should be waived because of compelling medical or personal circumstances.

**PETITION FOR SPECIAL CONSIDERATION: REQUEST FOR DEFERRED EXAMINATION (FORM B):**

The Petition for Special Consideration: Request for Deferred Examination (Form B) is used when a student misses an examination because of compelling medical or personal reasons.

**NOTES:**

1. Once a student has completed an examination, no special consideration will be granted. A student who misses an examination because of compelling medical or personal reasons may submit a Petition for Special Consideration: Request for Deferred Examination (Form B) to the Faculty office, normally within five working days of the missed examination.

2. If the reason is medical, the approved McMaster University Medical Form must be used. The student must be seen by a doctor at the earliest possible date, normally on or before the date of the missed exam and the doctor must verify the duration of the illness. Relief will not be available for minor illnesses. If the reason is non-medical, appropriate documentation with verifiable origin covering the relevant dates must be submitted, normally within five working days.

3. In deciding whether or not to grant a petition, the adequacy of the supporting documentation, including the timing in relation to the due date of the missed work and the degree of the student’s incapacitation, will be taken into account.

4. It is the student’s responsibility to check with the Faculty office for a decision on the request for a deferred examination. If the deferred examination is granted, the student will be informed officially by means of the notation DEF which will appear against the relevant course on the student’s academic record and on the student’s grade report (available in Mosaic Student Centre).

5. Deferred examinations are written during the next official University deferred examination period. Examination and deferred examination dates appear in the Sessional Dates section of this Calendar. Default of the deferred examination will result in a fail for that examination.

6. Students who have been granted more than one deferred examination may be required by their Faculty/Program office to reduce their course load during the term in which the deferred examinations are being written. The decision on a reduced load will be made and communicated with the decision on the request for deferred examinations.

7. At the discretion of the Faculty/Program office, students who have been granted one or more deferred examinations, may not be allowed to enrol in a subsequent term or session until all deferred examination(s) have been completed and the Academic Standing calculated. Students will be notified of this decision by their Faculty/Program office.

The authority to grant any petitions lies with the Faculty office and is discretionary. It is imperative that students make every effort to meet the originally-scheduled course requirements and it is a student’s responsibility to write examinations as scheduled.

Decisions made on Petitions for Special Consideration are final. In accordance with the Student Appeal Procedures, decisions made on Petitions for Special Consideration cannot be appealed to the Senate Board for Student Appeals. However, if a student believes that a decision is a violation of his/her human rights, he or she must contact the office of Human Rights and Equity Services in room 212 of the McMaster University Student Centre, to initiate a complaint.

**Requests for Relief for Missed Academic Term Work**

The University recognizes that students periodically require relief from academic work for medical or personal situations. This academic regulation aims to manage these requests by taking into account the needs and obligations of students, instructors and administrators. It is the prerogative of the instructor of the course to determine the appropriate relief for missed term work in his/her course. Any concerns regarding the granting of relief should be directed to the respective Faculty Office. Requests for relief should be made with a commitment to academic integrity in mind. Requests that deviate from this commitment will be handled under the Academic Integrity Policy and Student Code of Conduct, where appropriate.

1. **Relief for missed academic work worth less than 25% of the final grade resulting from medical or personal situations lasting up to three calendar days:**
   - Use the McMaster Student Absence Form (MSAF) on-line self-reporting tool. No further documentation is required.
   - Students may submit requests for relief using the MSAF once per term.
   - An automated email will be sent to the course instructor, who will determine the appropriate relief. Students must immediately follow up with their instructors. Failure to do so may negate the opportunity for relief.
   - The MSAF cannot be used to meet a religious obligation or to celebrate an important religious holiday.
   - The MSAF cannot be used for academic work that has already been completed/attempted.
   - An MSAF applies only to work that is due within the period for which the MSAF applies, i.e. the 3-day period that is specified in the MSAF; however, all work due in that period can be covered by one MSAF.
   - The MSAF cannot be used to apply for relief for any final examination or its equivalent. See Petitions for Special Consideration above.

2. **For medical or personal situations lasting more than three calendar days, and/or for missed academic work worth 25% or more of the final grade, and/or for any request for relief in a term where the MSAF has been used previously in that term:**
   - Students must report to their Faculty Office to discuss their situation and will be required to provide appropriate supporting documentation (see Documentation Requirements below).
   - If warranted, the Faculty Office will approve the absence, and the instructor will determine appropriate relief.

DOCUMENTATION REQUIREMENTS

If the reason for a request for relief is medical, the approved McMaster University Medical Form covering the relevant dates must be submitted. The student must be seen by a doctor at the earliest possible date, normally on or before the date of the missed work and the doctor must verify the duration of the illness. If the reason is non-medical, appropriate documentation with verifiable origin covering the relevant dates must be submitted, normally within three working days. In some circumstances, students may be advised to submit a Petition for Special Consideration (Form A) seeking relief for missed academic work. In deciding whether or not to grant a petition, adequacy of the supporting documentation, including the timing in relation to the due date of the missed work and the degree of the student’s incapacitation, may be taken into account. Failure to do so may negate the opportunity for relief.

If the petition is approved, the Faculty Office will notify the instructor(s) recommending relief. It is the prerogative of the instructor of the course to determine the appropriate relief for missed term work in his/her course.

Examinations

The Office of the Registrar schedules and conducts most final examinations and December mid-year examinations for full-year Level I courses. See the Sessional Dates section in this Calendar. Examinations organized by the Office of the Registrar during these dates may be scheduled in the morning, afternoon, or evening, Monday through Saturday. Other instructor-scheduled tests and examinations may be held throughout each term in compliance with the Assessment Ban.

Assessment Ban

1. PURPOSE:
The Assessment Ban is intended to enable students to continue to attend classes and start preparing for examinations held during the official University examination period. There is a university-wide ban on examinations and tests in the final week of classes: see below for exemptions. Each year the dates will be listed in the Sessional Dates section of the Undergraduate Calendar.

2. APPLICATION:
   a. Assignments worth more than 10% of the final course grade cannot be assigned during the examination ban period.
   b. Tests and exams cannot be scheduled during the examination ban period.
   c. Take home exams worth more than 10% of the final course grade cannot be due during the examination ban period.

3. EXEMPTIONS:
   a. Tests, including lab tests, are exempt when they have the following characteristics:
      · The test is held in the normal class or lab time slot;
      · The test is worth no more than 10% of the final course grade.
   b. Requests for a waiver of the ban must be approved by the Faculty or Program Office before being considered by Undergraduate Council.

Note: the Assessment Ban does not apply to the M.D. or B.HSc (Midwifery) program offered by the Faculty of Health Sciences.

Examinations Conducted by the Office of the Registrar

- McMaster student photo identification cards are required at all examinations. If you arrive at an examination without presenting a proper I.D. card you will not be admitted to the room and you will be required to have a substitute card made before being seated. There is a fee for this service. No additional time is given to compensate for examination time missed.
- You may only use books, papers or instruments during an examination if they are specifically prescribed on the examination paper. No examinations books or supplies are to be removed from the room.
- No conversation or any form of communication between candidates is permitted in the examination room.
- No cell phones, laptops or any communicating or electronic devices are permitted.
- No food is permitted and drinks must be in a spill proof container.
- The University is not responsible for lost or stolen articles.
- Items (including back packs) that are not required to write the examination should not be brought into the examination as they must be left at the side of the room at your own risk.
- Handbags or small personal belongings may be left beneath your chair but not on your desk.
- You are expected to use the washroom before or after and not during an examination.
- You are responsible for writing the correct examination from the right instructor at the place and time indicated on your personal examination timetable in Mosaic.
- You may leave an examination only after the first 45 minutes have elapsed.
- If you miss a final examination for medical or personal reasons you may submit a Petition for Special Consideration: Request for Deferred Examination (Form B) with supporting documentation to the Office of the Associate Dean of your Faculty, normally within five working days of the missed examination.
- If you begin a final examination, but are unable to complete it for medical reasons, you may submit a Petition for Special Consideration: Request for Deferred Examination (Form A) with supporting documentation to the Office of the Associate Dean of your Faculty, normally within five working days of the examination.
- If you are late for an examination, and it is still in progress, report immediately to the presider in your examination location.
- Special examination arrangements may be made upon application to the Scheduling and Examinations of the Office of the Registrar in some circumstances, such as:
   · conflict with religious obligations
   · conflict between two Registrar-scheduled examinations
   · schedule with three examinations in one calendar day or three consecutive examinations
   · two consecutive examinations if the first examination is three hours long (December exam period only)

Application must be made at least 10 working days before the scheduled examination date and where applicable, acceptable documentation must be supplied. Failure to meet the stated deadline may result in the denial of special arrangements.

- Students with disabilities are required to inform Student Accessibility Services of accommodation needs for examinations on or before the last date for withdrawal from a course without failure by default. (See the Sessional Dates section of this Calendar.) This allows sufficient time to verify and arrange appropriate accommodation. Failure to meet the stated deadline may result in the denial of special accommodation. See Academic Facilities, Student Services and Organizations, Student Accessibility Services section of this Calendar.
- Examinations are not rescheduled for purposes of travel. You must arrange to be available for the entire range of examination dates as listed in the Sessional Dates section.

Deferred Examinations

Students wanting to write their approved deferred examination at an institution other than McMaster must submit a Request to Write Deferred Examination Off-campus Form (PDF) at least 15 working days prior to the date of the deferred examination.

In the case of examinations written at an off-campus location, any fees incurred are the responsibility of the student. This includes the fee to courier the written examinations back to the Examinations Section of the Office of the Registrar.

Deferred Examination dates appear in the Sessional Dates section of this Calendar.
For information regarding application for Deferred Examination, see Petitions for Special Consideration: Requests for Deferred Examinations (Form B).

**Grading System**

The method for determining your final grade will be given in the course outline. Unless otherwise specified in a course outline, course results determined on a percentage scale will be converted to an official letter grade, as indicated in the equivalent percentage scale which follows. The results of all courses attempted will appear on your transcript as letter grades.

- Before submitting a failing grade, your instructor reassesses whatever examples of your work are available.
- To satisfy prerequisite requirements, a grade of at least D- is required, unless otherwise stated.
- You retain credit for all courses with grades of D- or better, except in those programs for which a higher grade is specified in the program regulations.

Since September 1982, the grading scale has been:

If you are enrolled in Level III of an Honours program and wish to transfer to a three-level degree program to be eligible for graduation at the next Convocation, you must submit your request through your Mosaic Student Centre by May 15 for Spring Convocation, and by October 15 for Fall Convocation (if these dates fall on a Saturday or a Sunday, the next business day will be the deadline). If permission is granted, you must complete your profile in the online Graduation Information Centre.

If you are scheduled to graduate from a three-level program and wish to be considered to transfer to Level IV of an Honours program rather than graduate, you must submit your request through your Mosaic Student Centre by May 15 for Spring Convocation, and by October 15 for Fall Convocation (if these dates fall on a Saturday or a Sunday, the next business day will be the deadline). You will receive the decision on your eligibility to transfer on your grade report and if you are not eligible to transfer, you will graduate from your three-level program as scheduled.

During the term in which you expect to complete your graduation requirements, must complete your profile in the online Graduation Information Centre by the appropriate deadline, available at http://registrar.mcmaster.ca/grad.

If you wish to apply to receive a Minor in addition to your major program of studies, you must indicate this in your profile in the Graduation Information Centre as well. You must take the degree at the Convocation immediately following the completion of the appropriate degree work.

Diplomas will not be released if you have an outstanding account with the University. Diplomas held for students with an outstanding account or that have been returned in the mail will only be retained for a period of twelve months following the Convocation date. Students under the above circumstance requesting diplomas after this period will need to purchase a replacement diploma.

**Duplicate and Replacement Parchments, Diplomas and Certificates**

Graduates may request, with payment of the required fee, a duplicate or replacement degree parchment, diploma or certificate. A duplicate copy of the student’s degree parchment, diploma or certificate will be issued when a student requires a second copy of the degree parchment, diploma or certificate. A degree parchment, diploma or certificate will be reissued (noting the date of reissue) when the original document has been lost, damaged or destroyed.

The words duplicate copy or reissued will be affixed to all degree parchments, diplomas or certificates requested in this manner. Degree parchments, diplomas or certificates will bear the signatures of the current Chancellor, President and Vice-Chancellor and Registrar.

Academic Integrity and Academic Dishonesty
The Academic Integrity Policy explains the expectations the University has of its scholars. Some departments and instructors have also developed more specific rules and regulations designed to maintain scholarly integrity. It is the responsibility of each instructor to make students aware of these expectations.
The main purpose of a university is to encourage and facilitate the pursuit of knowledge and scholarship. The attainment of this purpose requires the individual integrity of all members of the University community, including all graduate and undergraduate students.
The University states unequivocally that it demands scholarly integrity from all its members. Academic dishonesty, in whatever form, is ultimately destructive of the values of the University; furthermore, it is unfair and discouraging to those students who pursue their studies honestly.
Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. In an academic setting, this may include any number of forms such as:
- copying or the use of unauthorized aids in tests, examinations and laboratory reports,
- plagiarism, i.e., the submission of work that is not one’s own or for which previous credit has been obtained, unless the previously submitted work was presented as such to the instructor of the second course and was deemed acceptable for credit by the instructor of that course,
- aiding and abetting another student’s dishonesty,
- giving false information for the purposes of gaining admission or credit,
- giving false information for the purposes of obtaining deferred examinations or extension of deadlines, and
- forging or falsifying McMaster University documents.
For a complete definition and examples, please refer to the Academic Integrity Policy, Appendix 3. Students are encouraged to view: www.mcmaster.ca/academicintegrity for further information on academic integrity and how to avoid academic dishonesty. Allegations of academic dishonesty will be handled according to the procedures described in the Academic Integrity Policy. Penalties may be imposed on students who have been found guilty of academic dishonesty. Examples of penalties include a mark of zero on an assignment, zero for the course with a transcript notation, and suspension or expulsion from the University, etc.

Research Integrity and Research Misconduct
The Research Integrity Policy explains the expectations the University has of its institutional personnel to maintain research integrity.
One of the main purposes of a university is to encourage and facilitate the pursuit of research (e.g., an undertaking intended to extend knowledge through a disciplined inquiry or systematic investigation). The University states unequivocally that it demands research integrity from all of its members. Research misconduct, in whatever form, is ultimately destructive to the values of the University; furthermore, it is unfair and discouraging to those who conduct their research with integrity.
This Policy applies to all faculty, postdoctoral fellows, graduate students and undergraduate students taking part in research, directly or indirectly, and other research support staff (for complete definition of Institutional Personnel please see page 4 of the Research Integrity Policy).
All institutional personnel who are involved in research have a responsibility to report what they, in good faith, believe to be research misconduct. The Office of Academic Integrity is the appropriate office to receive concerns and questions regarding an allegation of research misconduct. Responsible allegations, or information related to responsible allegations, should be sent directly to the Office of Academic Integrity in writing.
For the complete definitions and examples, please refer to the Research Integrity Policy: www.mcmaster.ca/academicintegrity
Financial Information

Upon receiving official acceptance from the Registrar’s Office and upon submission of registration, you are responsible for the payment of all fees as defined in this Calendar. Payment of academic fees does not imply your acceptance to the University or approval of your registration. Academic requirements have to be fulfilled before your enrollment is completed. If you are a new student, you may not forward academic fees to Financial Services until you have received your Letter of Acceptance. You should not send residence fees unless you have received notification of acceptance.

You are responsible for the fees for each academic session. No fee credits can be transferred from one academic session to another. It is the policy of the University not to accept enrollment until all previous accounts are paid in full. Any payments received are, therefore, first applied to previous debts and any balances to the most recent debts.

The following fees and regulations were the most recent available at the time of publication. All fees are subject to approval by the Board of Governors. For the most current fee information, please visit http://www.mcmaster.ca/bms/student/. The University reserves the right to amend the fees and regulations at any time.

Undergraduate Fees

If you are a full-time student, fees cover your portion of the tuition cost, enrollment, library, campus health services, student organizations, and athletics, and are payable by all students.

No caution deposits are required, but students will be assessed for any unwarranted loss or breakage.

The University reserves the right to assess other supplementary fees or charges in some courses or programs to recover - in part or in full - the cost of providing course materials, accommodation and transportation for field trips, and the costs of breakages.

Fees charged by the University are approved annually by the Board of Governors for the academic year beginning September 1.

Fees shown below are for 2014-2015. The fee schedules for 2015-2016 will be available on the Student Accounts & Cashiers website at http://www.mcmaster.ca/bms/student/ in the spring of 2015. Tuition fees include a base per unit fee plus mandatory non-tuition related supplementary fees.

Base Per Unit Tuition Per Faculty

Below is a breakdown of Canadian, International (new admissions for 2012-2013 onward) and Visa Undergraduate (returning visa students). Fees shown below are for 2014-2015. Expenses

COSTS OTHER THAN FEES FOR STUDENTS IN CLINICAL COURSES
You must buy uniforms, shoes and uniform accessories, for clinical practice. If you are a Nursing student, your uniform and accessories are ordered under the direction of the School of Nursing. The approximate cost is $200.00. Level I Nursing students are also required to purchase a stethoscope at approximately $100.00 and a basic blood pressure cuff at approximately $40.00.

REGISTRATION EXAMINATIONS
Graduates of the B.Sc.N. program can expect to pay fees (currently, approximately $600.00) to write the comprehensive registration examinations administered by the College of Nurses of Ontario.

INSURANCE OF PERSONAL PROPERTY ON UNIVERSITY PREMISES
The University cannot assume any responsibility for the personal property of any employees, faculty members, or students, nor does the University carry any insurance that would cover their personal property. In most cases, personal fire insurance policies provide an automatic 10% extension covering property away from home. You should inspect your insurance policies to be certain that this is the case.

DEATH AND DISMEMBERMENT INSURANCE
The University considers that the purchase of insurance coverage for death and dismemberment is the individual responsibility of its students. There are various insurance plans available, and although the University does not specifically endorse any one of these plans, it has no objection to explanatory brochures and literature being posted on bulletin boards or distributed in appropriate places. If you are involved in laboratory or field work, you are particularly encouraged to investigate such coverage.

For information on student awards and financial aid, please refer to Undergraduate Academic Awards and Student Financial Aid sections of this Calendar.
In general, preparation for graduate study may be accomplished by combining the core Honours Arts & Science curriculum with a concentration of electives in the intended area of graduate study. Combined Honours Programs, which are available in many subjects, combine the core curriculum of the Arts & Science Program with a prescribed set of courses in a subject and can be expected to satisfy course requirements for admission to graduate study in the particular subject.

### Academic Regulations

**STUDENT ACADEMIC RESPONSIBILITY**
You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

**ACCESS TO COURSES**
All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

**STUDENT COMMUNICATION RESPONSIBILITY**
It is the student’s responsibility to:

- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels.
- Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student’s designated primary e-mail account via their @mcmaster.ca alias.

The Arts & Science Program is governed by the General Academic Regulations of the University, (See the General Academic Regulations section in this Calendar) and the regulations described below.

The Program begins in Level I and leads to the degree, Bachelor of Arts & Science (Honours) on completion of Level IV. The four-level program provides an opportunity for specialization through electives and through an individual study or thesis course. Students who decide to conclude their studies in the program on completion of Level III may qualify to graduate with the degree, Bachelor of Arts & Science (B.Arts Sc.). Students must have a GPA of at least 6.0 to continue in the program. In the case of some Combined Honours programs, the average must include specified courses.

Registration in Level I of the Arts & Science Program is limited to approximately 60 students.

### INQUIRY SEMINAR REQUIREMENTS

Inquiry courses comprise ARTSSCI 1C06 A/B and a set of Upper-Level Inquiry seminars on a variety of topics. ARTSSCI 1C06 A/B must be completed in Level I. Nine units of Upper-Level Inquiry are required and are taken in Level III or IV.

### COMBINED HONOURS PROGRAMS

Students in the Arts & Science Program may undertake Combined Honours Programs in many disciplines within the Faculties of Humanities, Science, and Social Sciences. See Arts & Science and Another Subject for a list of combined programs that are already established. Students should consult the Director of the Arts & Science Program for consideration of other possible combinations. On-line application for Admission to Level II (March) is required for all Combined Honours Programs.

### INDIVIDUAL STUDY/THESIS

Students in the B.Arts Sc. (Honours) Program are required to complete an individual study or thesis (ARTSSCI 4A06 A/B or 4C06 A/B). Students in many Combined Honours Programs are also required to complete an individual study or thesis, often...
through a course in the discipline of their Combined Honours Program (offered by the relevant department). Students should consult the Combined Honours Program description for specific requirements [http://artsci.mcmaster.ca].

For further information, please see Academic Standing and Program Requirements in the General Academic Regulations section in this Calendar.

INTERNATIONAL/CANADIAN EXCHANGE PROGRAMS

3. Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the $100 fee must be submitted to the Office of the Registrar by June 30 for entry in September.

*The form must clearly demonstrate extraordinary circumstances which caused inadequate performance and indicate whether the circumstances surrounding their academic situation have been resolved. They should also include relevant documentary evidence, for example, a letter from a physician outlining any medical condition that might have affected the student’s academic performance or final grade. Reinstatement cases will be carefully screened and the evidence considered will include the student’s academic performance before and after admission to McMaster, as well as the nature of the reasons cited in the application letter and the accompanying documentation. Such exceptional cases will be considered on their merit. Reinstatement is not guaranteed.*

Upon reinstatement, the Grade Point Average for a student is reset to 0.0 on zero units. If at any review after reinstatement the student’s Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

**FORMER COMMERCE STUDENTS**

A student who was previously registered in a McMaster Commerce program, was in good standing and did not attend in the preceding year, but did attend another post-secondary institution must write to the Academic Programs Office to seek readmission. The letter should describe the student’s activities (academic and otherwise) since he/she was last registered.

If five years have passed since the student was last registered at McMaster, he/she should consult the heading Readmission in the Admission Requirements section of this Calendar.

**INQUIRIES REGARDING ACADEMIC REGULATIONS**

A student seeking relief from the School of Business academic regulations must apply in writing to the Undergraduate Recruitment, Admissions, and Student Affairs Committee with appropriate documentation attached. Guidelines for such requests may be obtained from the Academic Programs Office, in the DeGroote School of Business, Room 104.

**COMMERCE INTERNSHIP PROGRAM**

This program is designed to provide students with an opportunity to engage in a career-oriented work experience with one host employer. Positions begin after the successful completion of Level III and continue for a period of twelve or sixteen months. All students must be in good standing with a Grade Point Average of at least 7.0 after Term 1 of Level III to be eligible to participate in the Commerce Internship Program. Upon completion of the internship, students return to campus full-time to complete their degree program. As a pre-requisite to Internship, students must register in and complete COMMERCE 3IN0, a comprehensive, non-credit, ten-hour career development course. Students will receive a transcript notification stating COMMERCE 3IN0 upon completion of the course. Students compete for opportunities with participating companies through an application and interview process with employers directly.

After securing an internship, students must successfully complete a minimum twelve months of experience, obtain a satisfactory employer evaluation and submit a detailed work term report upon return to campus. Meeting these requirements will result in a transcript notation indicating the successful completion of COMMERCE 4IN0, the name of the internship employer and dates of employment. For more information, please contact the Centre for Business Career Development, DeGroote School of Business, DSB-112.

**EXCHANGE PROGRAMS**

There are a number of official exchange programs offered to undergraduate students registered in the School of Business. The countries involved are: Australia, China, Denmark, England, France, Germany, Japan, the Netherlands, New Zealand, Norway, India, Ireland, Mexico, Singapore, and the United Kingdom. Official ex-
change programs offer students the most inexpensive means of studying abroad as students participating in these exchanges avoid the foreign student fees by paying fees to McMaster. All students must be in good standing with a Grade Point Average of at least 7.0 to be eligible to participate in an exchange. In most cases, students who participate in exchange programs go abroad for Level III of their program. Students are only permitted to take one exchange opportunity, regardless of whether it is a one or two term exchange. Information is available from Prof. M. Malik, Director, International Exchange Programs, in the DeGroote School of Business, Room 228 or from the Academic Programs Office, DeGroote School of Business, Room 104.

Additional information may be found under International Study in the General Academic Regulations section of this Calendar.

Information concerning student exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services.

McMaster University’s Faculty of Engineering and Mohawk College’s School of Engineering Technology have partnered since 1997 to deliver the unique Bachelor of Technology program in response to the needs of today’s innovation-based organizations. This type of program is targeted to individuals whose technological interests are applications-oriented.

The programs being offered are of two kinds:

1. A four-year degree program (leading to both an Advanced Diploma in Technology from Mohawk and a Bachelor of Technology degree from McMaster) with entry directly from high school and
2. A degree completion program (leading to a Bachelor of Technology degree) for graduates of the Mohawk College Advanced Diploma in Technology (or graduates of similar programs at other Colleges).

A major thrust of all of the programs is the inclusion of a significant component of management education in order to ensure that graduates are able to perform supervisory and management responsibilities as they advance in their technical careers. The management component is designed to form a cohesive segment which complements the technical program content.

For information concerning the Bachelor of Technology programs, please see the Programs for the Bachelor of Technology (B.Tech.) Degree in this section of this Calendar.

Four-year programs are offered leading to the Bachelor of Engineering degree in the following fields of specialization:

- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Electrical and Biomedical Engineering
- Engineering Physics
- Materials Engineering
- Mechanical Engineering
- Mechatronics Engineering
- Software Engineering
- Software Engineering (Embedded Systems)
- Software Engineering (Game Design)

Five-year programs, leading to the Bachelor of Engineering and Society degree, are offered in:

- Chemical Engineering and Society
- Civil Engineering and Society
- Computer Engineering and Society
- Engineering Physics and Society
- Electrical Engineering and Society
- Materials Engineering and Society
- Mechanical Engineering and Society
- Mechatronics Engineering and Society
- Software Engineering and Society

In addition, and in conjunction with the School of Business, five-year programs leading to the Bachelor of Engineering and Management degree are offered in:

- Chemical Engineering and Management
- Civil Engineering and Management
- Computer Engineering and Management
- Electrical Engineering and Management
- Engineering Physics and Management
- Materials Engineering and Management
- Mechanical Engineering and Management
- Mechatronics Engineering and Management
- Software Engineering and Management

A five-year program leading to the Bachelor of Engineering and Biosciences is offered in:

- Chemical Engineering and Bioengineering

All programs have limitations on enrolment. Students are admitted to the program following successful completion of Engineering I. Admission procedures and criteria can be obtained from the Office of the Associate Dean of Engineering.

