Five hundred and sixty-ninth Convocation for conferring degrees

Presiding

Chancellor

Suzanne B. Labarge
B.A., M.B.A., D.Litt. (Hon.)

President and Vice-Chancellor

Patrick Deane
B.A. (Hons.), M.A., Ph.D.

McMaster University recognizes and acknowledges that we meet today on the traditional territories of the Mississauga and Haudenosaunee nations and within the lands protected by the Dish With One Spoon wampum agreement.
ORDER OF EXERCISES

- Musical Prelude
- The Graduand Procession
- The Academic Procession
- The Chancellor’s Procession

Dean’s Welcome
*Dr. Ken Cruikshank*

The Chancellor’s Welcome
*Dr. Suzanne B. Labarge*

The Conferring of the Degree Doctor of Letters
*honoris causa* on Sarah Polley
*Citation: Dr. Patrick Deane*

The Convocation Address
*Dr. Sarah Polley*

The Conferring of Degrees In-Course

Musical Interlude

The Presentation of the Graduates

The Valedictory Address
*Gali Katznelson*

Awards of the 2016-2017 Session

The Alumni Address
*McMaster Alumni Association*

The President’s Address
*Dr. Patrick Deane*

Announcements

The National Anthem

Convocation ceremonies will be recorded, broadcasted live and archived at http://registrar.mcmaster.ca/grad
Follow @McMasterConvo on Twitter, tweet with #MacGrad2017 and try our Snapchat filter!

The President’s academic regalia is a gift of the McMaster University Alumni Association.

The Convocation Music Supervisor…………………………. Arlene Wright (Piano)
Convocation Trumpeters…………………………………….. Bob Grim and Valerie Cowie
Piper…………………………………………………………… Jamie Connolly
Vocalist……………………………………………………….. Emily Rebekah Taub

Immediately following Convocation, Faculty of Humanities graduates and their guests are invited for a reception at the Art Gallery of Hamilton (AGH), Pavilion & Sculpture Garden.
Arts & Science Program graduates and their guests are invited for a reception at the David Braley Health Science Centre, Auditorium (100 Main St West, Hamilton).
THE RITUALS OF CONVOCATION

The procession of the graduands in plain black gowns and of faculty and officers of the University in colourful and varied regalia; the blue-robed Bedel with his ornate silver Mace; the conferring of degrees by the Chancellor; these are among the rituals of Convocation that stand in a tradition that has a history of more than 700 years.

The University’s Mace is carried to and from the Convocation platform by the University Bedel and during the ceremony is splendidly displayed on the Mace Table, resting on a velvet cushion. The cushion is maroon with a piping of grey, the McMaster colours. The Mace symbolizes the authority of the University Senate to confer degrees, this authority being exercised by the Chancellor.

Bedels were functionaries and maces were weapons hundreds of years before universities emerged in the 12th and 13th centuries. So it is that McMaster’s Bedel carries the University Mace directly in front of the Chancellor, symbolically to protect her.

The Chancellor sits on a massive oak ceremonial chair that bears a carved representation of an early version of the University Seal. She requests that members of the graduating classes rise from their seats and then admits them to their respective degrees. The graduating classes are then invited to join the Chancellor on stage. Once a graduate’s name is called, they are hooded facing the audience, and then are congratulated and welcomed to the community of scholars by the Chancellor and President.

The academic hood is symbolic of admission to a university degree and carries colours specific to a particular degree. It is derived from clothing worn in medieval times, when a hood was similar to that of a modern parka and served the same purpose of protection in inclement weather. The hood that the Registrar or pro-Registrar deftly puts over a graduand’s head is a link to the dress of students of at least seven centuries ago.

To the left of the main podium stands McMaster’s Coat of Arms. The symbol of the stag and tree, constituting the crest of these Arms, was the personal emblem of Senator William McMaster, whose munificent benefaction made possible the founding of the University in 1887.

The President of the University attends Convocation but it is the Chancellor, the titular head of the University, who presides over this ancient ceremonial. Her seniority is indicated by her robe being more elegant than the President’s. The President relieves the Chancellor of making announcements, may present an honorary graduand for his or her degree and, as Vice-Chancellor, confers degrees when the Chancellor is unable to do so.