**Complementary Studies Electives** are broadening courses with subject matter that deals with central issues, methodologies and thought processes of the humanities and social sciences.

In addition to ENGINEER 4A03, or equivalent, and ENGINEER 4B03, complementary studies electives are required in all Engineering programs.

The Associate Dean of Engineering must authorize each student’s complementary studies elective courses. An approved list is published each spring and is available...
from the Associate Dean’s office (http://www.eng.mcmaster.ca/documents/electives.pdf). Engineering I students should refer to the Degrees and Programs section of this Calendar to determine which Level I Complementary Studies electives are possible (http://www.eng.mcmaster.ca/documents/electives.pdf).

Technical Electives are Engineering or Applied Science courses in subjects relevant to the particular program. A list is available in each Engineering Department office. Commerce Electives are required in Level V of Engineering and Management programs.

Engineering and Society Focus Electives and International Studies Focus Electives are courses offered by various departments throughout the University. These courses are selected in consultation with the Director of the Engineering and Society program, such that they form a proper sequence of the focus electives.

ENGINEERING CO-OP PROGRAM
Undergraduate students in the Faculty of Engineering can enroll in a Co-op or in a non-Co-op version of each program. Students enrolled in the former will be required to complete 12 months of industrial/practical experience prior to graduation. The 12 months experience may be acquired through a combination of three four-month experience terms, or a combination of a four month and eight month experience terms, or an experience term of 12 or 16 months duration. Students may enter the Co-op version of their program at any time up to the beginning of Term 2 of their next-to-last level of undergraduate studies.

As well as completing the academic requirements as specified in this Calendar, students in a Co-op program must complete ENGINEER 1EE0.

Engineering Co-op Fees
An Engineering Co-op fee will be charged for students registered in an Engineering Co-op Program.

EXCHANGE PROGRAMS
Formal exchange programs with a number of universities in other countries are available for B.Eng. students wishing to attend a foreign university and receive credit at McMaster. For further information please see International Study in the General Academic Regulations section in this Calendar. Information concerning student exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY
You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES
All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY
It is the student’s responsibility to:
- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student’s designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student’s @mcmaster.ca alias.

Students enrolled in the Faculty of Engineering programs not including Bachelor of Technology programs, in addition to meeting the General Academic Regulations of the University, shall be subject to the following Faculty Regulations.

ENGINEERING I
To be eligible for a Level II Engineering program, a student must successfully complete all non-elective Level I courses with an overall Grade Point Average (GPA) of 4.0 or greater. To help students who may have had academic difficulty during the year, the Faculty of Engineering has a remedial studies plan (called the M-Opportunity) that provides the opportunity to repeat failed courses in second term and/or in the summer. The results of these M-Opportunity courses are used to calculate a new GPA (failed courses are still counted in the GPA).

A student in Engineering I whose Grade Point Average (GPA) is less than 4.0 can no longer continue in Engineering.

COMPUTER SCIENCE I
To be eligible for any Level II Computer Science program a student requires an overall Grade Point Average (GPA) of 4.0 and must also have passed all non-elective Computer Science I courses. See the program listings under Programs for the B.A.Sc. Degree for specific information on admission requirements for each program.

A student in Computer Science I whose Grade Point Average (GPA) is less than 4.0 may no longer continue in the Faculty.

SEQUENCE OF COURSES
Courses must be taken in the sequence specified in the Calendar for the program. Students must register for all outstanding work of one level before attempting work for a higher level.

REPEATED COURSES
All failed courses must be repeated if they are required courses for the Engineering program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION
A student is required to register in the lowest level for which more than six units of work is incomplete. Work of a higher level may be undertaken only with the permission of the Associate Dean of Engineering.

REINSTATEMENT TO ENGINEERING
A student who is ineligible to continue in the Faculty of Engineering or who may not continue at the university may normally not apply for reinstatement for one full academic year. Exceptions may be made when there are extenuating circumstances which are supported by documentation. Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar or the Office of the Associate Dean of Engineering. The completed form and the $100 fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student’s previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. Reinstatement is not guaranteed.

A student who is reinstated after being ineligible to continue at a given level must repeat all the courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on program probation, and calculation of their Grade Point Average (GPA) will begin anew. If at any review after reinstatement the student’s Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

PROGRAM CHANGES
All program changes must be made through the Office of the Associate Dean of Engineering.

### Admission to Level II Engineering Programs

Admission to Level II Engineering programs requires completion of all non-elective Engineering I courses with a minimum Grade Point Average (GPA) of 4.0. All programs have limited enrolment; should there be more applicants than the limiting number in any program, admission to that program will be based on a points system, computed as the product of the Fall-Winter Average and the number of units taken in the session (a minimum of 31 units will be used in the calculation). Students who do not meet the requirements to proceed to Level II in May will have a Pending flag put on their allocation. The Pending flag will be removed in August if the student completes the requirements over the summer. In addition, admission to a B.Eng.Mgt. program requires the completion of ECON 1B03 with a minimum grade of 5.0; an interview may also be required.

Students admitted to a B.Eng.Society program are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management program, or the Engineering and Society program must first be admitted to the relevant department. Thereafter, they will be considered for admission to one of these two programs.

The Bachelor of Technology (B.Tech.) programs provide a degree-level technological education that is distinct from that offered in Bachelor of Engineering programs. These programs are more oriented to applications in specific technologies, with less emphasis on broader mathematical and scientific foundations than a corresponding engineering program. Graduates will have considerably more breadth and depth in their area of technology than graduates of college technology diploma programs. For degree completion programs, a second objective is to provide a path for college diploma graduates to gain an education leading to a university degree. The programs are being offered in two specific configurations:

- **Four-year programs** with direct entry from secondary school leading to a Bachelor of Technology Degree from McMaster and both an Advanced Diploma in Technology and a Business Management Certificate from Mohawk College. The Four-Year Degree Programs are:
  - Automotive and Vehicle Technology
  - Biotechnology
  - Process Automation Technology
- **Degree-completion programs** for graduates of an Advanced Diploma in a Technology program leading to a Bachelor of Technology degree from McMaster. The Degree Completion Programs are:
  - Civil Engineering Infrastructure Technology
  - Software Engineering Technologies
  - Energy Engineering Technologies
  - Manufacturing Engineering Technology

**BREADTH OF LEARNING**

B.Tech. graduates will be functioning in an evolving world in which they will play an important role as “evolvers” or change agents. This means that their education cannot just be narrowly focused on technical and management topics but must also enable them to develop important complementary skills, including written and oral communication skills; as well as understanding the relationship between technology and society. The Four-year B.Tech. program has three courses which are designed to develop those unique skills and broaden understanding of the complexities of technological-societal interrelationships.

**MANAGEMENT STUDIES**

The Degree Completion Program includes a seven-course management studies component, and the Four-Year program has a 10 course management studies component designed to develop management skills in a technology context. These courses (e.g. financial systems, entrepreneurship, project management and technology strategy) provide graduates with necessary skills for the development of their professional careers and provide employers with highly skilled graduates possessing a blend of technological and managerial capabilities required by business in order to strengthen competitiveness.

**CO-OPERATIVE EDUCATION**

The successful completion of Co-op work terms is a mandatory component of all B.Tech. degree programs; co-op work terms provide explicit experiential learning which is related to the technologically-oriented careers for which students are being prepared. Testing and enhancing their skills through a co-operative education experience is important in enabling graduates to function effectively in an industrial environment. All Co-op work terms must be completed prior to the start of the final academic term. The co-op component is managed by Engineering Co-op and Career Services.

ACADEMIC REGULATIONS FOR FOUR-YEAR B.TECH. PROGRAMS

STUDENT ACADEMIC RESPONSIBILITY

You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES

All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

STUDENT COMMUNICATION RESPONSIBILITY

It is the student’s responsibility to:
- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student’s designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student’s @mcmaster.ca alias.

MINIMUM REQUIREMENTS TO CONTINUE IN A PROGRAM BEYOND LEVEL I

In Level II and above, the student must maintain a Grade Point Average (GPA) of at least 3.5 to continue in the B.Tech. program.

SEQUENCE OF COURSES

Courses must be taken in the sequence specified in the requirements for the program as outlined in this Calendar. Students must register for all outstanding work of one level before attempting work for a higher level.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the B.Tech. program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work are incomplete. Work of a higher level may be undertaken only with the permission of the B.Tech. Academic Advisor, Office of the Associate Dean (Academic).

MINIMUM WORK LOAD

The minimum workload for students registered in Level I of the Bachelor of Technology program is 30 units. The workload for students registered above Level I will range from 30 to 36 units per year and is specified within each academic program.

REINSTATEMENT

A student who is ineligible to continue in a Bachelor of Technology program (May not continue at university) may normally not apply for reinstatement for one full academic year. Exceptions may be made where there are extenuating circumstances that are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student’s previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous academic problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. Letters of reference may be submitted but are not required. Reinstatement is not guaranteed. A student who is reinstated after being ineligible to continue at a given level must repeat all courses of that level, unless specific course exemptions are granted explicitly in the letter of reinstatement. Students who are reinstated will be placed on program probation, and calculation of their Grade Point Average will begin anew. If at any review after reinstatement the student’s Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

TRANSFERS FROM ENGINEERING

Students in good standing in Engineering I can apply to transfer directly Level I B.Tech. Programs. (Automotive and Vehicle Technology I, Biotechnology I, Process Automation Technology I). Advanced credit will be given for Engineering I courses completed with minimum grade of C- which are equivalent to courses in the Bachelor of Technology program. Students who anticipate making such a transfer should consult with the B.Tech. Academic Advisor, Office of Associate Dean (Academic) at the earliest possible opportunity. Applications for transfer must be submitted to the Academic Advisor (Four-Year Bachelor of Technology Programs) no later than June 15.

REQUIREMENTS FOR ADVANCED MOHAWK DIPLOMA

Students registered in the Four-Year Bachelor of Technology Program may elect to leave the Program upon the successful completion of Level III. Students will be awarded a Mohawk College Advanced Diploma.

ACADEMIC REGULATIONS FOR DEGREE COMPLETION B.TECH. PROGRAMS

STUDENT ACADEMIC RESPONSIBILITY
You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

STUDENT COMMUNICATION RESPONSIBILITY
It is the student's responsibility to:
- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.

Students enrolled in a degree-completion program for the B.Tech. degree, in addition to meeting the General Academic Regulations of the University, shall be subject to the following regulations.

ADVANCED STANDING
The Bachelor of Technology degree is a 4-year degree program. A minimum of 72 units of work must be completed at McMaster University in order to obtain a Bachelor of Technology degree.

SEQUENCE OF COURSES
Students in the degree completion program may register in any courses in the program for which they have achieved the specified prerequisite requirements.

REPEATED COURSES
All failed courses must be repeated if they are required courses for the B.Tech. program or may be replaced if the courses are not explicitly required.

LEVEL OF REGISTRATION
A student is required to register in the lowest level for which more than six units of work is incomplete.

WORK LOAD
Courses in the degree completion program are only offered on evenings (Monday through Friday) and on Saturdays. Students may elect to register in the program full-time or part-time. Students in these programs are considered to be full-time if registered for 9 units or more in an academic term. Students working full-time should not attempt more than two or three courses per academic term. Part-time students have up to seven years to complete the program in its entirety. The minimum number of units that may be taken in one academic term is three units (one course).

REINSTATEMENT
A student who is ineligible to continue in a Bachelor of Technology program (May not continue at university) may normally not apply for reinstatement for one full academic year. Exceptions may be made where there are extenuating circumstances that are supported by documentation.

Students seeking reinstatement must complete the Reinstatement Request Form available at the Office of the Registrar. The completed form and the fee must be submitted to the Office of the Registrar by June 30. The form must be accompanied by a written explanation of the reason for the student's previous unsatisfactory academic performance, reasons for reinstatement at this time (including documentation of what has been done to correct previous academic problems), reasons why the student would expect to succeed in the desired program if reinstated (i.e. what was the previous problem and what has been done to correct it), activities since last registered at McMaster including all academic work. Letters of reference may be submitted but are not required. Reinstatement is not guaranteed.

A student who is reinstated after being ineligible to continue at a given level must repeat all courses of that level, unless specific course exemptions are granted.

NOTE
Co-Op Education: Students in the Four-Year Bachelor of Technology programs will be required to complete 12 months of co-op experience prior to the start of their final academic term. The 12 months of co-op experience may be acquired through a combination of three four-month experience terms.

ADMISSION TO DEGREE COMPLETION PROGRAMS

The minimum academic requirement for admission to a Bachelor of Technology degree completion program is successful completion of an advanced technology diploma from an Ontario college with a Grade Point Average of 75%. The degree completion programs will accept students with diplomas in a related technology program. Applicants with educational background equivalent to those completing Ontario college diplomas (i.e., overseas technology diploma or degree graduates) are encouraged to apply; such applications will be considered on an individual basis. All applicants to the B.Tech. Degree Completion program are required to complete and submit an on-line supplementary form (in lieu of a resume) as part of the application/admission process: http://www.mybtechdegree.ca/supplementaryform.html.

NOTE

Co-op Education: Students in the degree completion Bachelor of Technology programs who initially registered in a program in September 2006 or later will be required to complete eight months of co-op experience prior to the start of their final academic term. The eight months of co-op experience may be acquired through a combination of two four-month experience terms. These co-op work terms will be waived for diploma graduates whose programs are operated on a co-op basis (which would be the case for Mohawk College diploma graduates) and for diploma graduates who have achieved significant work experience in a related field through the completion of a Prior Learning Assessment conducted by the Engineering Co-op & Career Services Office.

As well as completing the academic requirements as specified in this Calendar, students in co-op must also complete the following courses prior to graduation:

- ENGTECH 1ET0 - Introduction to the Technology Co-op Program
- ENGTECH 2ET0 - Four Month Co-op Experience I
- ENGTECH 3ET0 - Four Month Co-op Experience II

ENGTECH 1ET0 must be completed at least one academic term prior to the term in which the first co-op placement is taken.

OVERVIEW
The concept of Health Sciences Education is based on the view that health is a broad subject encompassing both the problems of ill health and the impact of biology, environment and lifestyle on health. Each health professional has specific educational requirements, but by learning together in shared facilities there exists an opportunity to establish effective interprofessional working relationships. The programs in the Faculty attempt to meet these goals through a variety of learning approaches. Emphasis is placed on problem-based, small group learning experiences. Other approaches to learning, including interdisciplinary educational experiences, are used where appropriate.

In July 1974, the School of Nursing and the School of Medicine were brought together to form the Faculty of Health Sciences. In 1989, the School of Occupational Therapy and Physiotherapy (School of Rehabilitation Science) was added and in 1993 the Midwifery Education Program was established. A further innovation was the implementation of the Bachelor of Health Sciences Program in 2000, followed by the establishment of the Bachelor of Health Sciences (Physician Assistant) in 2008. The Faculty offers the following undergraduate degree programs: Doctor of Medicine (MD), Bachelor of Science in Nursing (B.Sc.N.), Bachelor of Health Sciences (Honours) (B.H.Sc. Honours), Bachelor of Health Sciences (B.H.Sc.) in Midwifery and Bachelor of Health Sciences (Physician Assistant). In addition to its undergraduate programs, the Faculty of Health Sciences also has responsibility for Residency Programs in Postgraduate Medical Education.

The School of Graduate Studies offers six distinct research-oriented graduate programs, each leading to a M.Sc. or a Ph.D. degree in the areas of: Biochemistry, Medical Sciences, Health Research Methodology, Health Sciences Education (M.Sc. Program), Nursing and Rehabilitation Sciences The Faculty offers the Medical Science program leading to the M.Sc. and Ph.D. degrees in the following areas: Blood & Vasculature, Cancer & Genetics, Infection & Immunity, Metabolism & Nutrition and Physiology and Pharmacology. Two professional core-based programs, Occupation Therapy and Physiotherapy are also offered at a Master’s level. Graduate diploma programs are also available in Advanced Neonatal Nursing, Health Services and Policy Research and Water Without Borders. Six collaborative graduate programs are offered in conjunction with
Health Sciences and other faculties: Biomedical Engineering, eHealth (M.Sc. program), Global Health (M.Sc. program), Health Management (MHM program), Health Policy (Ph.D. program) and Neurosciences.

Interprofessional programs, postprofessional in nature and leading to an academic diploma, include: Child Life Studies and Clinical Behavioural Sciences. As well, a Certificate in Primary Health Care Nurse Practitioner is offered.

The Faculty of Health Sciences collaborates with the Division of Health Sciences at Mohawk College in educational programs for other health professions based at the College. Research programs encompassing the broad spectrum of health have been established, including basic and applied research and various aspects of health-care delivery. The graduate programs in medical sciences are related to the various areas of health research.

The Health Sciences Centre at McMaster provides educational and research facilities for medicine, nursing and other health professions. It includes a teaching hospital (the McMaster Site of Hamilton Health Sciences) with extensive ambulatory clinics for primary and specialized aspects of patient care. The building has been designed to bring into close proximity the programs for the various health professions and to integrate the facilities for education, research and patient care in the Faculty of Health Sciences.

In addition to the Health Sciences Centre, education, research and clinical programs are based at other Hamilton Health Sciences sites (Chedoke, General, Juravinski), St. Joseph’s Centre for Mountain Health Services, St. Joseph’s Hospital, St. Peter’s Hospital, Juravinski Cancer Centre and the Health Sciences Education Centre, Mohawk College. Extensive use is made of a variety of community agencies. In accordance with the plan to coordinate the development of specialized health services among the Hamilton and District hospitals, the Postgraduate Education programs in medicine have been developed on a regional basis.

ADMISSION AND REGISTRATION

Application to any program in the Faculty of Health Sciences implies acceptance on the part of the applicant of the admission policies and procedures, and the methods by which applicants are chosen for the Health Sciences programs. Registration in any program in the Faculty of Health Sciences implies acceptance on the part of the student of the objectives of that program and the methods by which progress toward the achievement of those objectives is evaluated.

The following describes the regulations governing admission and registration in the Health Sciences programs, and should be considered in conjunction with specific admission requirements described on the following pages for the Bachelor of Health Sciences (Honours) program (B.H.Sc. Honours), School of Medicine (MD), the Midwifery program (B.H.Sc.), the School of Nursing (B.Sc.N.) and the Physician Assistant Education program (B.H.Sc.). The following application deadlines are strictly enforced. Deadline dates are for consideration of admission to a program in the following September.

Diploma Program in Clinical Behavioural Sciences August 1

The University reserves the right to change the admission requirements at any time without notice.

As places in the degree programs of the Faculty of Health Sciences are limited, admission is by selection, and possession of published minimum requirements does not guarantee admission. The University, therefore, reserves the right to grant admission to a limited number of students, and to refuse admission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the program for a period in excess of one academic year.

An evaluation of Unsatisfactory in the School of Medicine signifies that the student has failed to meet these objectives and the University may require the student to withdraw from the School at any time. The University reserves the right to require the withdrawal of a student should his or her conduct so warrant.

FALSIFICATION OF ADMISSION INFORMATION

An applicant supplying documentation or evidence which, at the time, or subsequently, is found to be falsified will be withdrawn from consideration. An student admitted to the program having submitted false evidence will be withdrawn.

HEALTH REGULATIONS FOR ADMISSION

Before registration, students must file with the University evidence of a recent health examination, immunization screening and chest X-ray. More detailed medical information will be required upon acceptance into the program.

CLINICAL COURSE REQUIREMENTS

Where the performance of the student in clinical practice may jeopardize or endanger the welfare of the patient or the patient’s family, the student may be removed from clinical experience any time during the academic year, until continuation in the course is reviewed.

INFORMATION AND ACADEMIC COUNSELING

In certain programs, a faculty member is selected for each student in the September of entry to a degree program and provides each student with advice on evaluations, electives and other educational needs throughout the program. Changes in advisors may be entertained as each student becomes acquainted with Faculty well enough to choose his or her own advisor. The academic advisory role for B.Sc.N. students is fulfilled by the Coordinator of Studies (Nursing). Students are also encouraged to consult individual faculty members regarding career planning.

TRANSPORTATION

Students are responsible for expenses involved in transporting themselves to community agencies, making home visits, or in connection with clinical study.

LICENSE TO PRACTICE

All graduates who wish to engage in clinical practice in any of medicine, midwifery, nursing, occupational therapy and physiotherapy are subject to any qualifying examinations and other requirements by the licensing bodies for each of these professions. In addition students should be aware that a license may be denied if they have been convicted of a criminal offence for which a pardon has not been granted. A student in such a position should consult the respective licensing body about such a situation.

Post-Professional Health Sciences Education Programs

CHILD LIFE STUDIES FULL-TIME DIPLOMA PROGRAM

This is an eight-month applied professional program in the Faculty of Health Sciences, focusing on the development of knowledge and skills for individuals working with infants, children, youth and families in a health care setting and community based programs.

The learning objectives are:

1. to examine and review the growth and development of infants, children and youth, incorporating communication, play, expression of feelings, discovery and mastery of the environment, behaviour management, and parent/child relationships, and

2. to examine the child life role by demonstrating critical thinking in assessment, intervention, prevention, advocacy and documentation in
situations critical to the child’s development, at times of acute and chronic illness and potentially traumatic or life-changing events.

Graduates of the Child Life Studies Program will:
1. Demonstrate assessment skills and interact with patients and families using theories of human growth and development, family systems and knowledge of cultural background
2. Demonstrate effective use of therapeutic and expressive play as a primary tool for assessing and meeting psychosocial needs
3. Effectively provide provision of a therapeutic and safe environment for individuals and groups aged newborn - 18 years
4. Demonstrate ability to assist patients and families in coping with the stress of hospitalization, illness, death, and/ or loss
5. Demonstrate effective use of developmentally appropriate language and medically accurate teaching aids and techniques with children of all ages
6. Demonstrate ability for self-evaluation of professional practice
7. Function as a member of and integrate Child Life programming into the health care team
8. Represent and communicate Child Life and psychosocial issues of pediatric health care to others
9. Demonstrate the ability to supervise volunteers
10. Demonstrate evaluation and/ or record-keeping of child life services

Coursework involves emphasis on problem-based small group learning, case studies and self-directed learning. Two eight-week internship placements in children’s hospitals and community settings are a requirement of this program.

ADMISSION
A related university degree with an overall B average is required, as well as relevant experience. Admission is based on the assessed strengths of each applicant as determined by a 2 stage selection procedure:
1. Application package
2. Interview

Not all candidates are offered interviews. Candidates must be successful at stage one to be offered an interview.

The Child Life Studies Program has a limited number of internship positions and the admission process is very competitive. The admission requirements stated are minimum requirements. Applicants who achieve highest overall admission scores based on application package and interview will be given preference for entrance into the program. Offers of admission will be made following the interview process.

Applications must be submitted by March 1 of each year for the study period beginning in September. Information outlining application requirements can be obtained by contacting the Child Life Studies program office at (905) 525-9140, ext. 22795 http://www.fhs.mcmaster.ca/childlife.

Unsuccessful Applicants
Applications are not held over from one year to another. If the applicant wishes to reapply they must resubmit a new application package including transcripts and additional material.

EVALUATION AND CONTINUATION IN THE PROGRAM
Evaluation by self, peers, preceptors and faculty is part of an on-going assessment process of coursework, internships and program objectives.

A student must achieve a Cumulative Average (CA) of at least 70% in all graded courses combined and achieve a Pass/Satisfactory performance in both internships.

UNDERGRADUATE LEVEL COURSES
Undergraduate level courses in Child Life are available separate from the postgraduate program. Please see the course descriptions listed in the Course Listings section of this calendar, under the subject Child Life Studies (CHILD LS). Contact Allison Riggs, Coordinator of Online Learning, Child Life at ariggs@mcmaster.ca for more information.

Occupational Therapy Examination and Practice Preparation Project (OTEpp)
The focus of the Occupational Therapy Examination and Practice Preparation (OTEpp) Program is to assist internationally educated occupational therapists (IEOTs) as they seek to transition into practice in Canada. The project is led by the School of Rehabilitation Science at McMaster University in partnership with the Canadian Association of Occupational Therapists (CAOT). The core curriculum includes gaining knowledge of theoretical practice frameworks, ethics and evidence in practice, and core information as outlined in the national examination blueprint. Participants will need to achieve an average of 60% on all assignments in order to pass the course. More information is available at www.otep.ca

ADvanced standing and double counting
The OTepp Certificate program is a stand-alone program for those who have already successfully completed a degree in occupational therapy: there are no courses with an equivalent to undergraduate courses at McMaster University. As such, advanced standing for students wishing to apply OTepp credits towards a degree program at McMaster is not possible. Furthermore, OTepp courses were developed to prepare internationally educated occupational therapists and Canadian trained occupational therapists who are entering or re-entering the profession in Canada to pass the Canadian certification exam and to transition into practice in Canada. The nature of these courses precludes “double counting” of credits from a degree or diploma program towards completion of OTepp.

Health Professional Entrance Preparation Undergraduate Certificate
Health Professional Entrance Preparation (HPEP) certificate is a gateway program for internationally educated students to enter a Canadian health professional education program including medicine, occupational therapy, physiotherapy, speech language pathology, nursing, midwifery, and others at universities and colleges across Canada. Overall, the curriculum will focus on generic skills that are relevant to all health professions. The 4-month online component of the program will introduce students to the context of health care in Canada, health professional practice, and provide the opportunity to build written communication skills. The 4-month face to face component will be problem-based learning in design, develop critical appraisal skills of literature and provide intensive experiential written and oral language application focused on critical thinking and reasoning as well as group and interpersonal communication skills.

Admission Requirements
This certificate program considers international students who have already completed a Baccalaureate degree from an accredited university or college outside of Canada. Applicants must meet English language proficiency requirements according to McMaster policy: Completion of TOEFL (iBT) exam with minimum acceptable score: 92 overall with a minimum score of 22 for reading, 24 for speaking, 24 for listening, 22 for writing, valid for 2 years. There is no opportunity to transfer credits from HPEP to other courses or degree programs at McMaster University. For more information visit www.hpep.mcmaster.ca

Program Overview
This program, first offered in September 2000, is an innovative interdisciplinary program in which students take responsibility for their learning and in which there is recognition that both the knowledge and skill sets developed by students are
integral parts of preparing for either further study or entry into the workforce. The principles of independent learning and an emphasis on both content and process are central to the provision of education within the Faculty of Health Sciences, and are reflected in this program. In addition, this program reflects the established tradition within the Faculty of understanding health from biological, behavioural and population-based perspectives. The program will draw on individuals from within the Faculty of Health Sciences and the larger university community to provide students with exposure to basic and applied researchers as well as health care practitioners, enabling students to learn about and experience the study of health from these various perspectives. The program will utilize both a small group, inquiry based format as well as traditional lecture, lab, and tutorial based teaching formats to provide students with a solid knowledge base in health related sciences as well as the skills necessary to critically evaluate and synthesize health related information.

The program is designed to emphasize flexibility, recognizing that students may use this program to prepare for a variety of post graduate options including graduate work in medical sciences, professional schools and entry into the workforce. Beyond the first year students may select to focus on one perspective of health and develop relative expertise in this area, while other students may find that their needs are better met by pursuing a broader based program of study through their senior years.

The program begins in Level I and leads to the degree Bachelor of Health Sciences (Honours) upon successful completion of Level IV. The four-level program offers opportunity for specialization through electives and through individual study or thesis courses.

Registration in Level I of the program is limited to approximately 160 students, with expansion to 180 students at Level II.

**BIOMEDICAL SCIENCES SPECIALIZATION**

The Biomedical Sciences Specialization will provide students with the option of concentrating their studies in biomedical research. Drawing on faculty from the Departments of Biochemistry and Biomedical Sciences and Pathology and Molecular Medicine, the specialization is designed to build on the existing principles of excellence in the B.H.Sc. (Honours) program, by incorporating fundamental concepts and experimental techniques used in biomedical research. This course of study will emphasize the development of essential skills in communication, problem-solving, critical thinking, scientific reasoning and logic, experimental design, and working both independently and in a group. These transferable skills and fundamental principles in biomedical sciences will prepare students for a future in professional school, industry, research or graduate studies. Upon acceptance into the B.H.Sc. (Honours) program and the completion of Level I, students will apply to this specialization in March.

**GLOBAL HEALTH SPECIALIZATION**

An understanding of human health is incomplete without an understanding of health within the global context. A complex web of relationships and interactions produce themes of global health that can be seen as emergent properties of the human experience. Engaging with global health issues requires an interdisciplinary academic experience. The specialization in Global Health in the Bachelor of Health Sciences (Honours) Program provides students with an environment that incorporates insight from the traditional academic fields of anthropology, philosophy, ethics and law, while drawing heavily on the expertise present within the Faculty of Health Sciences in the domains of biostatistics & epidemiology, health economics & policy, molecular medicine & pathology, and health research methodology. A core component of the specialization revolves around a four-month embedded learning experience with partners and institutions abroad and within Canada. Students spend a year adding to their knowledge and personal development domains in preparation for this experience and will explore curriculum upon their return, which is designed to maximize the experiential learning that occurred outside the formal boundaries of the university. The specialization is a unique undergraduate opportunity that challenges students to embrace complexity through the development of a global consciousness and the understanding of health as a fundamental component of the human experience. Graduates will attain the knowledge to undertake further studies at the postgraduate level. They will have an opportunity to explore personal developmental and an academic skill set necessary for the role as contributors to global health issues. Upon acceptance into the B.H.Sc. (Honours) program and the completion of Level I, students will apply to this specialization in March.

**CHILD HEALTH SPECIALIZATION**

The Child Health Specialization offers students a unique opportunity to apply the inquiry problem-based learning model within the dynamic context of child health, development and community involvement.

The Child Health Specialization curriculum based on three thematic pillars - education, research, and experiential/community learning - cuts across academic disciplines related to child health such as paediatrics, psychiatry, psychology, social work, developmental rehabilitation, education, etc. The Child Health Specialization utilizes existing expertise within the McMaster University and Hamilton communities; by doing so it allows for the integration of theory and knowledge with experiential learning and research skill development within the challenging context of child health. World-renowned teachers/facilitators, researchers and clinicians from across disciplines serve as supervisors/mentors for students with an interest in child health.

Upon acceptance into the B.H.Sc. (Honours) program and the completion of Level I, students will apply to this specialization in March.

**PROGRAM GOALS**

The overall goal of the program is to educate students in such a way that upon graduation students have a firm foundation in the health sciences, and the skills necessary to learn and adapt in subsequent educational or occupational environments.

**KNOWLEDGE**

To acquire a broad knowledge base that reflects the Faculty’s commitment to studying health from biological, behavioural and population-based perspectives. This should include an understanding of the structure, function and behaviour of the human body, the environmental determinants of health and the ways that these factors interact to result in disease or illness.

**SKILLS**

To acquire and apply the following skills as a student and member of society:

1. **Self directed learning skills**: The ability to identify gaps in one’s own knowledge that prevent solving a problem, to formulate a plan that uses appropriate educational resources, and to obtain and synthesize the information needed to solve that problem.

2. **Critical thinking skills**: The ability to evaluate the merit of information obtained in various ways and to present information in a way that shows evidence of a critical, reflective approach to information and problems.

3. **Synthesizing skills**: The ability to understand that most problems can be analyzed from a number of perspectives, to identify these perspectives and to formulate solutions that are comprehensive and adequate reflections of various levels of analysis.

4. **Communication skills**: The ability to communicate an issue in oral and written form, both effectively and concisely.

**PERSONAL QUALITIES**

Individuals who successfully complete this program should be prepared to accept responsibility for a life-long process of learning and personal and professional growth. They should respect the various approaches to the study of health, and the beliefs associated with these studies, and should be open to new ways of learning and understanding. They should understand that health care is a collaborative process and be capable of working collegially with others, while being prepared to contribute to the well-being of those around them.

**Admission Procedures and Requirements**

Please note that the admission policy may be reviewed annually and the admission requirements may be changed in future years. As places in this program are limited, the admission process is competitive. Possession of the minimum requirements does not guarantee admission to the program.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY
You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES
All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in MOSAIC. In addition to the regulations in the General Academic Regulations section of this Calendar, the following Program regulations apply.

Minor
This information is directed to B.H.Sc. students who are interested in completing a minor in another subject area. A minor is not available in the B.H.Sc. (Honours) Program.

A Minor is an option available to a student enrolled in a four- or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student’s transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

Continuation in the Program
Students who have a minimum GPA of 6.0 may continue in the program. If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once. Students previously on program probation who achieve a GPA between 3.0 and 5.4, may transfer to the B.H.Sc. General Program and, with permission, take B.H.Sc. required courses (for which all course prerequisites have been met). Students in this situation must attend a mandatory preregistration academic advising session in the BHS Program office. Students who, at next review, achieve a GPA of at least 5.5 may transfer to the B.H.Sc. (Honours) program. Students who fail to meet the minimum requirements for transfer to B.H.Sc. (Honours) by the end of 90 units, must transfer to a non-BHSc program for which he/she qualifies or graduate with a B.H.Sc. three year degree provided a minimum 3.5 GPA is achieved and all program requirements have been met. Students whose GPA is less than 3.0 at any academic review may not continue at the University.

Letters of Permission
Students enrolled in the B.H.Sc. (Honours) Program may apply to take courses at another university on a Letter of Permission via MOSAIC. Students must achieve a grade of at least C- to receive credit. Students are responsible to forward the transcript from the other university directly to the Assistant Dean (MDCL-3308). If a grade of C- or better is attained, the transcript designation reads T indicating transfer credit, or NC indicating not complete if less than a C- grade is attained.

Courses taken at another university cannot be used to satisfy the university’s minimum residence requirements, will not be included in the calculation of the Grade Point or Fall-Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission. Students must be in good standing to be eligible to take courses on a Letter of Permission.

Level of Registration
A student with six or more units incomplete at any level may proceed to the next level of the program only with the permission of the B.H.Sc. (Honours) Program Office.

Reinstatement to the B.H.Sc. (Honours) Program
A student who may Not Continue at the University may apply for reinstatement. Students seeking reinstatement should complete the Reinstatement Request Form available at the Office of the Registrar (Gilmour Hall, Room 108). The completed form and the $100 fee must be submitted to the Office of the Registrar by July 15 for September entry and November 30 for January entry. The form should explain the reasons for the student’s inadequate performance, corroborated by two letters of support, and should also include relevant documentary evidence such as, for example, a physician’s letter documenting an illness that may have impacted upon the student’s prior academic performance. Reinstatement cases will be carefully screened and the evidence considered will include the student’s academic performance before and following admission to McMaster, as well as the nature of the reasons cited in the letter, the letters of support and the accompanying documentation. Reinstatement is not guaranteed. If students are reinstated to the University, their Grade Point Average will be re-set to 0.0 on zero units, although students may, at the discretion of the Faculty, retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for graduation with Distinction or other recognition based on the Grade Point Average. If at any review after reinstatement the student’s Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

Registration and Course Changes
It is the responsibility of the student to ensure that the program of work undertaken meets the requirements for the degree. It is highly recommended that you review your advisement report in MOSAIC each time you drop or add courses and seek academic counselling from the B.H.Sc. (Honours) Program Office if you have any questions. Dates for final registration and course changes appear in the Sessional Dates section of this Calendar and are enforced.

Academic Counselling
Academic counselling is available throughout the year from the B.H.Sc. (Honours) Program Office. It is recommended that students make an appointment with an advisor from the program office if they have any questions.

Graduation
A GPA of 5.0 is required for graduation. Students who successfully complete Level III of the program may request permission from the B.H.Sc. (Honours) Program Office to graduate with a three-level B.H.Sc. degree. Please refer to the General Academic Regulations section in this Calendar for additional information related to graduation.

In addition to the regulations in the General Academic Regulations section of this Calendar, the following Program regulations apply.

MINOR
This information is directed to students who are interested in completing a minor in another subject area. A minor is not available in the Honours Bachelor of Health Sciences in Biomedical Discovery and Commercialization Program. A Minor is an option available to a student enrolled in a four or five-level program. A Minor consists of a minimum of 24 units in the Minor subject. No more than six of these units can be at Level I, unless otherwise stated in the specific requirements of the Minor. A student is responsible for registering for courses to be applied towards a Minor using elective units only. In the case of cross-listed courses, students must ensure that they register in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of that Minor when they graduate. If recognition for a Minor is granted, this recognition will be recorded on the student’s transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

CONTINUATION IN THE PROGRAM
Students who have a minimum GPA of 6.0 may continue in the program. If a GPA of 3.0 to 5.9 is obtained a student may remain in the program but will be placed on program probation for one reviewing period. A student may be on program probation only once.

Students previously on program probation who achieve a GPA between 3.0 and 5.4, may transfer to a program for which he/she qualifies.

Students whose GPA is less than 3.0 at any academic review may not continue at the University.

LETTERS OF PERMISSION
Students enrolled in the Honours Bachelor of Health Sciences in Biomedical Discovery and Commercialization Program may apply to the Office of the Assistant Dean to take courses at another university on a Letter of Permission. Request for Letter of Permission Forms are available from the Program Office. Students must achieve a grade of at least C- to receive credit.

Students are responsible to forward the transcript from the other university directly to the Program Director. If a grade of C- or better is attained, the transcript designation reads COM indicating complete, or NC indicating not complete if less than a C- grade is attained.

Courses taken at another university cannot be used to satisfy the university’s minimum residence requirements, will not be included in the calculation of the Grade Point or Fall/Winter Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on a Letter of Permission. Students must be in good standing to be eligible to take courses on a Letter of Permission.

LEVEL OF REGISTRATION
A student with six or more units incomplete at any level may proceed to the next level of the program only with the permission of the Program Office.

The School of Medicine, established in 1965 and renamed the Michael G. DeGroote School of Medicine in 2004, offers major programs in undergraduate, postgraduate and graduate medical education. The clinical programs use not only the teaching hospital and ambulatory care and research facilities at the McMaster University Medical Centre division of Hamilton Health Sciences, but also the clinical teaching units at several of the major Hamilton hospitals and community health-care centres.

The Undergraduate Medical Program for the MD degree was initiated in 1969, graduating its first students in May 1972. In August 2015, 203 students will be admitted to the program.

WATERLOO REGIONAL AND NIAGARA REGIONAL CAMPUSES

For the incoming class in 2015, 28 of the 203 positions are designated to the Waterloo Regional Campus and 28 positions are designated to the Niagara Regional Campus. All applicants invited to the McMaster Multiple-Mini Interview (MMI) will be asked to rank their site choice (Hamilton, Waterloo Region or Niagara Region) as 1, 2, 3 or no preference. Offers of admission to the medical school will be made from the master rank list irrespective of geographical preference. Subsequent to filling the 203 positions, registrants to the class will be offered a position based on their preference and geographical background.

The offer of admission is binding to a specific site.

Students accepted into the Waterloo Regional Campus and the Niagara Regional Campus will spend the first Medical Foundation in Hamilton. The costs associated with transportation and/or accommodation will be covered by the student. Each Regional Campus is approximately a one-hour drive from Hamilton.

The academic program operates on an 11 months-a-year basis in first and second year, and 8 months in third year and students qualify for the MD degree at the end of the third academic year. The curriculum has been designed to involve medical students in a broad range of human health problems throughout their education and to prepare them for effective working relationships with patients, colleagues and society.

Postgraduate training programs currently include: Anesthesia, Community Medicine, Critical Care, Emergency Medicine, Family Medicine, Internal Medicine (and
subspecialties), Laboratory Medicine (and subspecialties), Obstetrics and Gynecology, Pediatrics (and subspecialties), Psychiatry, Radiology, and Surgery programs. More details on these postgraduate programs are available from the Postgraduate Medical Education Office.

UNDERGRADUATE MEDICAL (M.D.) PROGRAM

The three-year program in Medicine uses a problem-based approach to learning that should apply throughout the physician’s career. The components have been organized in sequential blocks with early exposure to patients and case management.

UNDERGRADUATE MD PROGRAM GOALS

The Undergraduate MD Program at McMaster University fosters a cooperative, supportive and respectful environment. The curriculum evolves continuously, responsive to the changing needs of Ontario society, nurturing the development of the following competencies at the time of graduation:

1. **Medical Expert:** Students will be able to apply scientific principles from human biology, behaviour and population health to the solution of health problems; they will have the ability to seek out new information and evaluate this information critically.

2. **Communicator/Collaborator:** Students will demonstrate effective communication skills, sensitive to the needs of patients and cognizant of the roles of other members of the health care team in delivering patient care.

3. **Advocate/Resource Manager:** Graduating students will be knowledgeable about the determinants of health and be proactive advocates for their individual patients and for healthy public policy within the context of the health care system.

4. **Scholar/Learner:** Students will be self-directed lifelong learners, whose exposure at McMaster to role models in research and clinical care will encourage them to apply innovative approaches to solving health care problems.

5. **Self-Reflective Practitioner:** Graduating students will be expected to have developed an awareness of the influence of their attitudes, values and assumptions, how these affect their practice of medicine and the impact of the practice of medicine on themselves as individuals.

THE COMPASS CURRICULUM

The COMPASS curriculum focuses on the mastery of fundamental concepts in medicine. It continues the McMaster tradition of problem-based learning but incorporates research findings from cognitive psychology. The curriculum is structured on the integration of critical concepts and each step of the curriculum is based on the growth of important concepts learned previously. Tutorial problems are selected to illustrate these concepts in a clinical setting and when students are exploring tutorial problems, which remain the focus of learning, they will be directed towards asking questions of what and why and how much as what is the diagnosis.

The pre-clerkship curriculum is divided into five Medical Foundations as shown in the curriculum outline. A novel feature of the curriculum is a horizontal Professional Competencies curriculum which runs throughout the three years of the program. The Clerkship program consists of rotations in medicine, medical subspecialties, and its subspecialties, orthopedic surgery, surgery, family medicine, anesthesiology, psychiatry, pediatrics, obstetrics and gynecology and emergency medicine. There is also elective time. The program concludes with a short unit dedicated to review and consolidation of concepts.

LEARNING METHODS

To achieve the objectives of the Undergraduate Medical Program, students are introduced to patients within the first Foundation of the curriculum. In this way, students understand the relevance of what they are learning, maintain a high degree of motivation and begin to understand the importance of responsible professional attitudes.

In the Pre-Clerkship Foundations, the students are presented with a series of tutorial problems, requiring for their solution the understanding of underlying biological, population and behavioural principles, the appropriate collection of data and the critical appraisal of evidence. The faculty function as learning resources or guides. Learning by a process of inquiry is stressed.

The central focus of the pre-clerkship program is the tutorial. The class is divided into small groups of approximately seven students, each with a tutor. In the tutorial session, students develop a series of learning objectives from each tutorial case and negotiate how they will approach their learning tasks. They then acquire the knowledge and skills to meet the objectives of the Foundation in which they are working. They also learn to work as a team, helping and learning from peers. The study habits and sense of responsibility to self and others provide a basis for lifelong working and learning habits. Attendance is mandatory.

In the Professional Competencies curriculum, students work in groups of 8 to 10, with two facilitators, one an MD, the other a non-MD, clinician from an allied health care field. Learning formats include Large Group Sessions, small group tutorials, work with Standardized patients, role-plays, written projects and reflections which are collected as the student’s Reflective Physician Portfolio.

Students admitted to the Undergraduate Medical Program have the responsibility and privilege of taking an active role in the planning and evaluation of the education program. Through representation on most policy-making and implementing committees, students can influence decisions in such areas as education, philosophy, faculty recruitment and curriculum design. It is expected that all students will participate in the continuing reappraisal and improvement of the program. Such participation is a hallmark of the Program.

STUDENT EVALUATION METHODS

The evaluation format has been designed to complement learning in the Undergraduate Medical Program. Evaluation methods have been developed to measure how well the student achieves the stated educational objectives in the various Foundations of the program. Continual evaluation of the student occurs within the tutorial setting with input from their peers, faculty preceptors and the tutor.

Several short evaluation exercises are required during each Foundation and at regular intervals during the Professional Competencies component of the program. At the completion of the Foundation or the Professional Competencies evaluation period, the tutor or facilitator is responsible for the final summary statement of student learning progress. The tutor prepares a written summary of the student’s performance in the tutorials and all associated activities during that Foundation. A copy of the evaluation summary is provided to the student and to the student advisor while the original is kept in the student file.

In addition to the tutorial-based evaluation, the accumulation of medical knowledge is assessed at regular intervals by means of the Personal Progress Index. This is in a multiple-choice format. Results are given to the students for self-evaluation and, in summary form, to the student advisor. The Personal Progress Index is in addition to, and does not replace, tutorial- and performance-based evaluation. The Program monitors student progress, and responds to students showing persistently low progress.

The acquisition of clinical and professional skills is evaluated by clinical skills preceptors in each Foundation and in the Clerkship, and additionally by Objective Structured Clinical Evaluations (OSCE’s) which are run on an annual basis. Growth in the role of professional is documented in Professional Competencies which are collected as the student’s Reflective Physician Portfolio. Each student maintains a Reflective Physician Portfolio (RPP) consisting of reflections guided by questions and articles provided throughout the Professional Competencies program. Feedback may be provided although there is no summative evaluation of a student’s RPP.

The Student Assessment Committee has the responsibility of working with the Medical Program to assist with the development and implementation of valid and reliable evaluation methods to provide timely and helpful information to assist students and faculty in assessing progress and performance. Continuation in the Program is subject to satisfactory performance.
Curriculum Plan - COMPASS Curriculum

LAPTOP REQUIREMENT
The MD Program delivers lectures and course materials online, and communications with students and faculty between the three campuses through the use of email as well as various software programs, including web conferencing capabilities.

TRANSPORTATION COSTS
Students are expected to travel outside their home campus area for mandatory teaching sessions, clinical placements and clerkship rotations. Students are responsible for their own transportation and associated costs in order to complete program requirements. It is anticipated that further rotations will be developed in rural, under-serviced and remote areas. In certain cases, there will be some external funding available.

For students who are accepted into the Waterloo Regional Campus and the Niagara Regional Campus, the first Medical Foundation will be spent in Hamilton and students will be expected to cover the cost of commuting and/or accommodations. Each Regional Campus is approximately a one-hour drive from Hamilton. The elective experience can be spent in various activities utilizing local, regional or distant resources. Students are expected to cover all transportation and associated costs for electives. Funding may be available for elective travel expenses through a number of funding programs.

MEDICAL FOUNDATION 1:
The first conceptual theme addressed in the curriculum is that of oxygen supply and exchange. In addressing problems that arise from inspired air right through to oxygen at the cellular level, students will learn much related to the respiratory, hematologic and cardiovascular systems.

MEDICAL FOUNDATION 2:
This is the first of the two Foundations that addresses aspects of homeostasis, particularly that of energy balance, including issues related to the GI tract, endocrine system and nutrition.

MEDICAL FOUNDATION 3:
This Foundation covers the second part of homeostasis, including the balance of acid and base, blood pressure and renal function and then goes on to address reproduction and pregnancy and a number of issues in genetics related to reproduction.

MEDICAL FOUNDATION 4:
This Foundation addresses host defence, which includes immunology and infectious disease, and then moves on to look at neoplasia and the genetics of neoplasia.

MEDICAL FOUNDATION 5:
This covers the concepts of movement control and interacting and communicating, which includes the locomotor system, the nervous system and behaviour. Aspects of human development will run through all of the five Medical Foundations.

PROFESSIONAL COMPETENCIES
The Professional Competencies curriculum is longitudinal across the entire program. The learning domains of this component of the curriculum include effective communication, population health, medical decision-making, self awareness and self-care, moral reasoning and ethical judgement, professionalism and role recognition, and social and cultural dimensions of health.

During the Pre-Clerkship, students are assigned to a small group of 8-10 students at the beginning of MF1 and they remain with this group until the end of MF5. Each group is facilitated by a pair of co-facilitators, one a physician and the other a professional from an allied health profession. The facilitators bring complementary skills sets to the group and they model interprofessionalism.

During the Clerkship, the curricular content relating to the Professional Competencies domains becomes integrated into the core teaching in each clerkship rotation and is developed by the clerkships in their own formats.

THE CLERKSHIP
While the Clerkship will be firmly linked to the pre-clerkship concept-based curriculum and will include continuing delivery of the Professional Competencies curriculum, this is now the time for students to participate in the direct care of patients as they learn about the management of health and illness. The tutorial cases are now real patients or populations. Students become self-sufficient in contemporary medicine, able to sense when today’s medicine becomes out-of-date by adopting good habits of learning and assessment. The Clerkship program consists of rotations in medicine, medical subspecialties, orthopedic surgery, surgery, family medicine, anesthesia, psychiatry, pediatrics, obstetrics and gynecology and emergency medicine. There is also elective time, one half of which must be spent in clinical activity. The compulsory components of the Clerkship are carried out in teaching practices and in all the teaching hospitals in the Hamilton region; in community hospitals, including those in the Niagara, Brant, Halldimand-Norfolk, Waterloo, and Halton Regions.

ELECTIVES
Elective studies form an integral part of the Curriculum Plan. They may be considered the epitome of self-directed learning, since students must define goals for electives which are appropriate for their own learning objectives. These objectives represent specific areas of educational need or interest. The responsibility for planning electives rests with each student in collaboration with the student advisor.

The two types of electives in the Undergraduate Medical Program are:

1. **Block Electives**: These are blocks of curriculum time dedicated to full-time elective activities. Their satisfactory completion is a mandatory component of the Undergraduate Medical Program. Block Electives occur after Medical Foundation 4 and during the Clerkship, for a total of 24 weeks. Clinical electives in the MD Program must be organized so that each student has an elective experience in a minimum of three different disciplines, each of which will take place for a minimum of two weeks.

2. **Horizontal Electives**: These are undertaken concurrently with other parts of the curriculum. Horizontal electives are entirely voluntary, not being required for completion of the program, but are used to explore or review a specific area of knowledge or practice in more detail. It is particularly important that the student’s advisor be involved in all decisions concerning the selection and carrying out of horizontal electives.

CONCEPT INTEGRATION AND REVIEW (CIR)
This unit is the final 6 week block of the program, after Clerkship and before graduation. The aims of the blocks are: to help students review and synthesize important concepts; to provide an opportunity for them to practice answering multiple choice and key-features questions before the MCCQE Part 1 exam; to review some presentations that might challenge new residents. A series of sessions focussing on important key topics is presented, each prepared and led by an expert. Students are provided with scenarios and problems to work through to assist them in consolidating their knowledge in core areas of medicine.

ENRICHMENT PROGRAM
The purpose of the Enrichment Program is to stimulate an interest in research and scholarly activity among medical students and to attract some to careers in academic medicine and medical research. There are arrangements in place for a small number of students from each class to devote longer periods of time to the pursuit of special academic experiences. These experiences will not normally begin until the pre-clerkship is completed. Applications will not be considered for the post-clerkship period.

MD/PH.D. PROGRAM
The Faculty of Health Sciences introduced its MD/PhD Program in September 2007. The rapid pace of healthcare related research and discovery requires exceptional people who are trained to bridge the gap between basic sciences and clinical application. The McMaster MD/PhD program combines the strength of a unique, patient oriented medical education with a strong, internationally renowned healthcare research environment.

At the present time, students enrolled in the MD/PhD program may carry out the PhD component of their program in one of five graduate programs affiliated with the Faculty of Health Sciences at McMaster University. These include: Medical Sciences, Biochemistry, Health Research Methodology, Neurosciences, and Biomedical Engineering.

Minimum criteria for admission to the PhD component is a 4 year Honours B.Sc. or BHSc with a minimum academic standing of 10.5/12 (on the McMaster scale) or 3.8 on a 4 point scale in the final two years of the Bachelor’s degree study in courses relevant to the program. As some PhD programs may have additional...
requirements specific to their program, applicants are recommended to review the relevant sections of Graduate Calendar. Eligible students will have a proven record of research involvement at the undergraduate or graduate level. Existing in-program Master’s students or students in their first year of PhD training in an eligible Health Sciences Affiliated Graduate program at McMaster University are welcome to apply to the MD/PhD Program with the written consent of his or her research supervisor. MSc students from other McMaster University programs or other Universities are welcome to apply if they will finish their degree requirement before enrolling in the McMaster MD/PhD program. Existing MD students with a strong research background are also welcome to apply in their first year of medical school. Applications for the McMaster MD program are submitted through the Ontario Medical School Application Service (OMSAS). Applicants must also meet the medical school requirements, and are encouraged to review the deadlines and requirements on this website (http://www.ouac.on.ca/omsas). McMaster MD/PhD program deadlines are due by December 1 of each year and this application is made online (http://www.fhs.mcmaster.ca/grad/medsci/appform.htm).