A Chancellor, Vice-Chancellor, Bedel and Registrar share with a seal, mace, colours, robes and coat of arms a history of hundreds of years of association with universities. Each of these traditional inheritances is a part of McMaster University and all of them come together on the platform of its Convocations.

McMASTER UNIVERSITY:

CHANCELLORS
1887 – 1890 Malcolm Mac Vicar
1892 – 1895 Theodore H. Rand
1895 – 1905 Oates C. S. Wallace
1905 – 1911 Alexander C. McKay
1911 – 1922 Abraham L. McCrimmon
1922 – 1941 Howard P. Whidden
1941 – 1950 George P. Gilmour
1950 – 1955 E. Carey Fox
1955 – 1960 Roy L. Kellock
1960 – 1965 Charles P. Fell
1965 – 1971 D. Argue C. Martin
1971 – 1977 Lawrence T. Pennell
1977 – 1986 H. Allan B. Leal
1998 – 2007 Melvin M. Hawkriigg
2007 – 2013 Lynton R. Wilson
2013 – Suzanne B. Labarge

PRESIDENTS
1949 – 1961 George P. Gilmour
1961 – 1972 Henry G. Thode
1972 – 1980 Arthur N. Bours
1980 – 1990 Alvin A. Lee
1995 – 2010 Peter J. George
2010 – Patrick Deane
PRESIDENT’S MESSAGE

Convocation is an exciting time in the calendar of any university; a time to celebrate achievement, to reflect on the past, and to anticipate the future and the path that lies ahead. It also represents a time of liberation, the ending of one phase of life and a last, symbolic statement of the discipline to which students have been required to submit themselves throughout their studies.

While it is impossible at such events not to celebrate the infinite promise of individual lives, it is important to be aware of the communal significance of convocation. In the ancient English universities, convocation was the legislative body that oversaw operations of the institution, and to be admitted to a degree was to be admitted to membership. By extension, therefore, convocation was a reaffirmation of not an individual but a joint enterprise.

Students today have learned the importance of collaboration and partnership, and more than ever understand that the future health, prosperity and cultural vitality of our society depends upon our ability to cooperate, to act together, and to learn from one another. My fervent hope is that graduating students will see their convocation not as an end of growing together, but rather as an opportunity for deepening that process. As alumni they will have many opportunities to renew existing partnerships, and they will be well prepared to forge new ones in the greater community beyond our own.

Personal fulfillment through community: this is indeed one of the longstanding paradoxes of university life, but it is surely also a sound principle for us all to pursue in the world at large. In wishing today’s graduating students good luck, I feel great confidence in our joint future and great anticipation of everything that, collectively, they will achieve.

Patrick Deane
President and Vice-Chancellor

ALUMNI ASSOCIATION GREETINGS

On behalf of your fellow McMaster alumni, I offer you sincere congratulations for having successfully earned your degree. In addition to growing through the challenges of obtaining your formal education, I hope you have taken full advantage of everything McMaster has to offer outside the walls of the classroom.

As an alumnus or alumna you are entering a new phase in your relationship with McMaster. Graduation is merely a milestone in your life-long association with our University. As alumni, you can play a continuing role as supporters of McMaster’s excellence by sharing your time, expertise, and enthusiasm with your alma mater.

As your Alumni Association, we are committed to providing you with many opportunities to maintain and grow your links with McMaster. McMaster’s alumni network, events, offerings, experiences, and programs will be great resources in your post-degree endeavours. I welcome you to the next step in a rewarding and dynamic relationship with our world-class university.

Don Bridgman BPE ’78
President, McMaster Alumni Association
A native of Ottawa, Dr. Labarge holds a Bachelor of Arts degree in economics from McMaster University and a Master of Business Administration from the Harvard Business School.

Dr. Labarge joined Royal Bank in 1971 and held a variety of positions within the bank prior to being appointed an executive officer in 1979. She left the bank in 1985 to join the federal government as assistant auditor-general where she was responsible for a report on Financial Management and Control in the Government of Canada.