REGULATIONS FOR LICENCE TO PRACTISE
A degree in medicine does not in itself confer the right to practise medicine in any part of Canada. To acquire this right, university graduates in medicine must hold a certificate of the College of Physicians and Surgeons of the province in which they elect to engage in practice. Students in Ontario medical schools will be required to register with the College of Physicians and Surgeons of Ontario (CPSO). Students intending to practise outside Ontario are urged to consult the licensing body of that province regarding registration. Licensing requirements vary somewhat among the provinces. The current Ontario requirements for issuance of a Certificate of Registration Authorizing Independent Practice are:

1. Certification by the Royal College of Physicians and Surgeons of Canada or the College of Family Physicians of Canada;
2. Parts I and II of the Medical Council of Canada Qualifying Examination;
3. Canadian Citizenship or Landed Immigrant Status;
4. In general, students are expected to obtain a certificate from either the College of Family Physicians of Canada or from the Royal College of Physicians and Surgeons of Canada in order to be licensed in the province of Ontario.

CANADIAN RESIDENT MATCHING SERVICE (CAMS)
The Matching Service is a clearing-house designed to help final year medical students obtain the post-MD program of their choice, and to help program directors obtain the students of their choice. It provides an orderly method for students to decide where to train and for program directors to decide which applicants they wish to enrol. For both students and directors, it removes the factors that generate unfair pressures and premature decisions.

BASIC LIFE SUPPORT TRAINING
All students are required to provide evidence of a current Basic Life Support (BLS) for Health Care Providers (C) certificate (i.e. Red Cross CPR/AED Level HCP, St. John Ambulance Level C HCP, Heart and Stroke BLS for Healthcare Provider C) prior to registration in the medical program. Information is sent to successful applicants prior to registration. Students are responsible for annual recertification before starting each academic year. The cost of this course is the responsibility of the student. Courses are readily available in most communities.

IMMUNIZATION
The Ontario Public Hospitals Act requires that all persons working in a hospital setting meet certain criteria regarding surveillance for infectious diseases. In order for the requirement of the legislation to be met, students are required to complete the immunization screening process prior to registration in the medical program and annual recertification before starting each academic year. Failure to do so will result in suspension of clinical work. Information will be sent to successful applicants prior to registration.

POLICE RECORDS CHECK
Through the course of their medical school program, all medical students will serve vulnerable populations. In an effort to protect these vulnerable people against potential risk of harm, the Ontario Faculties of Medicine and many clinical agencies require that all medical students provide confirmation of the absence of a criminal conviction or outstanding criminal charges. An offer of admission is contingent upon provision of a Police Records Check, at the applicant’s expense, by early August of the year of admission. At the beginning of each subsequent academic year in the Undergraduate Medical Program, students will be required to sign a criminal record and disclosure form to confirm that there has been no change in the information contained in the Police Records Check. The Police Records Check includes a Vulnerable Sector Screening and check of the Royal Canadian Mounted Police (RCMP), National Canadian Police Information Centre (CPIC) database for the following:

- All records of Criminal Code (Canada) convictions
- All pardoned sexual offences
- All records of convictions under the Controlled Drugs and Substances Act
- All records of convictions under the Narcotic Control Act
- All records of convictions under the Food and Drug Act
- Any undertakings to enter into a Surety to Keep the Peace
- Any Restraining Orders issued under the Criminal Code (Canada) or the Family Act
- All outstanding warrants and charges

The Michael G. DeGrote School of Medicine will review the files of any applicants who have presented a Not Clear Police Records Check to determine what action, if any, will be taken.

Applicants must follow the instructions precisely. All applicants should be aware that the Admissions Office is committed to the protection of personal information. Use of personal information is strictly limited to the appropriate handling of applications, record-keeping for those admitted to the program, and research intended to further the efficacy of Medical Education Program procedures. The University reserves the right to change the admission requirements at any time without notice.

ADMISSION AND REGISTRATION
Registration in the Undergraduate Medical Program implies acceptance by the student of the objectives of the program, and the methods which evaluate progress toward the achievement of those objectives. The following describes the regulations governing admission and registration in the Undergraduate Medical Program. Candidates applying for entry in 2016 must register their intention to apply with the Ontario Medical School Application Service (OMSAS) by September 15, 2015. The official admission policy and deadlines for the Undergraduate Medical Program is contingent upon provision of a Police Records Check, at the applicant’s expense, by early August of the year of admission. At the beginning of each subsequent academic year in the Undergraduate Medical Program, students will be required to sign a criminal record and disclosure form to confirm that there has been no change in the information contained in the Police Records Check. The Police Records Check includes a Vulnerable Sector Screening and check of the Royal Canadian Mounted Police (RCMP), National Canadian Police Information Centre (CPIC) database for the following:
Application to the medical program implies acceptance by the applicant of the admission policies and procedures, and the methods by which candidates are chosen for the program. Applications received in the Fall of 2015 are for the academic year commencing late August 2016. Applicants who will not be ready or able to begin studies at that time may withdraw their applications without prejudice. Application fees cannot be refunded.

Registration on the OMSAS web site must be completed by September 15, 2015 at 4:30 p.m. EDT. Final applications must be submitted by October 1, 2015, 4:30 p.m. EDT. Several hundred applicants will be invited for interviews in Hamilton in March or April. From this group a class of 203 is selected.

All applicants are notified in writing, by McMaster University, of the results of their application. These letters will be sent electronically to applicants on May 10, 2016.

FALSIFICATION OF ADMISSION INFORMATION

Applicants should understand that where it is discovered that any application information is false or misleading, or has been concealed or withheld, the application will be deemed to be invalid. This will result in its immediate rejection. If the applicant has already been admitted and registered as a student, withdrawal from the University may be required. The MD Admissions Committee will normally not allow the applicant to reapply to the Medical Program for seven (7) years.

ESSENTIAL SKILLS AND ABILITIES REQUIRED FOR THE STUDY OF MEDICINE

The Ontario Faculties of Medicine are responsible to society to provide a program of study so that graduates have the knowledge, skills, professional behaviours and attitudes necessary to enter the supervised practice of medicine in Canada. Graduates must be able to diagnose and manage health problems and provide comprehensive, compassionate care to their patients. For this reason, students in the MD program must possess the cognitive, communication, sensory, motor, and social skills necessary to interview, examine, and counsel patients, and competently complete certain technical procedures in a reasonable time while ensuring patient safety.

In addition to obtaining an MD degree, and completing an accredited residency training program, an individual must pass the licensure examinations of the Medical Council of Canada (MCC) in order to practice medicine. Prospective candidates should be aware that, cognitive, physical examination, management skills, communication skills, and professional behaviours are all evaluated in timed simulations of patient encounters.

All students must have the required skills and abilities described in the Section on Technical Standards. All individuals are expected to review this document to assess their ability to meet these standards. The document can be found at http://www.fhs.mcmaster.ca/mdprog/documents/CoFM_Abilities_Sept03.pdf

ACADEMIC ELIGIBILITY REQUIREMENTS

Applicants must report on the Post-Secondary Education Form of the OMSAS application all grades received in the degree credit courses in which they have ever been enrolled. Failure to report courses, programs or grades on the Post-Secondary Education Form will result in the disqualification of the application. All grades are converted by the applicant on the Post-Secondary Education Form to a 4.0 scale according to the OMSAS Undergraduate Grading System Conversion Table. (The Conversion Table is provided with the OMSAS Application.)

All applicants must fulfill the requirements described below:

a. By May 2016, applicants must have completed a minimum of three years of undergraduate work. To satisfy the minimum requirements, academic credentials obtained from a Canadian University must be from an institution with academic standards and performance consistent with those of member institutions of the Council of Ontario Universities (COU). The applicant must be able to demonstrate a high level of academic achievement consistently throughout their undergraduate career.

b. A minimum of 15 full-courses, or 30 half-courses (three years) of Undergraduate university work from a recognized university is required. There is no requirement that applicants carry a full course load. Marks from supplementary and summer courses will be included in the grade point average calculation. If requested, applicants must provide evidence that this requirement has been met by May 30th of the year of entry. Courses for which a Pass grade is assigned are counted for credit, but will not be included in the GPA calculation. In order for the GPA to be evaluated, independent grades from a minimum of five half-year or five full-year courses are required, without which the application will not be considered.

c. An applicant who has completed a diploma at a CEGEP must have completed by May 2016, at least two additional full academic years of degree credit work at an accredited university.

d. Applicants who have completed the requirements for a baccalaureate degree in less than three years by October 1, 2015 are also eligible.

e. By October 1, 2015, applicants must have achieved an overall average of at least 3.0 on the OMSAS 4.0 scale. While an overall average of at least 3.0 on the OMSAS 4.0 scale meets the minimal criterion for consideration for admission, prospective applicants should be aware that given the rapidly rising level of competition for a limited number of positions, a significantly higher GPA would provide them with a more reasonable chance of admission. Due to changes from year to year in the level of competitiveness, an exact figure in this regard cannot be provided.

f. Medical College Admissions Test (MCAT) - The MCAT is required for application and must be written within five years of the final application deadline. The score from the Verbal Reasoning section for those who write the MCAT prior to February 2015 or the Critical Analysis and Reasoning section for those who write the MCAT after February 2015 will be used in both formulae (offer of interview and offer of admission). A minimum score of 6 on the Verbal Reasoning component or a minimum score of 123 on the Critical Analysis and Reasoning component is required. All other MCAT component scores will not be considered in the selection process. For those applicants who write the MCAT more than once, the score from the most recent MCAT will be used.

g. Computer-based Assessment for Sampling Personal characteristics (CASPer): All applicants to the Michael G. DeGroote School of Medicine, McMaster University will be required to complete a 90 minute computer-based test, called CASPer, as part of the selection process. CASPer is a web-based assessment of interpersonal skills and decision-making, to be completed at a computer. CASPer will be offered on two dates in the Fall of 2015. Successful completion of CASPer is required to maintain applicant eligibility. However, as with all things computer and internet related, several back-up plans are in place. Any applicant requiring accommodation for a documented disability for CASPer, must notify the Admissions Office in writing at least one month prior to the first CASPer test date. Complete documentation to support the request must be provided with the request.

No other aspects of the application will be considered if these requirements are not met.

ABORIGINAL APPLICANTS

Applicants who wish to be considered under the Aboriginal (Indian, Inuit or Metis) application process will also be required to provide: 1) a letter declaring Aboriginal ancestry and giving specific information about First Nation, treaty, community or organizational affiliation. The letter should request consideration under the alternate process, and should expand on the candidate’s academic and personal background, and reasons and motivation for wishing to become a physician; 2) a letter of recommendation from their First Nation, Band Council, Tribal Council, Treaty, community or organizational affiliation; 3) proof of Aboriginal Ancestry. Acceptable proofs of ancestry include: Status or Treaty card, Métis Membership Card, Nunavut Trust Service Card or Inuit Roll Number. McMaster University will ONLY recognize Métis Membership Cards from the Provincial counterparts of the Métis National Council. Please see website: http://metisnation.ca/index.php/who-are-the-metis/citizenship. McMaster University reserves the right to contact the card issuer to verify its authenticity.

Aboriginal applicants are required to complete the Undergraduate MD Program application package as provided by the Ontario Medical School Application Service (OMSAS).
Applicants must meet the same minimum academic criteria for admission as set out for the general pool of candidates and have three or more years of undergraduate degree-level courses by May of the year of entry with an overall GPA of at least 3.0 as calculated on the OMSAS 4.0 scale and a minimum score of 6 on the Verbal Reasoning or a minimum score of 123 on the Critical Analysis and Reasoning component of the MCAT (*see notation below) and CASPer.

*In order to reduce barriers for Aboriginal applicants, provision of MCAT verbal reasoning or critical analysis and reasoning score may be deferred beyond October 1, 2015. Those Aboriginal applicants wishing to delay taking the MCAT until after invitations to interview are sent out are free to do so, but should be aware that they MUST forward a minimum MCAT verbal reasoning score of 6 or a minimum critical analysis and reasoning score of 123 to the Admissions Office by the offer date (May 10, 2016), in order to maintain eligibility. Aboriginal applicants wishing to explore this option should book their MCAT in the Fall to be certain of a spot. A cancellation fee would be applied if MCAT if the applicant is not successful in obtaining an interview and subsequently cancels their MCAT test.

### GEOGRAPHICAL CONSIDERATION

The geographical status of the applicant is determined from the Autobiographic Sketch. Applicants may be asked to provide evidence of geographical status. In selecting applicants for interview, the bona fide place of residence will be based upon: 1) the province of Ontario, or 2) the rest of Canada and other countries. To qualify for Ontario status, an applicant must be a Canadian citizen or permanent resident of Canada by October 1, 2015, and have resided for at least three years in the province of Ontario since the age of 14 by the date of possible entry into the program.

### TRANSCRIPT REQUIREMENTS AND TRANSCRIPT REQUEST FORMS (TRF)

All transcripts from Ontario universities must be ordered by OMSAS via the Transcript Request Form (TRF). It is required that applicants will request all other transcript materials prior to September 15, 2015 to allow adequate time for processing requests and for receipt at OMSAS by the prescribed deadline. If an applicant is registered at a post-secondary institution at the time of the application deadline and that registration is not reported on the transcript, the applicant must arrange to have the Registrar of the institution send a Statement of Registration to OMSAS by October 1, 2015. This statement must indicate the in-progress course name(s) and number(s). Evidence to show that applicants requested transcripts and Registrar statements in a timely fashion may be requested by McMaster University. Applicants should retain all receipts and correspondence related to their transcript request.

It is entirely the applicant’s responsibility to ensure that all of the above are received at OMSAS by October 1, 2015. Failure by the applicant to meet these requirements will result in the disqualification of the application.

All transcripts must be submitted directly to OMSAS by the post-secondary institutions attended. McMaster requires that applicants provide transcripts of all courses/programs attended at any post-secondary institution. This includes community colleges, CEGEPs, junior colleges, pre-university programs, etc. Failure by the applicant to comply with the instructions or to meet the deadlines will result in disqualification of the application.

### GRADUATE STUDENTS

Those applicants with a completed and conferred Master’s or Ph.D. at the time of application will receive a small amount of extra weighting in the formula used to determine the likelihood of invitation to an interview. Individual grades for course work taken as part of a graduate degree will not be included in the calculation of the grade point average.

Graduate students enrolled in a graduate program at the time of application must arrange for their Supervisor, a member of their Supervisory Committee, or the Chair of the Department to provide a letter indicating they are aware the applicant is intending to apply to medical school. Applicants should arrange for this letter to be received at OMSAS by October 1, 2015. If the applicant’s graduate degree supervisor is acting as one of their references, a second letter is not required.

### CREDENTIALING OF NON-CANADIAN GRADUES

Applicants, Canadian or non-Canadian, who have not met the minimum course number criterion utilizing their Canadian data and require inclusion of their international education data to meet the minimum course number criterion are required to have their foreign transcript assessed by World Education Services (WES). Credentialing assessment means converting foreign academic credentials into their Ontario educational equivalents. A course-by-course evaluation along with the calculation of an overall GPA is required. Applicants must have their transcripts sent directly from their university to WES and/or OMSAS and be able to prove (with dated letter and dated post office receipt) that an attempt was made to have the transcript issued by their university and sent to OMSAS by October 1, 2015. Those requiring WES assessment must also ensure that transcripts are received by WES in time for their assessment to reach OMSAS by October 1, 2015. A WES Assessment is not required for foreign exchanges.

### ENGLISH LANGUAGE PROFICIENCY

Applicants whose first language is not English must satisfy by October 1, 2015, at least one of the following conditions:

1. Provide evidence of a combined score on the TOEFL iBT test with an overall score of at least 86 with minimum scores of 20 in each of the four components, or the equivalent on other recognized tests has been achieved (McMaster University code for TOEFL test score submissions is #0936); or
2. Have attended an educational institution, where instruction was in English, for at least three years; or
3. Have resided for at least four years in an English-speaking country.

### INTERVIEWS

Several hundred applicants will be invited to Hamilton for an interview. Because the interviews involve many other people, applicants must attend on the date and time specified. Attendance at an in-person interview is mandatory in order to be considered for admission. Applicants are responsible for their own travel expenses. The interview process entitled the Multiple Mini Interview (MMI), is primarily composed of a series of ten-minute encounters over a two-hour period. Due to the nature of the MMI, videoconference or telephone interviews are not possible.

### SELECTION

All the information resulting from the process described above, as well as the Confidential Assessments from referees, may be reviewed and used in the final selection.

Applicants will be notified in writing by McMaster University of the results of their application. These letters are sent electronically to applicants on May 10, 2016. Anyone accepting an offer of admission must provide, within two weeks of acceptance, a cheque in the amount of $1,000 (Canadian), non-refundable, which will subsequently be applied towards tuition.

### APPLICATION FOR DEFERRED REGISTRATION

Deferred registration may be granted only under exceptional circumstances. Deferred registration may be requested only by those candidates offered a place in the class on May 10, and who have accepted that offer. The request for deferral must be submitted within two weeks of the offer of admission.

### INTERNATIONAL APPLICANTS

Interested International applicants may apply through the regular process. International (Visa) students should be aware that admission to the Undergraduate MD Program does not confer eligibility to apply subsequently through the Canadian Residency Matching Service (CaRMS) for a residency training position in Canada. Applicants should check the CaRMS web site (http://www.carms.ca/) for further information.

### ADVANCED STANDING/TRANSFER

The structure of the McMaster Program requires that all students begin in Medical Foundation 1. There is no provision for advanced standing or transfer into the program.

### UNSUCCESSFUL APPLICANTS

Application files, including transcripts, from one year are not held over to another year. If an unsuccessful applicant wishes to reapply, a new application package,
including supporting documentation must be submitted, using the OMSAS Application and the OMSAS Information Booklet, for the new admission selection cycle.

RETENTION OF DOCUMENTS
All documentation submitted in support of an application for admission becomes the property of the University and is not returnable. If an applicant is not accepted, or fails to enroll following acceptance, the identifiable documentation will be destroyed at the end of the admissions cycle in keeping with university policy.

Financial Information
Financial difficulties are among the most frequent problems experienced by students in undergraduate medical schools. At McMaster, these are intensified by the lack of opportunity for summer employment. In this situation, it is incumbent on students admitted to the MD Program to clarify immediately their personal financial situation and to secure or identify sufficient support to meet their financial obligations over the subsequent three years. The Undergraduate MD Program cannot assume this responsibility. In 2014-2015, the academic fees (tuition and student supplementary fees) for a student in the McMaster Undergraduate Medical Program were:

In addition, the cost of books and diagnostic equipment for a Year I student was approximately $3,000. It is strongly recommended that students purchase the full complement of medical equipment necessary for clinical skills. Equipment lists and special prices will be offered to medical students within the first few months of medical school. Students are also responsible for their transportation costs related to their training.

Financial assistance is available to Ontario residents from the federal and provincial governments through the Ontario Student Assistance Program (OSAP). To be eligible a student must be a Canadian Citizen or permanent resident of Canada and fulfill certain requirements for residency in Ontario. Students who are legal residents of other provinces need to check with their respective provincial financial aid programs about eligibility for support prior to acceptance. In addition, the following sources of funding are available to undergraduate medical students:

BURSARIES
There is a bursary program which has been developed by the Faculty of Health Sciences and the central University campus. Bursaries are awarded to students who are Canadian citizens and demonstrate financial need. All bursaries are distributed during the late fall of each year. Bursaries are intended to offset provincial financial assistance and cannot supplement the full cost of medical education.

ELECTIVE TRAVEL AWARDS
The Undergraduate Medical Program has in the past indicated its preparedness to recognize students who distinguish themselves and the University by virtue of their scholarship and their contribution to the university community. At the same time, the School has indicated that the terms of reference for such awards should neither compromise the spirit of cooperative scholarship which characterizes its MD Program nor replace its priority of concern for financial assistance awards. A growing number of estates and agencies have donated funds to the University and the Undergraduate Medical Program for purposes of recognizing scholastic merit among medical students. In order to meet the requirements of these awards within the spirit of cooperative scholarship, these funds are available to support individual students in their pursuit of specific elective projects or activities. Students are required to submit an application through the Undergraduate Medical Education Program Office, outlining the nature of their work and the need for funds.

The B.Sc.N. Program

The B.Sc.N. Program promotes the development of nursing as a caring, client-centered, scientific and humanistic profession. With an emphasis on person-based learning within a problem-based approach, and small group and self-directed learning, the program provides a general baccalaureate education in nursing for the preparation of professional nurses who will practise in a variety of health-care settings. Central to our mission is the preparation of nurses who will work to enhance the quality of health of individuals, families, communities and society. In fulfilling its mission, the B.Sc.N. Program promotes skills in its graduates to prepare them for life-long, self-directed learning, critical thinking, advocacy and collective action.

In 2009, the B.Sc.N. Curriculum was renewed and is now called the Kaleidoscope Curriculum. All streams share a common curriculum in their final year of the program. Some changes were implemented in September 2009 for existing cohorts, although students entering prior to September 2009 will be expected to meet the program goals that were in place the year in which they entered. All students from all years have seen a change in emphasis in small group, tutorial classes with a renewed focus on the McMaster model of nursing and nursing education which has been in place since 1989. Consistent with the philosophy, the person is re-emphasized as the central focus for learning, and person-based learning within a problem-based approach has been adopted. In addition, students are exposed to different ways of knowing including empirical, ethical, personal, aesthetic and emancipatory. Four types of courses are taken within the curriculum: (1) required nursing courses (professional practice and classroom); (2) required health sciences courses (e.g. anatomy, physiology, biochemistry); (3) required non-health sciences courses (e.g. psychology), and (4) elective courses (non-professional, liberal arts or sciences). As students move through the program the focus of learning progresses in the following ways. In Levels I and II students are provided with a strong basis in the health and social sciences and are able to choose a variety of electives. They learn about themselves and their clients as individuals. The focus is on health, health assessment and the promotion of health. In Levels II and III students begin to consider the family and the community as client. Students begin to deal with more acute and complex situations. In Levels III and IV, there is a strong focus on nursing and the integration and appraisal of knowledge based on the different ways of knowing into client care in both the classroom and professional practice setting. Students also begin to consider health care from the national and global perspective. Students initially learn about nursing’s role in health care and, through appropriate use of technology within nursing to facilitate life-long learning and reflective practice.

Themes are a logical grouping of prominent or frequently recurring concepts that guide the renewed curriculum. Themes that guide the renewed curriculum include:

1. Personhood and Caring: This theme focuses on the humanistic aspect of nursing beginning with a focus on the nurse and client as person and the professional, therapeutic relationship between nurse and client.
2. Context, Health and Healing: This theme focuses on the internal and external influences on health and the nurse’s ability to provide safe and competent care as part of the health care team within a health care system and broader community.
3. Learning and Knowing: This theme focuses on critical inquiry, discovery and appropriate use of technology within nursing to facilitate life long learning and reflective practice.
Evaluation by self, peers and faculty is part of an on-going assessment process of the achievement of clinical, course, and program outcomes.

GOALS FOR STUDENTS WHO ENTER IN SEPTEMBER 2009 OR LATER

Graduates of the McMaster University B.Sc.N. Program will be prepared to engage in competent professional practice in a variety of health care contexts and with diverse clients across the lifespan (individual, family, group, communities, populations) who have stable and unstable outcomes and multi-factorial influences (internal and external) on their health status. Graduates will:

1. Provide competent care with a holistic awareness of the impact of the internal and external context on health and healing.

2. Integrate an understanding of the client’s unique perspective on his/her health, and how this perspective influences participation in one’s health care.

3. Identify the need for appropriate change in health care, create a climate for adopting change and contribute to effecting and evaluating change.

4. Build relationships in a team environment and be actively engaged in team decision making around client care.

5. Contribute to the body of nursing knowledge through demonstrating an inquiring approach to practice.

6. Provide technologically appropriate care in a variety of contexts.

7. Contribute to the future of the nursing profession through a commitment to lifelong learning and professional growth and integrate critical inquiry into professional practice.

8. Assume leadership roles in partnership with clients and the health care team.

9. Assume advocacy roles in partnership with clients and the health care team and challenge inequities that impact on the health of clients.

10. Practice within the professional standards, guidelines, legislation and values of the nursing profession.

11. Establish therapeutic partnerships with clients to enhance health and healing and communicate effectively in a variety of media.

Admission Policy and Procedure

ADMISSION POLICY

Enrolment in all B.Sc.N. programs is limited. Possession of the minimum admission requirements does not guarantee an offer of admission.

Application to the B.Sc.N. Program in the Faculty of Health Sciences implies acceptance of admission policies, procedures and the methods by which applicants are chosen for the program.

There are now three streams of study leading to the completion of the B.Sc.N. degree. The Basic (A) Stream requires four years of full-time study, and is available to those applying directly from an Ontario secondary school with Grade 12 U or M courses; to those who have qualifications equivalent to Grade 12 U or M courses; and to applicants with other qualifications who meet the admission requirements.

Note: Any differences in the application process or course of studies are noted in the appropriate section below.

The Post Diploma R.P.N. (E) Stream is available to diploma prepared Registered Practical Nurses only. Graduates of an approved Diploma Practical Nurse Program who are admitted are granted 30 units of advanced credit. This program requires three years of full-time study. Note: The Post Diploma R.P.N. (E) Stream will be offered only at Mohawk and Conestoga Colleges.

The Basic-Accelerated (F) Stream is open to applicants who have completed another university degree or have completed a minimum of 54 units (2 years) of university degree credits. Applicants with a nursing background will not be considered for this Stream. This program is available on a full-time basis and requires five terms of study taken over one calendar and one academic year.

The requirements and application deadlines vary depending on the applicant’s background. An applicant supplying documentation or evidence which, at the time or subsequently, is found to be falsified will be withdrawn from consideration. Any student admitted to the program having submitted false documentation will be withdrawn.

The School of Nursing is committed to equality of opportunity. Disability is not grounds for exclusion from the School. Every attempt will be made to remove barriers and create accommodation provided any accommodation maintains the same academic and clinical standards for all students and does not require significant program change. Applicants should refer to the School of Nursing Admissions Procedure and Guidelines for Applicants with Disability available from the School of Nursing Admissions Office (905) 525-9140, ext. 22232 and consult Student Accessibility Services at (905) 525-9140, ext. 28652 or TTY (905) 528-4307. The College of Nurses of Ontario (CNO) has released a statement about Requisite Skills and Abilities for Nursing Practice in Ontario. This statement can be found at http://www.cno.org/Global/docs/reg/41078%20SkillsAbilities%204pager-Final.pdf. The CNO states that “Individuals considering a career as a nurse in Ontario should review this document and assess their ability to meet the criteria. The requisite skills and abilities serve as a benchmark, outlining the requirements to meet the minimum standard necessary to ensure public safety.” (CNO, pg 3)

ADMISSION PROCEDURE

Applicants From Ontario Secondary Schools (A) Stream

Applicants currently completing Grade 12 U or M courses apply through the Ontario Universities’ Application Centre (OUAC). (See address below.) Application forms are available in secondary school guidance offices or on-line at http://www.ouac.on.ca/. Applications for all studies beginning in September must be received by OUAC no later than January 15. Note that this is a program that is usually over-subscribed and it is recommended that you apply by January 15 to be considered in the first round of admission offers. To be considered applicants must:

1. achieve a Grade Point Average (GPA) of at least B- in all university degree credit courses taken. Possession of this GPA does not guarantee an offer of admission due to limited number of available spots and high number of applications. A minimum of 12 units or equivalent are required. (These courses may be taken as a full-time or part-time student. University correspondence degree courses are acceptable.)

2. apply online to OUAC at http://www.ouac.on.ca/ using Form 105D by February 1; Current McMaster students are not required to apply through OUAC.

3. submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1. Applicants who are in the final year of their degree when applying or are applying as a second degree do not have to submit their high school transcript.

4. complete the supplementary application on-line at http://www.fhs.mcmaster.ca/nursing by February 1.

Note: University degree credit courses completed prior to admission will be assessed for advanced credit by the Office of the Coordinator of Studies following admission to the program. Applicants with significant university science courses should refer to admission requirements for the Basic-Accelerated (F) Stream.

Applicants from a Pre-Health Sciences Program

Applicants who have successfully completed a pre-health sciences program at an Ontario College of Applied Arts and Technology (CAAT) will be considered for admission to Level I of the B.Sc.N. program at all sites. Applicants who are currently registered in a pre-health sciences program may be given a conditional offer of admission based upon interim grades. The offer of admission will be withdrawn if the applicant does not complete the full program or does not meet the required admission Grade Point Average (GPA).

To be considered applicants must:

1. complete at least two semesters, including at least one full (two semesters) or two half courses in each of Biology, Chemistry, Mathematics, and English. Applications will not be considered from applicants who possess one credit only in the required subjects. Please contact the Admissions Coordinator for the list of approved programs;

2. achieve a GPA in the pre-health sciences program that meets the minimum cut-off average of Ontario secondary school applicants to the program of 3.6 (90%);

3. apply online to OUAC at http://www.ouac.on.ca/ using Form 105D no later than February 1;

4. submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1; and

Applicants from Others Degree Nursing Programs

Applicants who are enrolled in a Nursing degree program at a university or in a college/university consortium may apply to transfer to the Mohawk and/or Conestoga sites to earn a McMaster B.Sc.N. degree. Applicants will not be considered for studies above Level II. All potential applicants should contact the appropriate site to determine if there is space for transfer applicants. For the Mohawk College site, contact the Associate Dean, B.Sc.N. Program; for the Conestoga College site, contact the Chair, Nursing Programs.

Applicants who have satisfactorily completed a diploma practical nurse program but who have not achieved the required Grade Point Average (GPA) may become academically eligible by completing at least twelve units (two full courses or four half courses) of university degree credit in any subject area with a GPA of at least B (75%). This minimum GPA does not guarantee admission.
3. apply to the Ontario College Application Services (OCAS) by February 1. All applications must be received by OCAS on or before February 1 to be given equal consideration by the college.

ABORIGINAL SECTION OF THE RPN TO B.SCN. (E) STREAM (MOHAWK)
Mohawk College has targeted 5% of its enrolment to seats in Health Science, Human Services and Applied Arts postsecondary programs to qualified Aboriginal students in oversubscribed programs. Barriers such as highly competitive grade-point averages or overall ranking was removed, while still ensuring all participating students met the minimum program admission requirements. By eliminating the competitive barriers with an oversubscribed program, an additional pathway for Aboriginal students has been created in postsecondary education. Preference is given to Aboriginal students in the Aboriginal Section of the RPN to BScN Stream, but if not completely filled, qualified non-Aboriginal applicants are offered admission to this site to facilitate integration of cultural learning and experiences for both Aboriginal and non Aboriginal students. This mixture of Aboriginal and non-Aboriginal students ensures a full cohort to achieve financial sustainability and supports the partnership’s goals of integrating learning opportunities for both groups of students, enriching the learning outcomes for all students and strengthening partnerships with our Aboriginal Communities.

Applicants should contact the Associate Dean Nursing, Mohawk College for further information. Applicants should apply to Ontario College Application Services (OCAS) along with the required fees by February 1. All applications must be received by OCAS on or before this date to be given equal consideration by the colleges. Please note that February 1 is not a deadline for submitting applications as OCAS will continue to process applications received after this date.
You are encouraged, however, to submit your application as early as possible, especially in the case of oversubscribed programs where there are often enough applications from qualified applicants received by the equal consideration date (February 1) to fill the program.

IV. BASIC-ACCELERATED (F) STREAM

The Basic-Accelerated (F) Stream is available to those applying from a university science program of studies. Students may complete the program of studies in five academic terms.

Note: (F) Stream is not open to students currently enrolled/registered in the Basic Stream at McMaster or any other nursing program. Applicants with two undergraduate degrees will not be considered for the Accelerated Stream. Please see the policy under the General Academic Regulation section of the Undergraduate Calendar.

To be considered applicants must:
1. achieve a Grade Point Average (GPA) of at least B- in all university degree credit courses taken.
2. complete a minimum of 54 units (2 full years) of university credit which include a grade of at least C- on each of the following required courses:
   - six units of Introductory Psychology
   - six units of Human Physiology or six units of Human Anatomy and Physiology
   - six units of Biochemistry, three of which can be Nutrition and
   - three units of Statistics
3. Six units are equivalent to one full credit or two half credits.

   Note: When choosing Biochemistry courses to meet the requirements, students are advised to select relevant courses that would facilitate success in a nursing program. For example, three units of Biochemistry and three units of Human Nutrition will be acceptable. Students must have completed or be currently registered in the required courses at the time of application.

Official transcripts must be submitted by February 1 otherwise the application will not be considered. Normally, the required Human Anatomy and Physiology and Biochemistry courses must be completed within the last four years. If you have taken these courses more than four years ago, we encourage you to contact the Admission Coordinator at (905) 525-9140 ext. 22232. Otherwise, your application will not be considered.

3. apply online at http://www.ouac.on.ca/ using Form 105D to OUAC no later than February 1; Current McMaster students are not required to apply through OUAC.
4. submit all secondary and post-secondary transcripts to the Office of the Registrar at McMaster University by February 1. Applicants who are in their final year of their degree when applying or are applying as a second degree do not have to submit their high school transcript.
5. submit the completed supplementary application on-line following instructions at http://www.fhs.mcmaster.ca/nursing/ by February 1.

UNSUCCESSFUL APPLICANTS

Applications are not held over from one year to another. An unsuccessful applicant may reapply to the B.Sc.N. Program by submitting a new application, including supporting documentation.

APPLICATION FOR DEFERRED REGISTRATION

Deferred registration is granted only under exceptional circumstances to those candidates who have been admitted and have accepted the offer. Registration may be deferred for one year only. The request for deferral, outlining the reasons for the request, must be postmarked no later than July 31 of the year for which deferral is requested.

In addition to meeting the General Academic Regulations of the University, students enrolled in the B.Sc.N. Program shall be subject to the following program regulations.

Registration in the B.Sc.N. Program implies acceptance on the part of the student of the objectives of that program and the methods by which progress toward the achievement of those objectives is evaluated.

Since the academic regulations are continually reviewed, the University reserves the right to change the regulations.

The University also reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing. The B.Sc.N. Program reserves the right to remove a student from a class, clinical placement or laboratory setting at any point during the term if the student exhibits unsafe clinical practice or behaviour that places the patient or others at risk or is deemed a serious breach of professional behaviour. Such removal will result in the student receiving a grade of F in the course and may result in dismissal from the program. The clinical activities associated with any clinical course must be successfully achieved for attainment of a passing grade in the course.

If a student drops a required course, the student must notify the Coordinator of Studies Office. Written confirmation of return must be submitted to the Coordinator of Studies by the end of the drop and add period of the term prior to the anticipated date of reregistration in the course. Failure to notify the Coordinator of Studies may result in students being refused registration in the course based on resource limitations.

B.Sc.N. Program Academic Regulations

BASIC (A); POST DIPLOMA (E) AND BASIC-ACCELERATED (F) STREAMS

1. Minimum Grade Point Average: A student must achieve a Grade Point Average (GPA) of at least 5.0 to be eligible to continue in the program (effective September 2011 intake).
2. **Passing Grades in Required Health Science and Non-Clinical Nursing Courses:** A student must achieve a grade of at least C- in the required Health Science and graded non-clinical Nursing courses. If a student fails to meet the minimum grade requirements, the student may, at the discretion of the Coordinator of Studies in consultation with the Reviewing Committee, be allowed to repeat the course in which the minimum Passing grade requirement has not been met. If a student fails to meet the minimum passing grade requirement after repeating the course, he or she may not continue in the program. A student may normally be allowed to repeat only one Health Science or one non-clinical Nursing course during the program.

3. **Passing Grades in Clinical Nursing Courses:** A student must achieve a Pass designation in all clinical courses. If a student fails to achieve a Pass designation in a clinical course, the student may, at the discretion of the Coordinator of Studies in consultation with the program Reviewing Committee, be allowed to repeat the course in which the Pass designation has not been met. If a student fails to achieve the Pass designation requirement after repeating the course, he or she may not continue in the program. A student may normally be allowed to repeat only one clinical Nursing course during the program.

The following courses are designated clinical courses:

- **Basic (A) Streams:** NURSING 1I02, 1J02, 2L03, 2P03, 3Q03, 3X04, 3Y04, 4J07, 4K07, 4K10
- **Registered Practical Nurses (E) Stream:** NURSING 2T04, 3Q03, 3Y04, 4J07, 4K10
- **Basic-Accelerated (F) Stream:** NURSING 2J04, 2U03, 3Q03, 3ZA3, 3ZB3, 4J07, 4K10

4. **Course Completion:** For core nursing and health science courses, students must register in and successfully complete all the work of one level before proceeding to the next level. For each of the streams (A, B, E and F), courses must be taken in the sequence specified by the program requirements.

The following courses must be completed by the end of Level II and before the start of Level III:

- PSYCH 1X03 (McMaster and Mohawk) or PSYCH 1N03 (Conestoga): Introduction to Psychology, Neuroscience & Behaviour
- PSYCH 1X03 (McMaster and Mohawk) or PSYCH 1N03 (Conestoga): Foundations of Psychology, Neuroscience & Behaviour

The following course must be complete by the end of Level III and before the start of Level IV: HTHSCI 2S03 - Introduction to Statistics for Nursing

5. **Dropping Courses:** Students who drop or cancel required Nursing or Health Science courses must notify the Office of the Coordinator of Studies. The Program reserves the right to limit the number of times a student may register for and then drop or cancel a course, due to resource limitations.

6. **Leave of Absence:** Request for a Leave of Absence based on compelling medical or personal reasons must be made in writing to the Academic Advisor. The letter must outline the date of the beginning of the leave and the anticipated date of return. Notification of return from a Leave of Absence must be made through a letter to the Academic Advisor no later than May 1 of the academic year of re-entry. A reintegration plan for re-entry will be made by the Academic Advisor in consultation with the Coordinator of Studies. Normally only one Leave of Absence will be granted for the duration of the program.

7. **Non-Academic Requirements:** A student must comply annually before the start of classes with all non-academic requirements as outlined by the program. Failure to do so will result in removal from class and/or professional practice courses.

8. **Access to Nursing Courses:** Normally, Level I, II, III and IV Nursing courses are available only to students registered in the B.Sc.N. Program. Students must achieve a grade of at least C- in all Health Science and Nursing courses.

9. **Travel within the Program:** Students are responsible for arranging their own travel to and from learning settings external to the University and for covering any costs incurred. All students who enrol in the B.Sc.N. program are expected to travel to any learning setting in Hamilton and the surrounding area, including but not limited to Halton, Peel, Brant, Halton-Norfolk, Niagara and Wellington regions (McMaster and Mohawk sites); and Kitchener-Waterloo and surrounding area, including but not limited to Wellington, Brant and Halton regions (Conestoga site).

10. **Access to Clinical Courses:** Students in any stream who register for a clinical lab course in Level III or above must also submit a placement request to the Placement Coordinator. Students who fail to meet the published deadline but who register for the course at least two months prior to the date it is to commence will be assigned a placement setting without consideration of their preferences. Students who do not register two months in advance and who fail to meet the submission deadline will normally be required to defer their placement until the next term in which the course is offered.

The final assignment of learning settings for any course is constrained by the availability of the requested setting and faculty resources. Students may therefore be required to complete the practicum component of a course in a learning setting that is not of their choosing.

11. **International or Outpost Clinical Placements:** For Level IV students in Basic Streams (A) and (E) who are interested in International or Outpost placements, prerequisites include, but are not limited to, attaining a Grade Point Average of 8.0 in all Level II and Fall Term of Level III (Basic A Stream) or Winter Term of Level II and Fall Term of Level III (R.P.N. to B.Sc.N. E Stream), a pass in all clinical courses, and a pass in HTH SCI 3B03 or HTHSCI 2R3.

12. **Specialized/atypical Clinical Placements:** Specialized/atypical placements in Level IV are only available to students with a Grade Point Average (GPA) of 8.0 in all Level II and Fall Term of Level III (Basic A Stream) or Winter Term of Level II and Fall Term of Level III (R.P.N. to B.Sc.N. E Stream), and a pass in all clinical courses.

13. **Access to Leadership and Management Courses:** The Leadership and Management courses are open only to students registered in the Leadership and Management program, which was previously administered and is currently endorsed by the Canadian Nurses Association. Students in the B.Sc.N. (B) Stream may apply to the coordinator of the Leadership and Management program for permission to take these courses.

14. **Transfer between Sites:** Students attend the institution to which they are admitted for the entire program. Transfer from Mohawk or Conestoga Colleges to McMaster University site is not an option. Similarly, transfer from McMaster University to Mohawk or Conestoga Colleges is not an option. Transfers may be permitted between the College sites, based on availability of space in the Program at the desired site.

To request a transfer between the College sites, the student must:

- Register with OCAS requesting a transfer before February 1
- Provide a letter to the Associate Dean/Chair and the Academic Advisor requesting the transfer
- Request a letter of good standing be sent by the Associate Dean/Chair to the site to which you wish to transfer. Only students in good academic standing (GPA of 3.5 or above for those entering before September 2011; GPA of 5.0 after September 2011; not on academic probation) with a minimum of a B average in Nursing and Health Sciences courses will be considered.

Transfer between Streams: Normally a transfer between streams of the B.Sc.N. program is not permitted.

15. **Documentation for Licensure outside of Canada:** Documentation for Licensure outside of Canada is done by the Office of the Coordinator of Studies. A fee of $100, for each request, is charged for providing the
well as the academic regulations specific to the School of Nursing, (please refer to Academic Regulations in the School of Nursing outline in this section of the Calendar). Mohawk and Conestoga B.Sc.N. students are also subject to the following regulations.

Program Approval
Selection of courses must be approved by the Chair of the Program at the site to which the student is admitted. Where the Calendar indicates that a faculty office, Associate Dean or Dean of Studies must be contacted, students should contact the Academic Advisor at the appropriate site (Conestoga or Mohawk College). Before courses are selected, students are requested to determine the requirements for the program as outlined in the appropriate sections of this Calendar and to follow the instructions in the registration package.

Academic Standing
The College Reviewing Committees shall be comprised of members from the Colleges and the University; these Committees shall be chaired by the Coordinator of Studies (McMaster).

Required to Withdraw
Students must follow the withdrawal procedures for the respective College.

Letters of Permission
Letters of Permission must be approved by the Academic Advisor at the site to which the student is admitted.

Academic Records
Student files shall be kept at the respective College site for reference and audit purposes.

Examinations
A Mohawk College, Conestoga College or McMaster student photo identification card is required at all examinations.

Curriculum for the B.Sc.N. Program

BASIC (A) STREAM (B.Sc.N.)

McMaster Site Conestoga Site Mohawk Site The Faculty has planned the curriculum so that the study of nursing, the physiological, psychological and social sciences, and the humanities are interrelated and span the entire program. In Level I, the amount of nursing experience is relatively small; the major proportion of study is in the behavioural and natural sciences. The nursing component increases progressively through Levels II, III, and IV, as the study of natural sciences is completed. Normally, because of timetable constraints, courses must be taken in the level indicated in the curriculum.

REQUIREMENTS FOR STUDENTS WHO ENTER IN 2009 OR LATER ELECTIVES
Eighteen units of electives are to be selected from disciplines of the student’s choice, of which a minimum of six units are to be chosen from courses designated as Level II or above. Normally a maximum of six units of electives may be selected from Nursing and Health Sciences elective courses. For some courses, the amount of duplication of required content will preclude their being used for elective credit in the B.Sc.N. Program.

Basic (A) Stream McMaster Site students are eligible to enroll in the following COLLAB elective courses: COLLAB 2F03 (Mohawk site) and COLLAB 2K03 (Conestoga site). Please see COLLAB courses in the Course Listings section of this Calendar under Nursing Consortium (A) Stream for more information.

Basic (A) Stream Mohawk and Conestoga Site students must take nine units of COLLAB electives and nine units of McMaster electives. COLLAB electives are college-based courses which have been assigned the McMaster designation COLLAB and are open only to Nursing students at the Mohawk and Conestoga sites as specified in prerequisite statements. For course descriptions, please see COLLAB courses in the Course Listings section of this Calendar under Nursing Consortium (A) Stream.

NOTE
HHTHSCI 4NR3 may be completed in either Level III or IV.

REQUIREMENTS
Level I: 30 Units

Continuation in the Program
Students are reviewed at the end of each term. To continue in the B.Sc.N. Program a student must obtain a GPA of at least 5.0. A student whose GPA is at least 4.5 may, at the discretion of the Coordinator of Studies in consultation with the program Reviewing Committee, proceed in the program and will be placed on program probation. A student may be placed on program probation only once during the program.

Failure
A student whose GPA is less than 5.0, and who has not been granted program probation, may not continue in the program. A student who fails to obtain a GPA of 5.0 at the completion of the program probation may not continue in the program. After repeating a required Health Science or Nursing course, a student who fails to meet the minimum passing grade or Pass designation may not continue in the program. A student may normally repeat a level of work only once.

Reinstatement
Those students who are ineligible to continue at the university and wish to reapply for reinstatement must contact the Office of the Registrar to secure a Reinstatement Request Form. Students are considered for reinstatement for September entry only and must apply by February 1. Reinstatement forms are carefully reviewed and the evidence considered will include the student’s academic performance before and after admission to McMaster, a brief summary of the circumstances relevant to the student’s failure of academic success, activities since last registered at the university, including all academic work and any other appropriate documentation. Students must indicate why they believe reinstatement will lead to success. Reinstatement is not automatic or guaranteed. Decisions are normally made after May 31 for September entry. Mohawk and Conestoga College site students wishing reinstatement to the Nursing Program must contact the Admission Office at the respective college for further information. If reinstated, students will need to complete a reintegration plan that will facilitate re-entry to the B.Sc.N. Program prior to enrollment of courses.

Readmission
Former McMaster University students who voluntarily withdrew from the Nursing Program must apply for readmission through the Office of the Registrar by February 1. Readmission requests are carefully reviewed by the Admissions Committee and the evidence considered will include the student’s academic performance in the program, a letter outlining the decision to return and activities since last registered in the program. Readmission is not automatic or guaranteed. Decisions are normally made after May 31 for September entry. Mohawk and Conestoga College site students wishing reinstatement to the Nursing Program must contact the Admission Office at the respective college for further information.

Accommodation Plan for Students Experiencing Cohort Lag
An individualized plan will be made with each student experiencing cohort lag as the Kaleidoscope Curriculum is phased in over the period of 2009 to 2013. In each instance, a plan for course completion will be developed considering which particular aspects of the curriculum have been completed with the guiding principle to advantage the student where ever possible. The Curriculum for students who entered in September 2008 will be of greatest concern. The Program reserves the right to offer courses which have been replaced by new courses in the Kaleidoscope Curriculum if this is to the students’ advantage, and if there are sufficient numbers of students requiring a course, based on resources. In other instances students will require individualized or group tutoring to learn specific concepts so that they can join a cohort who enters the program after them. Students experiencing cohort lag should contact the Office of the Coordinator of Studies.

The course work is designed to familiarize the student with the theory and application necessary to function effectively in a formal or informal leadership position. Content includes theory and techniques of management, leadership, organizational development and change, motivation, labour relations, legal implications, ethics, finance and the Canadian Health Care System.

Enrolment is by approval of the Director. Further information may be obtained through the Program Office (905) 525-9140 ext. 22409.

Coursework involves emphasis on problem-based small group learning, case studies and self-directed learning. Two eight-week internship placements in children’s hospitals and community settings are a requirement of this program.

ADMISSION
A related university degree with an overall B average is required, as well as relevant experience. Admission is based on the assessed strengths of each applicant as determined by a 2 stage selection procedure:

1. Application package
2. Interview

Not all candidates are offered interviews. Candidates must be successful at stage one to be offered an interview.

The Child Life Studies Program has a limited number of internship positions and the admission process is very competitive. The admission requirements stated are minimum requirements. Applicants who achieve highest overall admission scores based on application package and interview will be given preference for entrance into the program. Offers of admission will be made following the interview process.

Applications must be submitted by March 1 of each year for the study period beginning in September. Information outlining application requirements can be obtained by contacting the Child Life Studies program office at (905) 525-9140, ext. 22795 http://www.fhs.mcmaster.ca/childlife.

UNSUCCESSFUL APPLICANTS
Applications are not held over from one year to another. If the applicant wishes to reapply they must resubmit a new application package including transcripts and additional material.

EVALUATION AND CONTINUATION IN THE PROGRAM
Evaluation by self, peers, preceptors and faculty is part of an on-going assessment process of coursework, internships and program objectives.

A student must achieve a Grade Point Average (GPA) of at least 70% in all graded courses combined and achieve a Pass/Satisfactory performance in both internships.

UNDERGRADUATE LEVEL COURSES
Undergraduate level courses in Child Life are available separate from the postgraduate program. Please see the course descriptions listed in the Course Listings section of this calendar, under the subject Child Life Studies (CHILD LS). Program Overview
Midwives are primary health care providers who provide care and advice to women during pregnancy, labour and the postpartum period; conduct deliveries and provide care for newborn babies. Midwives have well-developed interpersonal skills and are competent in areas of health education, counselling and interprofessional collaboration. Midwives’ expertise in the care of normal pregnancy and childbirth arises from their understanding of childbirth as a social, cultural and biological process and from their ability to competently exercise clinical skills and decision-making. Midwifery is potentially one of the most important components of women’s health care in Ontario. Midwifery education provides the base for sound professional practice. The educational program is an integral part of the evolution of the profession of midwifery in Ontario and is a leader in midwifery education in Canada. The program helps create future leaders and teachers. It assures practice and teaching as a continuum so that learning environments become available across Ontario.

The Midwifery Education Program at McMaster University is a collaborative venture shared by McMaster, Ryerson and Laurentian Universities, and leads to a Bachelor of Health Sciences (B.H.Sc.) in Midwifery.

Admission Procedures and Requirements

IMMUNIZATION
The Ontario Public Hospitals Act requires that all persons working in a hospital setting meet certain criteria regarding surveillance for infectious diseases. In order for the requirement of the legislation to be met, students are required to complete the immunization screening process by September 1st in the year of admission and each subsequent academic year. All registered students are required to have a satisfactory Police Records Check completed by July 15th annually. Expenses for the Police Records Check are the responsibility of the student.

The Police Records Check includes a Vulnerable Sector Screening and check of the Royal Canadian Mounted Police (RCMP), National Canadian Police Information Centre (CPIC) database for the following:
- All records of Criminal Code (Canada) convictions
- All pardoned sexual offences
- All record of convictions under the Narcotic Control Act

The program strongly suggests that students join both the College of Midwives Subscriber Status and the Association of Ontario Midwives as a student member.

Graduation Requirements

A student is eligible for graduation when all of the following criteria are met. The student must:

1. complete all required courses, including electives, with a CA of at least 6.0 including a minimum grade of C- in HTH SCI 1D06 and a minimum grade of B- in MIDWIF 1D03, 2G06; 3F03 and 3J06;
2. complete HTH SCI 1C06, 1J03, 2M03, MIDWIF 1F03 (or HTH SCI 3C04), 2F03 with a minimum grade of C- with the exception of a D in one of those courses;
3. complete all clinical courses with a Pass/Satisfactory grade;
4. complete all courses for the degree within five years (not inclusive of approved leaves of absence).

The practice of midwifery is regulated by the College of Midwives under the Midwifery Act, 1991 and the Regulated Health Professions Act, 1991. The Midwifery Education Program monitors and documents students’ clinical experience in order that students meet minimum practice requirements to be eligible for registration to practice. Graduation from the Midwifery Education Program does not guarantee registration with the College of Midwives of Ontario. All applicants to the College must meet additional registration requirements. New graduates are required to work in an established practice for their first year of registration. Regulatory requirements are subject to change from time to time.

MIDWIFERY PROGRAM (B.H.Sc.)

The four year program which spans nine terms, includes courses from basic sciences, social sciences, health sciences, women’s studies and electives, in addition to clinical courses. A variety of course formats include classroom, distance learning through web conferencing and print-based self-study courses. Teaching methods include lecture format, small group tutorials, self-directed activities and practical learning experiences in both laboratory and clinical practice settings.
INTENSIVES
An Intensives course is 5-7 days in duration and consists of workshop-style presentations focusing on clinical skills. Attendance (100%) is mandatory.

Clinical Courses
Clinical courses consist of a practical and theoretical component and concurrent problem-based weekly tutorials. Students are assigned to a midwifery practice as well as to interprofessional placements including nursing, neonatal intensive care nursery, and obstetrical practices. Throughout the program, students will be placed in more than one midwifery practice and will gain clinical experience in a hospital setting and with an obstetrician. Students should expect to relocate for clinical placements. Travel and living expenses are the responsibility of the student. The Midwifery Education Program reserves the right, at any point during the term, to remove a student from a clinical placement or laboratory setting if the student exhibits unsafe clinical practice or behaviour that places clients or others at risk and/or violates the Midwifery Act of Ontario. Such removal will result in the student receiving a grade of F and may result in dismissal from the program.

Program Overview
McMaster was among one of the first institutions in Canada to launch a Physician Assistant Education Program in 2008. The PA Education program will lead to the Bachelor of Health Sciences (Physician Assistant) degree. The program is taught using inquiry and problem-based learning, which enhance each student’s ability to think critically, solve problems, demonstrate initiative and independence in practice, and promote lifelong learning.

Mission Statement
The mission of the McMaster University Physician Assistant Education Program is to educate energetic, innovative, committed and caring individuals to become role models in a new health care delivery model practicing medicine under the supervision of a physician to expand health care access for the people of Ontario.

Curriculum Plan
The twenty-four month program begins in September. The first year focuses on the study of the clinical sciences underpinning health care delivery. In the second year, students enter into clinical placements.

YEAR I: CLINICAL SCIENCES
The clinical sciences curriculum is modeled on the McMaster Medical School COMPASS Curriculum and is designed to meet the competencies outlined in the Canadian Association of Physician Assistants Occupation Competency Profile and the Canadian Medical Association accreditation requirements. The curriculum is delivered in small group problem-based learning modules with a focus on the physician assistant’s role in health care and the promotion of inter-professional education and training.

The clinical sciences curriculum consists of three Medical Foundations each composed of four components:

1. Clinical Sciences
2. Interviewing, Examination and Reasoning (IER)
3. Professional Competencies
4. Longitudinal Clinical Experience Program (LP)
Medical Foundation 1 (MF1)
- Clinical Science: Oxygen Transport: cardiovascular, respiratory and hematologic physiology and disease.
- IER: Basic communication skills, history taking and physical examination.
- ProComp: Professionalism, the role of the PA, principles and structure of the health care system, chronic disease, determinants of health
- LP

Medical Foundation 2 (MF2)
- Clinical Science: Homeostasis: energy balance, GI, endocrine, nutrition, fluid and electrolyte balance (including renal, acid base, BP) and reproduction, and pregnancy
- IER: Continued development of communication skills, history taking and physical examination with additional focus on GI, endocrine and obstetric and gynecologic systems.
- ProComp: Medical ethics and medical decision making.
- LP

Medical Foundation 3 (MF3)
- Clinical Science: Infection, neoplasia, neurologic, psychiatric and musculoskeletal physiology and disease
- IER: Continued development of communication skills (negotiation and conflict resolution), history taking and physical examination with additional focus on the neurologic, psychiatric and musculoskeletal systems.
- ProComp: Standards of care, laws and codes relevant to medical practice, institutional policies, mental health and society, breaking bad news, end of life decision-making, resource allocation
- LP

YEAR II: CLERKSHIP
In the second year of the program students will undertake 48 weeks of supervised clinical placements. Core experiences will take place in family medicine, medicine, surgery, emergency medicine, pediatrics, and psychiatry. Placements will take place in Hamilton, in the expanded McMaster campuses of St. Catharines and Kitchener/Waterloo, and in the broader Ontario community. Elective placements will round out the balance of the clinical year and will allow students to pursue additional career interests.

Certification
Graduates will qualify to take the Physician Assistant Certification Council of Canada National examination.

Admission Requirements
By June 2015, applicants must have completed a minimum of two years of undergraduate work. Only degree courses at an accredited university will be considered. To satisfy the minimum requirements, academic credentials obtained from a Canadian University must be from an institution that is a full member of the Association of Universities and Colleges of Canada (AUCC) or the Council of Ontario Universities (COU). A minimum of 10 full-courses or 20 half courses (two years) is required. Courses that employ small group, self-directed or inquiry learning are excellent preparation for the PA Education program. There is no requirement for applicants to have carried a full course load. By February 2015, applicants are expected to have achieved an overall simple average of at least 3.0 on the OMSAS 4.0 scale for consideration. Higher grades may be required.

Upon acceptance, successful applicants will be required to provide detailed medical information, including a record of completion of required immunizations, evidence of Basic Cardiac Life Support certification (Adult and Child CPR) and a satisfactory Police Records Check (at the applicant’s expense) upon entering the program and annually thereafter.

Admission Procedures
Application (including the appropriate fee) is to be made through the: Ontario Universities’ Application Centre (OUAC)
170 Research Lane
Guelph, ON, N1G 5E2
http://www.ouac.on.ca

This form, as well as a supplementary application form are both required and the deadline for receipt of both applications is February 1st (for September 2015 admission). Please refer to the program’s web site for full application details and information regarding the supplementary application form. Upon receipt of the application and certified transcripts, selected applicants will be invited to an interview.

THE ADMISSIONS COMMITTEE WILL CONSIDER:
- University transcripts and GPA
- Supplementary application
- Interview

APPLICATION FOR DEFERRED REGISTRATION
Deferred registrations will not normally be granted in the PA Education Program. Deferred registration may be granted under exceptional circumstances. Request for deferral must be submitted within two weeks of the offer of admission.

ADVANCED STANDING/TRANSFER
The structure of the PA Education program requires that all students complete the entire program starting with Medical Foundation 1. There is no provision for advanced standing or transfer into the program.

FULL-TIME STATUS
The structure of the program requires that all students be registered in the program on a full-time basis and attendance in all components of the program is mandatory.

Financial Information
In 2015-16 the tuition fee for a student in Year I of the PA Education Program is expected to be approximately $11,505 for a 12 month academic term, plus supplementary fees estimated at $1,000.00 per year. Additional costs include books, diagnostic equipment and other learning resources estimated at $2,500.00. Students are also responsible for their transportation costs related to clinical study. There is a bursary program which has been developed by the University. Bursaries may be awarded to students who are Canadian citizens based on demonstrated financial need. Bursaries are intended to offset provincial financial assistance and cannot supplement the full cost of education. For further information, please contact the Education program web site or the Student Financial Aid and Scholarships Office at McMaster University.

HONOURS BIOLOGY AND PHARMACOLOGY PROGRAM (CO-OP)
This is a joint program between the Faculty of Health Sciences and the Faculty of Science (Department of Biology). The Pharmacology courses, which are run in a small group, problem-based format, are the responsibility of the Faculty of Health Sciences, drawn from the following departments: Biomedical Sciences, Medicine, Obstetrics and Gynecology, and Pathology. Please see the Faculty of Science, Department of Biology section of this Calendar for admission requirements.

MEDICAL RADIATION SCIENCES PROGRAM
This Diploma-Degree program is offered jointly in a fully integrated format by McMaster University in partnership with Mohawk College of Applied Arts and Technology. Graduates are awarded the McMaster Bachelor of Medical Radiation Sciences degree as well as the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk College. Please see Medical Physics (Dept. of Med. Physics & Appl. Radiation Sciences) in the Faculty of Science section of this Calendar for admission requirements.
At McMaster, Humanities means leadership.

Look at any list of the attributes of effective leadership, and what do you find?

- Strong personal and ethical values
- The ability to influence others by making reasoned, well thought out arguments
- Emotional intelligence, achieved both by knowing oneself, and by being able to see the world from the perspective of others
- Social intelligence, the ability to collaborate, to engage others in conversation, to be sensitive to social situations and to work with those culturally different from ourselves
- Communication, conveying complex ideas in clear and inspiring ways
- Creativity, particularly an openness to new ideas and a willingness to question everything, not for the sake of asking questions, but to make this a better world

These are the so-called “soft skills”. The “soft skills” build careers. The “soft skills” build leaders. They are the skills that build leaders in our communities, in our neighbourhoods, in our classrooms, in our social agencies, in our arts organizations, and, yes, in businesses, from corporations to start-ups. And do you know what? Employers in all sectors are finding that these soft skills are hard. Hard to find. And hard to teach on the job.

That’s where Humanities comes in. In our disciplines, we focus on values, on developing persuasive and rational arguments, on communicating complex and challenging ideas, on collaboration, on creativity, and on critical and constructive thinking. Our students go on to successful leadership roles as lawyers, doctors, teachers, professors, policy analysts, journalists, museum curators, artists, musicians, translators, speech language pathologists, and business executives, to name just a few.

How you get there is up to you. We offer a broad range of programs, many of which can be taken in combination. They include: Studio Art, Music, Theatre and Film, Art History, Classics, History, Communication Studies, Multimedia, English and Cultural Studies, French, Cognitive Science of Language, Linguistics, Peace Studies, Philosophy, and Justice, Political Philosophy and Law. You can combine most programs with those in Social Sciences, Mathematics with English, French, History or Philosophy, or Biology and Philosophy. We offer courses in a variety of languages and in women’s studies, many of which can lead to a Minor. Students may also take a Specialized Minor in Commerce, an Interdisciplinary Minor in African and African Diaspora Studies or Archaeology.

We look forward to having you in our classrooms, our workshops, our performance spaces and our laboratories. We will work with you and help you work with others to build the skills you need to be the agents of change that our world so desperately needs.

Types of Degree Programs

Upon successful completion of Humanities I, a student may be admitted to a program of study leading toward a Bachelor of Arts degree. Completion of Music I may lead to a Bachelor of Music (Honours) or Bachelor of Arts degree. Completion of Studio Art I leads to a Bachelor of Fine Arts (Honours) degree. Three types of programs lead toward a Bachelor’s degree in the Faculty of Humanities.

SINGLE HONOURS PROGRAM

This involves three years of study, beyond Level I, concentrated in the work of a single discipline (e.g. History). After three years of Music study beyond Music I, students receive a B.Mus. (Honours) degree.

COMBINED HONOURS PROGRAM

This involves three years of study, beyond Level I, concentrated in the work of two disciplines (e.g. English and Peace Studies). A student can combine study in any two Humanities disciplines, or one Humanities discipline and a subject from another Faculty where appropriate (e.g. History and Political Science).

B.A. PROGRAM

This involves two years of study, beyond Level I, concentrated in the work of a single discipline.

The content and the requirements of Single Honours, Combined Honours and other B.A. programs are found after the Academic Regulations below. There are a number of Humanities courses without prerequisites which may be taken as electives. Individual course descriptions are listed by department in the Course Listings section of this Calendar. Not only are students from other Faculties able to take individual courses which have no prerequisites, but they are also able to transfer into any of the degree programs offered by the Faculty of Humanities. For the majority of programs in the Faculty, admission may be gained after the successful completion of any Level I program at the university, providing this includes the necessary program requisites as outlined in the admission statement for each Humanities program as described under Programs for the B.A., B.A. (Honours) and B.Mus. (Honours) Degrees.

SPECIALIZED MINOR IN COMMERCE FOR STUDENTS COMPLETING A SINGLE HONOURS B.A. IN HUMANITIES

The Specialized Minor in Commerce for Humanities students is administered by the DeGroot Middle School of Business. A maximum of 30 students will be admitted each year to this Specialized Minor.

Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY
You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES
All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic.

PART-TIME STUDY
Students wishing to enter any program offered by the Faculty of Humanities and pursue a program on a part-time basis should consult the appropriate Departmental Counsellor(s) before making their plans.

STUDENT COMMUNICATION RESPONSIBILITY
It is the student’s responsibility to:
- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student’s designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student’s @mcmaster.ca alias.

MINOR
A Minor is an option available to a student enrolled in a four-level honours program. A Minor consists of at least 18 units of Level II, III or IV courses in addition to the designated Level I course(s), that meet the requirements set out in the program description of that Minor. Students are responsible for ensuring that they take courses that meet these requirements (using elective units only). When enrolling in cross-listed courses to be applied towards a Minor, students must ensure that they enrol in the appropriate subject for the Minor designation. Those who have the necessary requirements may apply for recognition of a Minor when they graduate. If recognition for a Minor is granted, it will be recorded on the student’s transcript. Minors cannot be revoked once approved. Students may return for a second degree in the subject in which they have obtained a Minor, but only at the Honours level. For further information please refer to Minors in the General Academic Regulations section in this Calendar.

SECOND LANGUAGE PROFICIENCY
Students embarking on Humanities programs should be aware that most graduate schools require, for admission, proficiency in at least one, and frequently two, languages other than English. In this Faculty, proficiency in at least one language other than English is regarded as an essential tool for students interested in Linguistics. Generally, proficiency in more than one language is a hallmark of most highly-qualified Humanities’ graduates seeking the widest range of post-graduation academic and employment opportunities.

For students wishing to acquire a reading knowledge of French, a summer course, FRENCH 4R06 is offered in May-June in alternate years. This course is intended to prepare current and incoming graduate students for the French proficiency test administered by some departments. Certain graduate programs recognize a passing mark in this course as fulfillment of the second language requirement. For students wishing to acquire a reading knowledge of German, GERMAN 4R06 is offered in May-June in alternate years.

APPLICATION FOR Level II PROGRAMS/PLANS
Step 1: Attend the Humanities Majors Fair (in early March)
The Faculty hosts a Majors Fair for Level I students to provide information regarding program and plan options for Level II, the range and nature of subjects studied in particular discipline areas, as well as possible career and postgraduate options.

Step 2: Selecting a Level II Program (mid-March to April 30)
Student seeking admission to a Level II program/plan for the following Fall and Winter terms must complete an application by using their MacID to log-on to Mosaic.

- Click the “Student Center” tab.
- Click the “My Academics” link.
- Click “Program/Plan Application” link.

Please note the following important information:
- Students must rank order their program choices carefully, especially if they want to be considered for admission to a limited enrolment program such as Multimedia or Justice, Political Philosophy & Law.
- Students who are admitted to their FIRST choice program, will NOT be evaluated for any other program selections.
- Students who are NOT admitted to their first choice, will be evaluated for their second choice, third choice, and so on.
- Students may apply to a maximum of four programs.
- For students applying for Honours Justice, Political Philosophy, and Law, the mandatory supplementary application is due APRIL 1st: https://webserver.humanities.mcmaster.ca/~jpplsupp/

Step 3: View your Program (Late May)
In late May, students must check the Student Centre in Mosaic to see their program for the Fall and Winter terms.

If your GPA is 3.0 to 3.4, you may remain in the program, but will be placed on academic probation. You may be on academic probation only once. If your GPA is less than 3.0, you may not continue at the University.

**Deferred Examinations**

Students who have been granted more than one deferred examination may be required by their Faculty/Program office to reduce their course load during the term in which the deferred examinations are being written. The decision on a reduced load will be made and communicated with the decision on the application for deferred examinations.

**Transfer to the Faculty of Humanities**

Students from other Faculties are able to transfer to degree programs offered by the Faculty of Humanities provided that they have obtained a Grade Point Average of at least 3.5 and have completed the necessary requirements for admission to a program.

**Reinstatement to the Faculty of Humanities**

A student who may not continue at the University may apply for reinstatement; however, reinstatement is not automatic or guaranteed. Application for reinstatement must be made to the Office of the Registrar using the Reinstatement Request Form by the deadline for the session. See the Sessional Dates section of this Calendar.

The form should explain the reasons for the student’s inadequate performance, and should include relevant documentary evidence, for example a letter from a physician outlining any medical condition that might have affected the student’s academic performance or final grades. Reinstatement cases will be carefully screened and the evidence considered will include the student’s academic performance before and after admission to McMaster, as well as the nature of the reasons cited in the application letter and the accompanying documentation.

If students are reinstated at the University, their Grade Point Average will be re-set to 0.0 on zero units, although students may (at Faculty discretion) retain credit for prior work. Following reinstatement, students will be on academic probation and must complete a minimum of 60 units of work after reinstatement to be eligible for Graduation with Distinction or other recognition based on the Grade Point Average.

If, at any review after reinstatement, the student’s Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

**Course Selection and Course Changes**

Students are responsible for ensuring that their course selection meets the requirements of the degree program in which they are enrolled, that prerequisites have been met, and that, where necessary, permission to take courses has been obtained. They should review their personal advisement report each time they cancel or add courses, and contact an Academic Advisor if they have questions, particularly if the advisement report shows unused courses. Students should also be aware that changes to their course load may affect their fees and their eligibility for scholarships and financial aid such as OSAP.

**Overload**

**Fall/Winter Session:** Normally students may not enrol in more than 30 units during the Fall/Winter Session (33 units for students in Music I). A student with outstanding deferred examinations or incomplete term-work will not be permitted to overload in the following term. Students may take an overload up to six units under the following circumstances:

1. if a student has a Sessional Average of at least 7.0 in the immediately preceding review period; or
2. if the student is enrolled in the final Level of his/her program.

**Spring/Summer Session:** Students wishing to enrol in more than 12 units during the Spring/Summer Session or more than six units in either term of that Session, may do so only with the permission of the Assistant Dean of Humanities.

**Deferred Examinations**

Students who have been granted deferred examination or term-work privileges for courses taken in the preceding Winter session must secure the advance permission of the Assistant Dean of Humanities before enrolling in Spring/Summer courses. A decision will be made based upon the academic record of the student and the amount of work outstanding.

**Letter of Permission**

Students in good academic standing, who wish to attend another university to take courses for credit toward a McMaster degree, must first request a Letter of Permission in the Student Centre in Mosaic. A Letter of Permission is automatically cancelled if a student is placed on academic probation, program probation, or required to withdraw from the University. Students should take note of any conditions on the Letter of Permission that might apply, including the requirement of a grade of at least C- for transfer credit. Courses taken at another university cannot be used to satisfy the University’s minimum residence requirement, will not be included in the calculation of the averages at McMaster, and therefore cannot be used to raise standing. The transcript designation will read COM, indicating Complete, when a C- or better is attained. It is the student’s responsibility to ensure that an official transcript from the host university is sent to the Academic Advising Office to receive credit for work taken.

**Summer Immersion Programs in French**

- Students must obtain approval from the Career Services, Liaison and Student Abroad Coordinator prior to participating in any language immersion program.
- The government-sponsored Explore summer language program offers university students the opportunity to take French courses at a large number of accredited institutions. Students wishing to attend another university in order to participate in a language immersion program must: (a) petition the Career Services, Liaison and Student Abroad Coordinator, (b) submit detailed course descriptions for assessment, and (c) obtain a Letter of Permission.
- Students enrolled in a program in French may take a maximum of six units of credit in this manner as elective work only. Students not enrolled in a program in French may take up to 12 units of credit.

**Humanities Study Abroad**

**HUMANITIES STUDY ABROAD DURING LEVEL III OF HONOURS PROGRAMS**

There are two ways to undertake international studies during Level III of an Honours program: (i) a Formal Exchange Program or (ii) a Third Year Study Elsewhere Program. (i) Formal Exchange Program During Level III of Honours Programs.
Formal Exchange Programs are those where McMaster University has an agreement with another institution involving a temporary exchange of students. Exchange students enrol at, and pay tuition fees and supplementary fees to McMaster. No tuition is paid to the other institution. See the General Academic Regulations section of this Calendar and the sections on Eligibility and Application below. 

(iii) Third Year Study Elsewhere Honours Program

Qualified Level III students may undertake studies at a university abroad for one or two terms in the Third Year Study Elsewhere Program. This program is not available at universities with which McMaster University has a Formal Exchange Agreement. Students enrol at, but do not pay tuition to McMaster University. Students pay tuition fees to the other institution. See the General Academic Regulations section of this Calendar and the sections on Eligibility and Application below.

ELIGIBILITY FOR STUDY ABROAD

Students enrolled in any Honours or Combined Honours program in the Faculty of Humanities may apply to replace all or part of the work of their third year with an acceptable program of study taken at a university or equivalent institution approved by the Faculty of Humanities.

To be eligible to take part in this program, students must have completed at least 60 units of work with a Grade Point Average of at least 7.0. Individual programs may have additional requirements. All requirements must be satisfied by the end of the Fall/Winter session (September-April) preceding the commencement of study elsewhere. Students taking part in this program do not have the option of graduating with a three-year B.A. degree on the basis of work completed in this program, but must return to McMaster University to complete their final 30 units of work.

Students may receive up to 30 units of credit for a full year of study at another institution. The awarding of transfer credit for work completed elsewhere may be confirmed only after the Academic Advising Office has received transcripts and reviewed students’ academic achievements following their return and after they have officially enrolled for Level IV. In certain cases, students may be recommended for the Deans’ Honour List on the basis of work completed elsewhere.

APPLICATION FOR STUDY ABROAD

Students interested in applying for this program should consult Rowena Muhic-Day, the Career Services, Liaison and Study Abroad Coordinator, (Gilmour Hall, Room 106) approximately one year before they anticipate studying abroad (i.e. during the Fall term of the year in which they enter Level II). A plan for the completion of the academic program, approved by the program counsellor(s), must be submitted to the Coordinator by the published deadline (usually in January, although applications for some exchanges may be due as early as December).

PROGRAM NOTES
1. A full-course load for Humanities 1 is 30 units. (The final digit in course numbers indicates the unit weight of a course. 1. The Honours Studio Art program is a limited enrolment program for which entrance requires the permission of the School of the Arts and a successful portfolio interview. The portfolio should contain a variety of works in different media that represent the applicant’s creative abilities and interests. Aptitude in art, academic ability and demonstrated commitment to the discipline are considered in the selection process. In exceptional circumstances, where distance does not allow for an interview, portfolios
may be submitted in the form of electronic digital images or photographs. Portfolio interviews occur between January and April each year for entrance in September of the same calendar year. Only those students who call the Office of the School of the Arts (905-525-9140, ext. 27671) before March 1st to book appointments for portfolio interviews will be guaranteed consideration for entrance into the Level I Art courses. (Late applicants will only be interviewed if space availability permits). Permission to register in Level I Art courses will be verified with written confirmation from the School of the Arts. School of the Arts verification and a Letter of Admission to Studio Art 1 from the University will guarantee a space in the program as long as the student meets the minimum academic requirements as outlined under School of the Arts programs in the Faculty of Humanities section of the Calendar. When applying for admission using the OUAC application, applicants who wish to study Studio Art should select MHS for the OUAC code and choose STUDIO ART for the Subject of Major Interest.

Honours Integrated Science is a limited enrolment, interdisciplinary research-based science program designed to develop students as broadly educated research scientists capable of contributing to all modern fields of science. Program courses will develop scientific understanding through integration of multiple disciplines in the study of a series of relevant themes or problems. Many disciplines of science will contribute toward courses offered in the Integrated Science program. Students will be involved in individual and team research projects throughout the program. Students who successfully complete the first three levels of any Honours B.Sc. degree may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with a three-level B.Sc. degree.

HONOURS BACHELOR OF SCIENCE KINESIOLOGY PROGRAM
Similar to the Honours Bachelor of Science, the Honours Bachelor of Science Kinesiology (Honours B.Sc.Kin.) requires 120 units, including the completion of a set of required courses and electives. Honours Bachelor of Science Kinesiology, a limited enrolment, direct-entry program is only available to students who completed Honours Kinesiology I. Kinesiology students who successfully complete the first three levels of the Honours B.Sc.Kin. degree may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the three-level B.Sc.Kin. (exit) degree.

HONOURS BACHELOR OF APPLIED SCIENCE PROGRAMS
The availability of these programs is subject to Ministry approval.

An Honours Human Behaviour (B.A.Sc.) program is available as well as two Specializations offered in collaboration with Mohawk College of Applied Arts and Technology. Graduates of the Specializations will be eligible to receive both, the McMaster B.A.Sc. (Honours) and either the Mohawk College Advanced Certificate in Autism & Behavioural Science or the Early Childhood Education (ECE) Diploma. The Honours B.A.Sc. requires the completion of 120 units, including a set of courses in a specific discipline and allows for interdisciplinary, and/or liberal arts studies through electives from other Departments and Faculties. The Honours B.A.Sc. with a Specialization requires the completion of 150 units, including similar courses for the affiliated Honours B.A.Sc. program as well as designated upper level courses and applied placements, in the area of the specialization. Honours B.A.Sc. students who successfully complete 90 units including the first three levels of the Honours B.A.Sc. degree may request permission from the Office of the Associate Dean of Science (Academic) to transfer to graduate with the B.A.Sc. (exit) degree.

CO-OP PROGRAMS
The Faculty of Science has Cooperative Education programs, beginning in Level III, in Honours Actuarial and Financial Mathematics, Honours Biochemistry, Honours Biology and Pharmacology, Honours Biophysics, Honours Chemical Biology, Honours Chemistry, Honours Life Sciences, Honours Mathematical Sciences, Honours Medical Physics, Honours Molecular Biology and Genetics, and Honours Physics. Co-op programs have limited enrolment and admission is by selection. Please see the admission statement for each program in this section of the Calendar. Students must complete SCIENCE 2C00 and all mandatory orientation activities prior to the start of the first work term. It is strongly recommended that students complete SCIENCE 2C00 in Level II. Employment must be full-time, academically relevant and approved by the Science Career and Cooperative Education office.

Students enrolled in Co-op programs must be registered in full-time studies, including all prescribed courses, during the academic terms of their program (a minimum of 18 units in a full-term; and at least 9 units in a half-term) and will be charged per unit registered. An additional Science Co-op fee will be charged for each work term of a Co-op program. With written permission from the work term supervisor, academic work may be taken during each four-month period of a work term and the student will be responsible for the additional tuition. For further information, please consult Science Career and Cooperative Education in the Faculty of Science.

INTERNSHIPS
The Faculty of Science offers students the opportunity to participate in 8-16 month full-time paid work placements in industry that provide students with technical work experience related to their academic curriculum. Internship placements are available to students registered as full time students in good standing in Level II or III of an Honours B.Sc. program and who will have at least 18 units left to complete upon their return. Students must complete SCIENCE 2C00 and all mandatory orientation activities prior to the start of their internship. Students compete for placements with participating companies through an application and interview process. A fee is assessed following the start of the placement. For further information, please consult Science Career and Cooperative Education in the Faculty of Science.

MINORS
Within the Faculty of Science, Minors are available to students registered in an Honours program only. In addition to the University’s regulations governing the designation of a Minor, all Departments in the Faculty of Science require the inclusion of at least six units of Level III or IV courses to complete a Minor in a Science subject. At least 12 units (above Level 1) toward the Minor must be considered elective to degree.

Please see Minors in the General Academic Regulations section of this Calendar for further information. All courses have an enrolment capacity and the Faculty cannot guarantee registration in courses, even when all requisites have been met. Therefore, the completion of a Minor is not guaranteed. Minors offered by the Faculty of Science include:
- Astronomy
- Biochemistry
Academic Regulations

STUDENT ACADEMIC RESPONSIBILITY
You are responsible for adhering to the statement on student academic responsibility found in the General Academic Regulations of this calendar.

ACCESS TO COURSES
All undergraduate courses at McMaster have an enrolment capacity. The University is committed to making every effort to accommodate students in required courses so that their program of study is not extended. Unless otherwise specified, registration is on a first-come basis and in some cases priority is given to students from particular programs or Faculties. Students will be informed of their enrolment periods and are encouraged to enroll as soon as online enrolment is available to them in the Student Centre in Mosaic. In addition, in the Faculty of Science, there are two types of courses for which permission must be obtained prior to registration. For these courses, students will be given seat authorizations rather than being admitted on a first-come basis.

STUDENT COMMUNICATION RESPONSIBILITY
It is the student’s responsibility to:
- maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- use the university provided e-mail address or maintain a valid forwarding e-mail address.
- regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student’s designated primary e-mail account via their @mcmaster.ca alias.
- accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student’s @mcmaster.ca alias.

Students enrolled in Science programs, in addition to meeting the General Academic Regulations of the University, shall be subject to additional Faculty Regulations.

ADMISSION TO LEVEL II PROGRAMS
All Level I students who wish to be reviewed for admission to a Level II program in the Faculty of Science for the following Fall term must submit an Application for Admission to Level II through Mosaic by the University stated deadline (normally in April). Students may rank up to four program choices and will be notified on their grade reports in June of their eligibility for the Level II programs.

Level I students must meet the admission criteria for a Level II program according to the Calendar in effect when they registered for Level I. Students must follow the program requirements of the Calendar in effect when they enter Level II, except when a later Calendar explicitly modifies such requirements.

Students who have a Result of Session of May Continue but who do not achieve the admission requirements for any Level II program may continue in the Faculty of Science in the undeclared ‘Science’ program, or apply to transfer to another Faculty.

LIMITED ENROLMENT PROGRAMS
Admission at Level II (and above) is limited for the following programs:
- All Honours Psychology, Neuroscience & Behaviour programs
- All Honours Human Behaviour programs
- Honours Chemical Biology
- All Honours Biochemistry programs
- Honours Actuarial and Financial Mathematics
- All Honours Biochemistry programs
- All Honours Biology programs
- Honours Biophysics
- Honours Chemical Biology
- All Honours Human Behaviour programs
- Honours Molecular Biology and Genetics
- All Honours Psychology, Neuroscience & Behaviour programs

All Co-op programs, beginning at Level III, are limited enrolment.

REINSTATEMENT
A student who may not continue at the University may apply for reinstatement. Application for reinstatement must be made to the Office of the Registrar using the Reinstatement Request Form by the stated deadline. The Faculty of Science does not consider Requests for Reinstatement for the Spring/Summer session. See the Application Procedures section of this Calendar. Reinstatement forms will be carefully reviewed and the evidence considered will include the student’s academic performance before and after admission to McMaster, a letter of explanation and other appropriate documentation. Reinstatement is not automatic or guaranteed. Decisions are normally made after June 30 for September entry. Effective September 1997, the Cumulative Average for students who are reinstated is reset to 0.0 on zero units. Credit is retained for courses in which passing grades have been achieved. Note: If at a review after reinstatement the Cumulative Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

Former Kinesiology students will be considered for reinstatement to Kinesiology upon completion of a minimum of 24 units of university work taken on a full-time basis in a non-Kinesiology program with a minimum average of 7.0 (B-). Application
forms are available from the Office of the Associate Dean of Science (Academic) or the Department of Kinesiology. The application deadline is April 30 for September entry. Reinstatement is not guaranteed.

Former Medical Radiation Sciences students will be considered for reinstatement to their program upon completion of a minimum of 24 units of university work taken on a full-time basis in a non-Medical Radiation Sciences program with a minimum average of 7.0 (B-). Application forms are available from the Office of the Associate Dean of Science (Academic) or the Department of Medical Physics and Applied Radiation Sciences. The application deadline is April 30 for September entry. Reinstatement is not guaranteed.

DEADLINES
The Faculty of Science will not consider applications for admission, admission to a second degree or continuing studies, registration, deleting, cancelling, or adding of courses after the deadlines stated in this Calendar under Sessional Dates and Application Procedures sections, unless documentation showing good cause is submitted to the Office of the Associate Dean of Science (Academic).

LIMITED ENROLMENT COURSES REQUIRING PRE-REGISTRATION BALLOTING
The Department of Psychology, Neuroscience & Behaviour pre-registration ballot will be done in two phases. The first phase will include the thesis courses (PNB 4D06 A/B, 4D09 A/B, 4D06 A/B) and the Individual Study courses (PNB 3Q03 A/B, S, 3Q03 A/B, S, 4Q03 A/B, S, 4Q03 A/B, S). Students wishing to take these courses must complete and submit a ballot by mid February. Students will be informed of the outcome of the first phase by mid March. The second phase will include lab courses (PNB 3D03, 3E03, 3L03, 3L03, 3M03, 3M03, 3S03, 3V03). Students wishing to take these courses must complete and submit a ballot by mid April. Specific dates will be announced during the Fall term. Ballots can be obtained from the Department of Psychology, Neuroscience & Behaviour's website at http://www.science.mcmaster.ca/pnb/.

WORKLOAD
All programs in the Faculty of Science may be taken by full-time and part-time students, with the exception of all Honours Co-op programs. Students enrolled in Co-op programs must maintain a full academic load during the study terms of their program.

Students must maintain a full academic load during the Fall/Winter session to be eligible for scholarships available to full-time students.

Students are expected to avoid timetable conflicts among their courses, and students on a full academic load should ensure the number of courses is balanced in each term. Students who wish to take more courses than recommended for a single level of their program may do so if their Cumulative Average on completion of the previous Fall/Winter session is at least 7.0. Students registered in the final level of their program are permitted to overload by up to six additional units in order to become eligible to graduate.

COURSES REQUIRING AN ADDITIONAL FEE
The Faculty offers courses that may require a payment of a fee, above the regular associated tuition. Examples include: field courses and experiential offerings. Some of these courses may be taken outside of the University’s Sessional Dates.

Students who enrol in these types of offerings must pay both:

- a fee to the department to cover travel expenses, room and board and the associated tuition fee to McMaster at time of registration.

Although students initially register for field courses through the appropriate departmental offices, it is their responsibility to include field courses on their registration forms for the appropriate session.

Detailed information regarding field courses and deadlines for registration may be obtained from the individual departmental offices.

LETTER OF PERMISSION
All students in good academic standing with the exception of students registered in second degree programs, may apply to the Office of the Associate Dean of Science (Academic) to take courses at another university on Letter of Permission. Required courses given by the department offering the program may not be taken elsewhere unless departmental approval is given. Electives may be taken elsewhere. Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the Cumulative or Sessional Averages, and therefore cannot be used to raise standing. Students may take up to six units of courses towards a Minor on Letter of Permission.

STUDENT EXCHANGES
McMaster University has agreements with institutions in Canada and abroad including Australia, France and the United Kingdom to provide students with the opportunity to participate in an exchange program for one year or term. Exchanges allow students to gain a varied perspective on their course of study and enhance their professional and personal goals. In addition, exchange programs offer students the most inexpensive means of studying abroad as students participating in these exchanges avoid the foreign fees by paying fees to McMaster.

All students must have completed at least one year of continuous study and be in good standing to be eligible to participate in an exchange. In most cases, students who participate in exchange programs go abroad for the third level of an Honours program.

Students interested should begin discussions with the Office of the Associate Dean of Science (Academic) about one year before they plan to enroll elsewhere. Students must propose and submit an academic program to their Department for approval. Academic approval must be completed by the end of February for registration in the following Fall/Winter session. In certain cases, students may be recommended for the Deans’ Honour List on the basis of work undertaken while on exchange.

For further information please see International Study in the General Academic Regulations section in this Calendar. Information concerning exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services. Acceptance to the Ontario and University-wide Exchange Programs is by recommendation.

Application forms can be obtained from:

International Student Services / MacAbroad
Gilmour Hall, Room 104
Telephone: (905) 525-9140, extension 24748

TRANSFERS
Science students may be permitted to transfer between programs or students in other Faculties may apply to transfer to a program in the Faculty of Science provided they have obtained a Cumulative Average of at least 3.5 and have completed the necessary admission requirements. The Faculty of Science will include the grades of all courses attempted (including failures) in the calculation of the Cumulative Average to determine eligibility to transfer into the Faculty. Students who do not meet these requirements must consult with the Office of the Associate Dean of Science (Academic).

Students in Levels II or III who wish to transfer to another program in the Faculty of Science must speak with an Academic Advisor in the Office of the Associate Dean of Science (Academic).

TRANSFER/APPLICATION TO KINESIOLOGY I
In-course, McMaster students seeking transfer/admission to Honours Kinesiology I for the following Fall term must submit an Application for Admission through Mosaic by the stated deadline (normally April). The application allows students to rank four program choices. Additionally, transfer students must submit the mandatory Supplemental Application to the Department of Kinesiology by the stated deadline. Students will be notified of their eligibility for transfer to Honours Kinesiology I on their grade reports in June. McMaster students interested in transferring may contact the Undergraduate Administrative Assistant (Kinesiology) or the Office of the Associate Dean of Science (Academic). Students transferring from another university should see the Admission Requirements and Application Procedures sections of this Calendar. A limited number of exceptionally qualified students are admitted each year. To be considered, applicants must have an average of at least 9.0 (B+) in a minimum of 24 units of university work, taken...
during the Fall/Winter session, including an average of at least 6.0 in BIOLOGY 1A03 and 1M03. Given the number of required units and prerequisites of Kinesiology courses, transfer students may not be able to complete the requirements in three additional years of study.

**GRADUATION**

From an Honours B.Sc. and B.Sc. Programs

To graduate from a program, students must meet all course requirements for their degree program.

The requirements for graduation from these programs are described under the heading **Graduation** in the General Academic Regulations section in this Calendar.

Transferring to Graduate with a Three-Level B.Sc. Degree from an Honours B.Sc. Program

Students who successfully complete at least 90 units including all admission requirements and expected course requirements up to the end of Level III of any Honours B.Sc. degree, with a minimum Cumulative Average of 3.5 may request permission from the Office of the Associate Dean of Science (Academic) for transfer to graduate with a corresponding three-level B.Sc. degree as follows:

- All Environmental Sciences programs qualify for the B.Sc. Environmental Sciences degree. All Mathematics and Statistics programs qualify for the B.Sc. Mathematical Science degree. HONOURS BIOLOGY AND ENVIRONMENTAL SCIENCES (B.S.C.)
Honours Biology and Environmental Sciences is a flexible program that focuses on interdisciplinary studies among these two fields. Jointly offered by the Department of Biology and the School of Geography and Earth Sciences, this program enables students to select courses according to their interests; to develop broad knowledge, and understanding of the linkages between biological and environmental processes; and to apply these to questions of biological, biomedical, or environmental interests. This program prepares students for graduate studies, careers in industry or academic research laboratories.

**CO-OP PROGRAM CHART**
Medical Radiation Sciences
(Dept. of Med. Physics & Appl. Radiation Sciences)

http://www.science.mcmaster.ca/MedRadSci
This program is offered jointly in partnership by Mohawk College of Applied Arts and Technology and McMaster University. Students pursue two qualifications simultaneously, and graduates receive the Ontario College Advanced Diploma in Medical Radiation Sciences from Mohawk and the McMaster Bachelor of Medical Radiation Sciences degree.

Students enrolled in the Medical Radiation Sciences programs, in addition to meeting the General Academic Regulations of the University, shall be subject to the following program regulations. Since the academic regulations are continually reviewed, the University reserves the right to change the regulations. Registration in the Medical Radiation Sciences program implies acceptance on the part of the student of the objectives of the program and the methods by which progress toward the achievement of those objectives is evaluated.

REGULATIONS FOR LICENSE TO PRACTICE
A degree in medical radiation sciences does not in itself confer the right to practice in radiography or radiation therapy in any part of Canada. Graduation from the Medical Radiation Sciences program does not guarantee registration with the regulatory bodies of the respective professions or employment within Canada. All graduates who wish to engage in clinical practice in ultrasonography, radiography or radiation therapy are subject to any qualifying examinations and other requirements by the certifying and/or regulatory bodies for each of these professions. Regulatory requirements are subject to change. Students intending to practice outside Ontario are urged to consult the licensing body of that province regarding registration. Licensing requirements vary somewhat among the provinces. The current Ontario requirements for registration are:

For graduates of the radiography or radiation therapy specializations:
- In order to work as a medical radiation technologist in Ontario, you must be registered with the College of Medical Radiation Technologists of Ontario (CMRTO) Council. Detailed information regarding the registration requirements for the College may be found in the Regulations section.
- Applicants must complete an approved training program in medical radiation technology in one of the specialties listed at http://www.cmrto.org/registration/how.asp. Applicants trained in Ontario must successfully complete the examination set by the Canadian Association of Medical Radiation Technologists (CAMRT), which is an examination approved by the CMRTO.

For graduates of the ultrasonography specialization:
- Registration with the Canadian Association of Registered Diagnostic Ultrasound Professionals (CARDUP) is the recognized standard to work as an ultrasound professional or sonographer in Canada.
- Registration with CARDUP requires that sonographers have met the established standards for entry level practice as set by the National Competency Profiles (NCP) for the profession of diagnostic ultrasound in Canada. Detailed information regarding the CARDUP registration requirements may be found at http://www.sonographycanada.ca/Apps/Pages/home-csdms.

FUNCTIONAL DEMANDS
The Medical Radiation Science health professions are physically and emotionally demanding because they routinely involve interaction with patients. Since applicants will one day work in these professions, it is important that they become familiar with any functional demands before entering the program to ensure that they can perform at an acceptable standard for employment. A student’s choice of specialization is not guaranteed in the program; thus, applicants must be prepared to enter any of the three specializations. The functional demands associated with the health professions represented by the three specializations are listed below. The list is not exhaustive, but is meant to provide an indication of the minimum demands. By registering in the program, applicants acknowledge that they are able to meet all of the demands.

All professionals must demonstrate:
- Empathy when interacting with patients of all ages
- Manual dexterity and eye-hand coordination to manipulate equipment controls
- Physical strength to position patients and manipulate heavy equipment through a wide range of motions
- Acute hearing to respond to low voices and ambient alarms and buzzers
- Critical thinking to be able to prioritize and respond to emergency situations

The Radiographer must possess:
- Acute vision to view images and distinguish fine features in contrast and detail

The Ultrasoundographer must possess:
- Acute vision to view images and distinguish fine features in contrast and detail including nuances in colour Doppler ultrasound images
- Acute hearing to assess auditory Doppler ultrasound signals
- The ability to apply 3-D spatial relationships

The Radiation Therapist must possess:

Program Specific Academic Regulations
ENGLISH LANGUAGE PROFICIENCY
While the minimum English language requirements may gain admission to the Medical Radiation Sciences I program, students will find a need for a high level of verbal proficiency. Students lacking these skills may be required to participate in additional ESL training. Lack of English proficiency may impact a student’s ability to complete performance requirements in skills and clinical courses and, therefore, jeopardize the ability to attain a passing grade in these required courses.

QUALIFYING FOR LEVEL II PROGRAMS
Enrolment in each of the Level II program specializations is limited. All Medical Radiation Sciences I students who meet the admission requirements by the end of the previous Fall/Winter session will be guaranteed entry to a Level II program specialization. Level I students who, at the end of the review period, require the completion of additional academic work in order to meet the Level II admission requirements are not guaranteed admission to a Level II program specialization. Such students may be considered for admission after meeting the admission requirements, if space is available. Level I students whose Level I Fall/Winter Sessional Average (on at least 24 units) is less than 5.0 and/or whose Cumulative Average is less than 5.0 can no longer continue in the Medical Radiation Sciences program without approval from the Reviewing Committee.

CONTINUATION IN THE PROGRAM
A student may not proceed to the next level until he/she has completed all required courses for the current level, and has attained a Cumulative Average of at least 5.0. In Level I, students are reviewed at the end of Fall/Winter session. Beginning at Level II, students are reviewed at the end of each term to determine eligibility to continue.
To continue in the Medical Radiation Sciences program, a student must maintain a minimum Cumulative Average of 5.0 and successfully complete all Medical Radiation Sciences courses. Failure to do so may prevent progression to the next term and/or level.

A student whose Cumulative Average is at least 4.5 may, at the discretion of the Reviewing Committee, proceed in the program but will be placed on Program Probation for one reviewing period of two consecutive terms. A student may be placed on Program Probation only once during the program.

A student may not continue in the program if any of the following criteria is met.

The student:
1. fails to obtain a Cumulative Average of at least 5.0 at the completion of the Program Probation;
2. obtains a Cumulative Average of less than 5.0 and has not been granted Program Probation;
3. fails any course that is required for completion of the level in which the student is registered;
4. fails the second attempt at any required course following re-entry to the program;
5. fails any skills or clinical course following re-entry to the program;
6. fails to complete the program requirements for graduation within the maximum allowable time (five years from the time of registration in Level II of the student’s current specialization).

A Level I student who may not continue in the program and whose Cumulative Average is between 3.5 and 4.4 may apply to transfer to a program for which he/she qualifies. A Level I student who may not continue in the program and whose Cumulative Average is between 3.0 and 3.4 may apply to transfer into Science on Academic Probation. An upper level student who may not continue in the program may apply to transfer to a program for which he/she qualifies.

**DEFERRED EXAMINATIONS/INCOMPLETE COURSE WORK**

See the heading Deferred Examinations under Examinations in the General Academic Regulations section of the Calendar for application procedures for Deferred Exams. Students who have not completed all prerequisites for a clinical practicum will not be permitted to commence the clinical practicum. Such students will be reviewed by the Reviewing Committee to determine if the minimum prerequisite knowledge and skills have been attained to begin the clinical practicum. Failure to begin clinical practicum at the scheduled time could result in an extension of the time required to complete the program.

**WORKLOAD**

Students are required to be registered in a full load of courses as prescribed by Level and Term for their program.

Students in Medical Radiation Sciences I must complete at least 24 units during the Fall/Winter session. Transfer credit and credit earned during the Spring/Summer session may not be used to reduce this minimum load requirement.

**REPEATED COURSES**

Any failed course must be repeated if it is a required course for the program, or must be repeated or replaced if it is not explicitly required. The grades for both the failed course and its repetition or replacement, as appropriate, will be included in the calculation of the Cumulative Average.

**LEVEL OF REGISTRATION**

Students must register for all outstanding work of one level before attempting work for a higher level. Courses must be taken in the sequence specified by the program requirements.

**SKILLS AND CLINICAL COURSES**

All professional skills and clinical courses are graded on a pass/fail basis. The performance activities associated with each course are detailed in the course outline and manual, and must be successfully achieved for attainment of a passing grade in the course.

Students in clinical placements will be reviewed by the Clinical Coordinator prior to the last date to cancel a course without failure by default. Students who are not meeting the conditions of their Learning Contract will be required to cancel the course. Eligibility to complete the placement course in a subsequent session will be determined by the Review Committee.

Attendance is mandatory in all professional skills laboratory courses and clinical practica. Students are required to attend each clinical practicum on a full-time basis (i.e. 37.5 hours/week as scheduled by the clinical agency). Excessive absenteeism may jeopardize a student’s ability to meet course performance requirements and result in a Fail grade for the course.

The Medical Radiation Sciences program monitors and documents students’ experience and performance in skills and clinical courses to provide evidence of the students’ ability to meet program requirements and to meet the minimum practice requirements to be eligible for registration to practice.

**STUDENT CONDUCT IN THE PROGRAM**

The University reserves the right to cancel the academic privileges of a student at any time should the student’s scholastic record or conduct warrant so doing. The Medical Radiation Sciences program reserves the right to remove a student from a skills-based course, clinical placement or laboratory setting at any point during the term if the student exhibits unsafe clinical practice or behaviour that places the patient or others at risk or is deemed a serious breach of professional behaviour. Such removal may result in the student receiving a grade of F in the course and may result in dismissal from the program.

**INTERNAL RE-ENTRY TO THE PROGRAM**

A student who becomes ineligible to continue in the program may apply for re-entry. Applications for Re-entry may be obtained through the Medical Radiations Sciences Office. Request for re-entry may be made up to a maximum of two calendar years following the year in which the student becomes ineligible to continue. Re-entry is neither automatic nor guaranteed.

**GRADUATION**

A student is eligible for graduation when all of the following criteria are met.

The student must:
1. complete all required courses, including electives, with a Cumulative Average of at least 4.5;
2. complete all skills and clinical courses with a Pass grade;
3. complete all required courses in Levels II - IV within five years of registration in Level II.

**LEAVE OF ABSENCE FROM THE PROGRAM**

Students wishing to suspend their studies from the program must apply for a Leave of Absence (LOA). Approval is not guaranteed.

Students should note that the program requirements, including all required courses in Levels II - IV, must be completed within five years of first registration in Level II, and that the leave may jeopardize the student's ability to meet this requirement. Application for a leave of absence must be made in writing at least two months prior to the intended start of the leave. Forms are available through the Department of Medical Physics and Applied Radiation Sciences.

Any student who returns from a leave of absence into a clinical practicum term will be required to complete an additional non-credit course (for which a fee is involved) to ensure the student’s professional knowledge and skills meet the minimum requirements for entrance to that clinical practicum. This course must be completed in the term immediately preceding the clinical practicum. Re-entry is not guaranteed for students who suspend their studies from the program without an approved Leave of Absence. Such students must contact the Chair of Medical Physics and Applied Radiation Sciences to determine eligibility and appropriate procedures for re-entry. Students re-admitted to the program must adhere to the rules, regulations and program requirements of the Undergraduate Calendar in the year of re-entry into the program. Former Medical Radiation Sciences students who obtain permission for re-entry to a Specialization will not be guaranteed protected status in the allotment process, regardless of their previous placement history.

**NOTES**

1. The overall program comprises ten semesters within four calendar years. Three full semesters are spent in clinical placement.
2. Students apply for their Level II program selections during Winter Term of Level I. At the end of Level I, eligible Medical Radiation Sciences students are streamed into one of three specializations: Radiography, Radiation Therapy and Ultrasonography. All three have limited enrolment. Selection of students into Level II specializations is based on the basis of academic achievement (for Level I students, the Sessional Average, on at least 24 units of study). Depending on a student’s relative academic ranking in the list of those applying to enter a specialization, he/she may or may not be placed in the specialization of his/her choosing.

3. **Transfer within Medical Radiation Sciences**: Any Medical Radiation Sciences student currently registered in one program specialization who wishes to transfer into another specialization must submit the transfer request in writing to the program by the end of April. As admission into Level II programs is a competitive process normally based on the Level I Sessional Average, such transfer requests will be considered only after all eligible Level I students have been allocated into their specializations, and only if there is space remaining. Transfers are made into Level II only, and would result in an increase in the length of time required for the student to complete the program. Transfers may not be made into Level II from any other program. **Transfers are neither automatic nor guaranteed**.

4. Placements will be with agencies that have contracted in advance with Mohawk College to provide specific experiences and resources during the normal clinical semester schedule; therefore, placements are not available at any other agencies or during other times. The College, in accordance with established policy, will determine allocation of students to these clinical facilities. The final assignment of learning settings is constrained by the availability of site resources. Students may be required to attend clinical practica in a setting that is not of their choosing. The College cannot accommodate any student requests for special consideration. Students must prepare financially and personally to relocate and/or commute to their assigned clinical placements. Students are responsible for arranging their own travel to and from assigned placements and are responsible for covering any costs incurred.

5. All students may be required to attend full-time clinical practica at a minimum of two different clinical agencies that may be located across Ontario.

6. **Basic Cardiac Life Support Training**: All Level II students are required to have obtained a current certificate in Basic Cardiac Life Support - Level C and First Aid Training prior to commencing Term 2 of Level II. Current certificates are also required for Clinical Practica 2 and 3 in Level IV.

7. All students will be required to act as simulated patients for their peers in skills course labs and during skills practice sessions.

8. **Immunization and Health Screening**: The Ontario Public Hospitals Act requires that all persons working or on educational placement in a hospital setting meet criteria regarding surveillance for infectious diseases. All Level II students will be required to provide evidence of compliance with completion of mandatory immunization requirements as well as completing pre clinical disease screening. Updated screening may be required for Level IV clinical practica.

9. Mask fit testing and a satisfactory Police Records Check are required prior to the commencement of each clinical placement. All costs associated with these procedures are the responsibility of the student.

10. All students are required to submit pre-clinical requirements by dates specified by the program.

11. Levels II through IV run consecutively from September of Level II to completion of the program at the end of April in Level IV. The pattern of semesters of clinical practicum and academic courses is shown in the chart below.

The social sciences are concerned with the study of human activities and relationships and their social, political, economic, cultural and spatial contexts. Through the pre-industrial to the post-industrial eras, social scientists examine social, economic, cultural and political issues experienced by individuals, groups, and societies as well as the interactions between people and their environments, both natural and built. The Faculty offers a range of degree programs in Anthropology, Economics, Geography, Gerontology, Health, Aging and Society, Health Studies, Indigenous Studies, Labour Studies, Political Science, Psychology, Neuroscience and Behaviour, Religious Studies, Social Psychology, Social Work and Sociology. In addition, there are various opportunities for students to link their academic goals with their career interests. These experiential education initiatives include, but are not limited to, inquiry, internships, academic placements, a career planning course, student project grants, and undergraduate summer research awards. Students are strongly advised to take advantage of the extensive advisory services provided by the Faculty. New students in particular should plan a program of study that will allow them a number of options for Level II. The Faculty of Social Sciences encourages students to become engaged in a wide variety of learning opportunities. These experiences can enrich learning, open new fields of study, and build transferable skills that prepare you for further academic work and for a range of careers.

### Degree Programs

#### HONOURS PROGRAMS (HONOURS BACHELOR OF ARTS)

Honours Bachelor of Arts programs consist of a total of 120 units of work normally completed over four years. Honours programs provide a concentration in the particular field, as well as an extended time of study, and are normally a requirement for those who contemplate proceeding to graduate studies.

#### COMBINED HONOURS BACHELOR OF ARTS PROGRAMS:

Subject to possible timetable restrictions, and provided that the student meets the requirements for entry into each of the relevant Honours programs, a student may combine work in any two departments and be graduated with a Combined Honours degree. These combinations are available within the Faculty, with programs in the Faculty of Humanities, and with the Arts and Science Program. All Combined Honours programs must be approved by both Departments concerned as well as by the Office of the Associate Dean(s) Studies. Students will normally complete approximately 36 units of work beyond Level I in each component of the program (normally 12 units per level in each subject). The Honours B.A. Social Psychology program is not available in combination with another subject.

#### COMBINED B.A. / B.S.W.

The School of Social Work offers a Combined B.A./B.S.W. program of studies leading to a B.A. and a B.S.W. degree. (See the program description in this section.) The B.S.W. degree may be attained separately as a subsequent degree by those students who have already received one or more undergraduate degrees.

#### BACHELOR OF ARTS PROGRAMS:

B.A. programs consist of a total of 90 units of work, normally completed over three years. Three-level Combined Bachelor's degree programs are available only in Indigenous Studies and Another Subject. The other subject may be from the Faculty of Social Sciences or the Faculty of Humanities. These programs may also be combined with the B.S.W. as a four-level program.

### Options to Combine with a Degree

#### MINOR

A Minor is an option available to students enrolled in a four- or five-level program. Normally students must complete a minimum of 24 units in the Minor subject. Students are responsible for ensuring that the courses taken meet the requirements for a Minor. Students who have the necessary requirements may apply for recognition of that Minor when they graduate. If granted, this recognition will be recorded on the student’s transcript. For further information see Minors in the General Academic Regulations section of this calendar.

#### AFFILIATED CERTIFICATES

Students enrolled in a three- or four-year undergraduate degree program in the Faculty of Social Sciences have the opportunity to take Social Sciences courses in the complementary fields of Business Studies, Leadership and Management in the Not-for-Profit Sector or Applied Behaviour Analysis (ABA). Students enrolled in a three-year degree program may take a maximum of six of the courses that can be used towards an affiliated certificate and students enrolled in a four-year degree program may take a maximum of eight of these courses. Students who have the necessary requirements (completed a prescribed set of 18 units) may apply to have their courses recognized by Mohawk College for the awarding of the applicable certificate when they graduate with their McMaster degree. If granted, this Certificate will be issued by Mohawk College.

In the final year of your program, when you complete your profile in the online Graduation Information Centre, you must indicate your desire to receive the affiliated certificate. The Faculty Reviewing Committee will verify that the requirements have been met. If you are successful, your transcript will confirm completion. In order to facilitate preparation of the Certificate by Mohawk College in time for Convocation, limited personal information and relevant course completions will be provided to Mohawk College for all eligible students prior to completion of the Graduation Profile. Students who do not want this information shared with Mohawk College should inform the University Registrar by email at convctn@mcmaster.ca. See Sessional Dates section for deadlines.

#### INTERNSHIP OPTIONS

Internships allow students to explore careers, to develop employability skills and to make important contacts for job searches after graduation. The Faculty of Social Sciences offers both part-time and full-time, non-credit, paid work opportunities of four, eight, or twelve months duration. Part-time and summer internships are available to students and provide valuable workplace experience without extending their degree. Full-time internships are also available to students and provide valuable workplace experience without extending their degree and have a nominal administrative fee attached. Only those students who have successfully completed all of their Level I program requirements and SOCSCI 2E05 may apply for posted opportunities. Internships must be undertaken before a student has completed all requirements for the degree. A brief notation describing the internship is placed on the student’s transcript upon receipt of a job report from the student and a performance evaluation by the employer. Further details of internship options may be obtained from:

TRANSFERRING TO HONOURS B.A. PROGRAMS BEYOND LEVEL II
Students who are not admissible to an Honours program from Level I to Level II, may request admission for the following Fall/Winter academic session. Program entry requirements and academic requirements for continuation at the level for which application is made, must be met. Transfer requests must be made by contacting the Faculty of Social Sciences Associate Dean (Studies) Office in March.

Graduation
FROM HONOURS B.A. AND B.A. PROGRAMS
To graduate from a program, students must meet all course requirements for their degree program. The requirements for graduation from these programs are described under the heading Graduation in the General Academic Regulations section in this Calendar.

TRANSFERRING TO GRADUATE WITH A THREE-LEVEL
B.A. DEGREE FROM AN HONOURS B.A. PROGRAM
Students who successfully complete at least 90 units including all expected course requirements up to the end of Level III of any Honours B.A. degree, with a minimum Grade Point Average of 3.5 may request permission from the Office of the Associate Dean of Social Sciences (Studies) to transfer to graduate with the corresponding three-level B.A. degree. Students enrolled in Honours Social Psychology may be given the option of either transferring to graduate with a B.A. in Psychology or a B.A. in Sociology based on the degree that is most relevant to the subject concentration and for which they meet all the degree requirements. Students who do not qualify for a specific three-level B.A. degree, as stated above, and have completed at least 90 units with a minimum Grade Point Average of
3.5 and at least 12 units of Level III coursework in a Social Sciences subject may petition to the Office of the Associate Dean to be considered to graduate with a Social Sciences B.A. (General) exit degree. All requests to transfer to graduate must be submitted to the Office of the Associate Dean of Social Sciences by April 15th for the Spring Convocation and by September 1st for the Fall Convocation. 

LETTER OF PERMISSION COURSES TO GRADUATE

Students taking the final courses for completion of their degree program on a Letter of Permission at another university must ensure that the official transcripts are sent to the Office of the Associate Dean of Social Sciences at McMaster University. For students expecting to graduate at the Spring Convocation, transcripts must be received by May 15 and for Fall convocation, by September 30.

TRANSFERS TO THE FACULTY OF SOCIAL SCIENCES

Students from other Faculties are able to transfer to degree programs offered by the Faculty of Social Sciences provided they have obtained a Grade Point Average of at least 3.5 and have completed the necessary program admission requirements.

Reinstatement

A student who may not continue at the University may apply for reinstatement. Application for reinstatement must be made to the Office of the Registrar using the Reinstatement Request Form by the application deadline for the session. See the Application Procedures section of this Calendar. Reinstatement forms will be carefully reviewed and the evidence considered will include the student’s academic performance before and after admission to McMaster, a letter of explanation and documentation of any extenuating circumstances.

Reinstatement is not automatic or guaranteed. Decisions are normally made after June 30 for September entry. The Grade Point Average for students who are reinstated is reset to 0.0 on zero units. Credit is retained for courses in which passing grades have been achieved. NOTE: If at a review after reinstatement the Grade Point Average falls below 3.5, the student will be required to withdraw from the University for a period of at least 12 months.

Deadlines

The Faculty of Social Sciences will not consider applications for admission, admission to a second degree or continuing studies, reinstatement, registration, or dropping and adding of courses after the deadlines stated in this Calendar under Sessional Dates and Application Procedures, unless written documentation is provided showing good cause, as determined by the Faculty.

Academic Breadth Requirement

The Faculty of Social Sciences encourages all of its students to embrace academic breadth in both knowledge and skills. Therefore, every Social Sciences student is required to successfully complete at least 6 units of coursework outside of their department/discipline(s) of study to satisfy degree requirements. These course units must be over and above the 30 units required for Level I Social Sciences.

Academic Advising

The aim of academic advising is to help students tailor a program of studies to fit their interests. Advising also involves reviewing these interests from time to time to accommodate changing plans, needs and academic performance. Advising is available throughout the year from the Office of the Associate Dean of Social Sciences and the departments or academic units in the Faculty of Social Sciences. It is strongly recommended that students consult with a Departmental Undergraduate Advisor during March in conjunction with the Level II program application.

Awards

For conditions and terms of awards for full-time and part-time students, please refer to the Undergraduate Academic Awards section of this Calendar.

Overload

Normally students may not register in more than 30 units during the Fall/Winter Session (36 units for students in a B.A./B.S.W. program). In the following circumstances an overload of up to six units may be taken:

1. if a student has a Sessional Average of at least 7.0 in the immediately preceding review period.
2. if the student is registered in the final level of his/her program.

Students wishing to register in more than 12 units during the Spring/Summer Session, or more than six units in either term of that Session may do so only with the permission of the Office the Associate Dean, Social Sciences.

Withdrawal

Students who wish to withdraw from the University may cancel courses on SOLAR and must surrender their McMaster Identification Card validation sticker to the Financial Services Office to ensure the processing of any fee refunds. Students who fail to withdraw formally from any course(s) by the stated deadlines will remain registered whether or not they attend classes and will be assigned a grade.

Letter of Permission

Students in good academic standing who wish to attend another university to take courses for credit toward a McMaster degree must first request a Letter of Permission from the Office of the Associate Dean. Students should take note of any conditions on the Letter of Permission that might apply, including the requirement of a grade of at least C- for transfer credit. Courses taken at another university cannot be used to satisfy the university’s minimum residence requirements, will not be included in the calculation of the McMaster average, and therefore cannot be used to raise standing. The transcript designations will read COM, indicating complete, when a grade of C- or better is attained.

Students must ensure that the official transcripts for completed courses are sent to the Office of the Associate Dean. Students expecting to graduate upon completion of a course on Letter of Permission should refer to the heading Letter of Permission Courses to Graduate.

Students who choose not to use the Letter of Permission or cancel the course(s), must supply the Associate Dean’s Office with a transcript showing the cancelled course, or a certified letter from the host university, confirming that the student was not registered for the courses and session.

Non-Academic Requirements

Some courses, and many important extra-curricular opportunities for students in the Faculty of Social Sciences, require students to have cleared police criminal checks which can be obtained through Hamilton-Wentworth Police Services. Additionally, students may be required to pass TB tests and have immunization checks which can be obtained through Hamilton-Wentworth Police Services. For some contagious diseases. Costs related to these requirements are the responsibility of the student.

Social Sciences Study Abroad

Formal Student Exchange Programs are those where McMaster University has an agreement with another institution involving a temporary exchange of students. Exchange students register at and pay tuition fees and supplementary fees to McMaster. No tuition is paid to the other institution. McMaster University has an array of international partnerships with institutions in other countries including Australia, France and the United Kingdom to provide students the opportunity to participate in an exchange program for one year or a term. Exchanges allow students to gain a varied perspective on their course of study and enhance their professional and personal goals.

ELIGIBILITY FOR STUDY

Students registered in any Honours or Combined Honours program in the Faculty of Social Sciences may apply to replace all or part of the work of their third year with an acceptable program of study taken at an approved university. To be eligible to take part in this program, students must have completed at least 60 units of work with a Grade Point Average of at least 7.0. All requirements must
be satisfied by the end of the Fall/Winter session (September-April) preceding the commencement of study elsewhere. The awarding of transfer credit for work completed elsewhere may be confirmed only after the Office of the Associate Dean (Studies) has received transcripts and reviewed students’ academic achievements following their return.

**APPLICATION FOR STUDY ABROAD**

Students interested in applying for this program should consult the International Student Services Office and the Faculty of Social Sciences Exchange Advisor, approximately one year before they anticipate studying abroad. Application deadlines are usually in January, although applications for some exchanges may be due as early as December. Acceptance to the Ontario and University-wide Exchange Programs is by application and recommendation.

For further information please see International Study in the General Academic Regulations section in this Calendar. Information concerning student exchanges can also be found in the Academic Facilities, Student Services and Organizations section of this Calendar under the heading International Student Services.

Students will learn how to locate themselves in the complex fabrics of their cultures, their geographies and their power relationships. Students who are interested in many social science perspectives on how people develop over the lifespan and how they behave in different environments and circumstances should consider this program.

Students who have successfully completed the two-year College of Applied Arts and Technology Social Services Diploma with a minimum Grade Point Average of 3.0 on a 4.0 scale (75%) are considered to have completed the equivalent of SOCWORK 1A06 A/B and, therefore, are required to complete six additional units of introductory level courses from the Course List. (See Admission above.)

2. An applicant must complete Level I (a minimum of 30 units) by April of the year in which application is made.

3. In choosing Level I courses, the student should take care to include those courses that will allow entry to the B.A. program. Students should consult the relevant sections of the Calendar and/or the Office of the Associate Dean.

4. Students who intend to apply for the combined B.A. and B.S.W. program must follow the application instructions as found on the School of Social Work web site: http://www.socialwork.mcmaster.ca/undergraduate-program/application-instructions. Students who are unable to access this web site must contact the School of Social Work prior to March 1. Adequate time is needed to make these arrangements and to complete the admissions process. Therefore, it is impossible to consider applicants whose Supplementary Application arrives after the March 1 deadline. Questions or concerns may be directed to the School of Social Work.

5. All applications for admission to the School of Social Work are considered annually and must be made directly to the School by March 1 for the Fall/Winter term.

6. Aboriginal students (includes First Nations, Métis & Inuit) may select an alternate application process. Those who wish to do so should consult the School of Social Work for details.

7. Applicants transferring from other universities (See Two-Tier Applications below) must also apply through the Ontario Universities’ Application Centre (OUAC) and must complete Introductory Sociology or Social Work and six additional units from the Course List. (See Admission above.)

8. Two Tier Applications

   a. General Application (December 1)

   If you wish to study full-time, complete the OUAC 105D on-line application at http://www.ouac.on.ca/ showing both your interest in the B.A./B.S.W. program, and the subject you wish to take for the B.A. component.

   If you wish to study part-time, complete a Part-time Degree Studies application online at http://www.mcmaster.ca/parttime/application-procedure/index.html

   To allow adequate time for the processing of the General Application, applicants are advised to submit their applications by December 1.

   b. Supplementary Application (March 1)

   Students must follow the application instructions as found on the School of Social Work web site: http://www.socialwork.mcmaster.ca/undergraduate-program/application-instructions/. Students who are unable to access this web site must contact the School of Social Work prior to March 1. This form is used to decide when applicants are able to write an admissions test, which is scheduled for two dates in March of each year, both on site and at alternative testing centres outside Hamilton. Adequate time is needed to make these arrangements and to complete the admissions process. Therefore, it is impossible to consider applicants whose Supplementary Application arrives after the March 1 deadline. Questions or concerns may be directed to the School of Social Work.

   7. Students admitted to the combined program who have completed B.A. work beyond Level I normally will require three years after admission to complete the program.

   8. Offers of acceptance cannot be deferred; students must complete a required social work course in the year of admission.

PROGRAM NOTES

1. Course Groupings: There are two groups of courses in the Social Work program:

   a. Foundations of Social Work includes core courses which are required and available to social work students only;

2. Progression Within Program: Students must achieve a minimum grade of C+ in each of SOCWORK 2A06 A/B, 2B03, 2BB3, 3D06 A/B, 3E03, 3F03, 4D06 A/B S, 4J03, 4003 and 4X03, a Pass in their field placements SOCWORK 3DD6 A/B and 4DD6 A/B S, and a GPA of at least 6.0. If a student fails to meet the minimum grade requirements in these required social work courses or a Pass designation in either field placement (SOCWORK 3DD6 A/B and 4DD6 A/B S), the student may not proceed in
the program; however, the student may make a request in writing to the Director of the School of Social Work to be allowed to repeat the course in which the minimum grade or Pass requirement has not been met. Such requests will be reviewed by the Director of the School of Social Work in consultation with the Chair of the Undergraduate Studies Committee and/or the Chair of the Field Education Program and the course instructor. These courses and/or placements may only be repeated when approval is given by the Director of the School of Social Work following consultation as described above. Students who subsequently fail to meet the minimum grade or Pass requirement after repeating the course or placement may not continue in the program.

3. Students who have completed SOC WORK 2E03 but not 3A03 must take both SOCWORK 3E03 and 3F03 and reduce their selections from the Social and Political Context Group to 9 units (selection must still include SOCWORK 4J03). Those students who have taken SOC WORK 3A03 but not 2E03 must contact the School of Social Work for guidance on completion of program requirements.

4. Students must complete three units of Social Sciences research Methods (e.g., SOCIOL 2Z03 or HLTHAGE 2A03). A statistics course may not substitute for a research methods course.

5. Graduation: The B.S.W will be granted only if the student has achieved a grade of at least C+ in each of SOCWORK 2A06 A/B, 2B03, 2BB3, 3D06 A/B, 3E03, 3F03, 4D06 A/B S, 4J03, 4003 and 4X03, a Pass in SOCWORK 3D06 A/B and 4D06 A/B S, and a GPA of at least 6.0.

6. Students are expected to assume the cost of travelling to and from field practice agencies and for any related expenses.

7. Students in the social work program must apply for third and fourth year field placements (SOCWORK 3D06 A/B and 4D06 A/B S), and are able to rank their placements in terms of preference. While efforts are made to match placements with student preferences, the final assignment of placement settings is constrained by many factors, including the availability of settings and field and faculty resources. Students may therefore be required to complete a field placement in an agency that is not among their preferred options.

(See Admission above.)
2. An applicant is required to complete the prerequisite undergraduate degree work by April of the year in which application is made.

3. Aboriginal students (includes First Nations, Métis & Inuit) may select an alternate application process. Those who wish to do so should consult the School of Social Work for details.

4. Enrolment in the B.S.W. program is limited. Students who intend to apply to the B.S.W. program must follow the application instructions as found on the School of Social Work web site:

http://www.socialwork.mcmaster.ca/undergraduate-program/admissions-1/application-instructions

Students who are unable to access this web site must contact the School of Social Work well before the March 1 deadline for the Fall/Winter term. Applicants must also apply to the University.

5. All applications for admission to the School of Social Work are considered annually and must be made directly to the School well before March 1 for the Fall/Winter term.

6. Two-Tier Applications
- Individuals interested in the B.S.W. program must complete two application forms as follows:
  General Application (December 1)
  - If you wish to study full-time, you must complete the 105D on-line application form at http://www.ouac.on.ca/ or, if you are a McMaster graduate, obtain the McMaster Returning Student Application at http://future.mcmaster.ca/admission/applicationprocess/non-canadiannon-high-school-applicants/rt-app/

  In order to allow adequate time for the processing of the General Application, applicants are advised to submit their applications by December 1.
  Supplementary Application (March 1)
  - Students must follow the application instructions as found on the School of Social Work web site:
    http://www.socialwork.mcmaster.ca/undergraduate-program/admissions-1/application-instructions
  Students who are unable to access this web site must contact the School of Social Work well before the March 1 deadline for the Fall/Winter term. This form is used to decide which minimum grade or Pass requirement has not been met. Such students who subsequently fail to meet the minimum grade or Pass requirement may not proceed in the program.

PROGRAM NOTES

1. Course Groupings: There are two groups of courses in the Social Work program:
- Foundations of Social Work includes core courses which are required and are available to social work students only;

2. Progression Within Program: Students must achieve a minimum grade of C+ in each of SOCWORK 2A06 A/B, 2B03, 2B03, 3D06 A/B, 3E03, 3F03, 4D06 A/B S, 4J03, 4003 and 4X03, a Pass in their field placements (SOCWORK 3DD6 A/B and 4DD6 A/B S), and a CA of at least 6.0. If a student fails to meet the minimum grade requirements in these required social work courses or a Pass designation in either field placement (SOCWORK 3DD6 A/B and 4DD6 A/B S), the student may not proceed in the program; however, the student may make a request in writing to the Director of the School of Social Work to be allowed to repeat the course in which the minimum grade or Pass requirement has not been met. Such requests will be reviewed by the Director of the School of Social Work in consultation with the Chair of the Undergraduate Studies Committee and/or the Chair of the Field Education Program and the course instructor. These courses and/or placements may only be repeated when approval is given by the Director of the School of Social Work following consultation as described above. Students who subsequently fail to meet the minimum grade or Pass requirement after repeating the course or placement may not continue in the program.

3. Students who have completed SOC WORK 2E03 but not 3A03 must take both SOCWORK 3E03 and 3F03 and reduce their selections from the Social and Political Context Group to 9 units (selection must still include SOCWORK 4J03). Those students who have taken SOC WORK 3A03 but not 2E03 must contact the School of Social Work for guidance on completion of program requirements.

4. Students must complete three units of Social Sciences research Methods (e.g. SOCIOL 2203 or HLTHAGE 2A03). If this requirement was completed prior to admission to the B.S.W. program, three additional units from the Social and Political Context of Social Work courses will be taken. A statistics course may not substitute for a research methods course.

5. Graduation: To qualify for the B.S.W. students must complete a total of 60 units. The B.S.W. will be granted only if the student has achieved a grade

MEDICAL RADIATION SCIENCES

Courses in Medical Radiation Sciences are administered by the Department of Medical Physics and Applied Radiation Sciences.
General Sciences Building, Room 105, ext. 26256
http://www.science.mcmaster.ca/MedRadSci

Department Notes
1. Courses for Levels I, II, III and IV Medical Radiation Sciences, Radiography, Ultrasonography or Radiation Therapy specialization are available only to students registered in the Medical Radiation Sciences program unless otherwise stated.
2. Lab courses may be held at learning settings external to the University.
3. Students are responsible for arranging their own travel to and from or accommodation in learning settings external to the University and for covering any costs incurred. All students enrolled in the Medical Radiation Sciences program are expected to be able to travel to any learning setting in Ontario. The final assignment of learning settings for any clinical practicum course is constrained by the availability of the requested setting and resources. Students may, therefore, be required to complete a clinical practicum course in a learning setting that is not of their choosing.
4. For all clinical practicum courses, the prerequisite skills and patient care courses must have been completed within the previous twelve months; otherwise the student must complete a skills reassessment course during that twelve-month period.

Department Notes
1. The Department of Political Science offers courses in the fields of Canadian Politics, Comparative Politics, International Relations, Political Theory and Public Policy, as well as courses that are not field specific. The Department does not require students to concentrate in any field of study. (Please see Department of Political Science in the Faculty of Social Sciences section of this Calendar for specific program requirements.) However, students should note that prerequisites for upper year courses normally come from the specific field of which those courses are part. In some instances, prerequisites call simply for prior coursework in a particular field, in which case students may consult the lists below to determine which courses satisfy these requirements.
2. Not every Political Science course listed in this Calendar is offered every year. Students are advised to consult the Master Timetable published by the Office of the Registrar or contact the Department after April 1st for the list of courses that will be offered in the following academic year.
3. All students are encouraged to seek advice from members of the Department in developing a program of study. All Honours students are strongly advised to discuss their program with an undergraduate advisor to ensure that it meets Departmental requirements.

4. POLSCI 2006 A/B and 3N06 A/B (formerly 2F06) are required for students in Honours Political Science programs. These two courses are recommended for students in B.A. programs. Effective 2009-2010 for students entering Level II of an Honours B.A. or B.A. program in Political Science, a course in Canadian Politics will be required (See Canadian Politics field of study below). For students who entered these programs prior to 2009-2010, three units of Canadian Politics is strongly recommended.

5. Students should be alerted to those Level II and III courses that are required to qualify for a number of Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.

6. Some Level III courses do not have course prerequisites. However, students without related Level II courses should contact one of the Department's undergraduate advisors or the course instructor to determine whether they have the appropriate academic background for any specific Level III course.

7. Political Science Honours and Combined Honours students are encouraged but not required to take one or more of the Level III Honours issues courses (POLSCI 3B03, 3H03 and 3J03). The topics of the courses will be described on the Department's website in advance of the date on which registration for them begins. Normally they will correspond to the research interests of the permanent faculty members (if available) who will teach them.

BURSARIES

Bursaries are granted on the basis of demonstrated financial need according to the principles of the Province of Ontario’s Student Access Guarantee. They are intended to supplement a student’s own financial contribution, parental assistance, government aid and personal loans/lines of credit to help the student to complete the academic year.

Application procedures and deadlines are available from the Office of Student Financial Aid & Scholarships, Gilmour Hall, Room 120 or on our web site at http://sfas.mcmaster.ca. The University reserves the right not to grant a bursary in the absence of a suitable candidate, or to suspend granting of a bursary in years in which insufficient investment income is available due to fluctuations in investment markets. Where the terms become impossible to fulfill through obsolescence, then the University may amend the terms to carry out the nearest possible intent of the donor while still ensuring that the benefit of such a bursary continues.

Bursaries are listed in alphabetical order.

The University Senate, acting on behalf of generous benefactors and donors to the University, bestows academic awards on entering, in-course and graduating students to encourage and recognize high levels of scholarship.

In recognizing such scholastic achievement, the University requires all recipients of academic awards to fulfill a set of general conditions, in addition to meeting the particular terms attached to individual academic awards. The general conditions and terms have been established to ensure equity in competition and a high academic standing. Any interpretation of the conditions attaching to academic awards is solely the prerogative of the Undergraduate Council.

The University reserves the right not to grant an award in the absence of a suitable candidate, or to limit the number of awards where too few suitable candidates exist. The University also reserves the right to withdraw, or amend the terms of, any award, and/or to suspend granting of an award or to adjust the stated value of an award in years in which insufficient investment income is available due to fluctuations in investment markets.

Where the terms of such award become impossible to fulfill through obsolescence, then the University may amend the terms of same to carry out the nearest possible intent of the donor while still ensuring that the benefit of such award continues.

In accordance with the Freedom of Information and Protection of Privacy Act and McMaster University's Statement on the Collection of Personal Information and the Protection of Privacy, where notice is given, the University is permitted to publish an individual’s name, Faculty, program and award information. McMaster University publishes the names of recipients of scholarships listed in the Undergraduate Calendar, in the University’s Convocation program and other award publications. Further information can be found in the Collection and Disclosure of Personal Information section of this Calendar.

Terminology

An explanation of the terminology used to describe Academic Awards is provided in the sections of the Calendar described below. Please refer to the Glossary section of this Calendar for definitions of Continuing Students, Grade Point Average (GPA), Level, Post-Degree Students, Review and Reviewing Period.

Baccalaureate Degrees are those listed in the Degrees and Programs section of this calendar, the abbreviations of which start with the letter B, such as B.A., B.Com.

Failures are determined by reviewing period, not by Fall/Winter terms. They include failures in Extra courses.

A Full-time Student for scholarship purposes is an undergraduate student who is enrolled in at least 24 units in the Fall/Winter terms, including Extra Courses.

Graduand Awards are granted to eligible students on the completion of their graduating term.

Continuing Students, Post-degree Students, and students enrolled in the McMaster Medical program are not eligible for these awards.

   a. non-monetary awards such as books and medals; and
   b. a travel or exchange scholarship; and
   c. an award granted on the basis of an application; and

4. The monetary benefits of awards, other than those listed in item #3 above, will be disbursed only if the recipient is enrolled in a baccalaureate degree program, or a specific program when explicitly required by the terms of the award, or in exchange units in the case of an exchange scholarship, at McMaster University in the next Fall/Winter term after the award was earned and will be credited to the student’s University account.
5. Amounts in excess of the student’s monetary obligation to the University will be disbursed directly to the student after October.
6. Awards credited to the student’s University account are not refundable in cash if there is an outstanding balance.
7. Students wishing to defer the benefits of an award to a later term (other than an award for entering students) should apply to the Office of Student Financial Aid & Scholarships. Approval of applications is not automatic, and deferments are not normally granted for more than one calendar year.
8.