She joined the Office of the Superintendent of Financial Institutions Canada in 1987 as deputy superintendent, policy responsible for developing regulatory policies for Canadian financial institutions. She was a member of the BIS Committee for Bank Supervision. In her last position as deputy superintendent, deposit-taking institutions, Dr. Labarge was responsible for all matters relating to deposit-taking institutions.

Dr. Labarge returned to the bank as executive vice-president, Corporate Treasury, in April 1995. She assumed the role of chief risk officer in October 1998 and was appointed vice-chairman and chief risk officer in February 1999. She retired from that position in December 2004.

Dr. Labarge is a member of the Board of Directors and Chair of the Audit Committee of Coca-Cola Enterprises. She also serves on the Board of Directors, the Audit Committee and the Risk and Finance Committee of XL Group and is trustee for a Canadian family trust and director of associated companies. She has served as a member of the Supervisory Board and Risk Committee of Deutsche Bank, as a director and chair of the audit committee of Novelis Inc and was also a member of the Board of the Bank of China, Beijing.

She served on the Board of Governors for McMaster University for twelve years. She was appointed Chancellor of McMaster University in September 2013. She also serves on the board of the Ontario Brain Institute.

She was granted an honorary Doctor of Letters degree from McMaster University and is a recipient of the Queen's Jubilee medal.

HONORARY DEGREES

Faculty of Health Sciences

Peter George, Doctor of Laws

On June 30th, 2010, Peter George's remarkable 45-year tenure at McMaster University came to a close as he served his 5,464th and final day as the University's President & Vice-Chancellor. During his three terms at the helm of the University, he created a legacy that continues to have a profound influence on McMaster, its communities, and the learning and research environment in Canada. George unified the University's research and teaching goals by setting a mission for McMaster that put the student at the centre of the research-intensive university. He set the agenda for the Centre for Leadership in Learning (now the MacPherson Institute) and extended McMaster's signature learning approach, inquiry, into every faculty.

During George's presidential terms, McMaster's total research funding grew more than 530%, from less than $80 million to more than $425 million. The number of endowed research chairs grew from zero to 75 on the strength of George's personal commitment to building the University's research infrastructure. The University attracted landmark gifts to research, opened multidisciplinary research institutes and sparked the rise of international-calibre research enterprises in microscopy, nanotechnology, stem cells and manufacturing, to name just four.

The relationships between the University and its surrounding communities, both near and far, were among George's top priorities. Locally, he led the moves to partner with Mohawk College in the McMaster-Mohawk Institute of Applied Health Sciences and to establish satellite medical schools in Niagara with Brock University and in Waterloo with the University of Waterloo. Internationally, George spearheaded a global vision that produced educational agreements with institutions in 72 different countries. McMaster also became the first North American host site for the United Nations University (UNU), hosting the UNU / International Network on Water, Environment and Health.

In his first week as president, George initiated a strategic planning and visioning process that, through subsequent revisions, guided McMaster University in enhancing its capacity and creating an increasingly positive environment for learning, research and community service. The milestones in that progress range from the physical – such as the opening of the McMaster University Student Centre (MUSC), a project George described as a "moral imperative" when he took office – to the visual with the rebranding of the University in 1998. George's leadership ushered in an unprecedented construction boom that remade the campus with new residences, an athletic centre and stadium, a new front entrance, expanded and updated facilities in every faculty, and the Michael G. DeGroote Centre for Learning and Discovery – McMaster's largest building project since the 1960's.

George's contributions to learning, research, McMaster and the wider community have been recognized with a diverse range of awards and honours. Inducted into the Hamilton Gallery of Distinction, he received the Hamilton Community Spirit Award, the Negev Dinner honour and honorary professorships form the University of Science and Technology Beijing and the Dongguan University of Technology. He was also member of both the Order of Canada and the Order of Ontario. George was a holder of five honorary degrees from various institutions before the University conferred upon him the degree Doctor of Laws, honoris causa, in a private ceremony earlier this year.

Faculty of Health Sciences

Abraham Verghese, Doctor of Science

Abraham Verghese is a physician, author, educator and patient advocate. He is the Linda R. Meier and Joan F. Lane Provostial Professor and Vice Chair for the Theory and Practice of Medicine at Stanford University. He served as Director of the residency training program in internal medicine and established the Program in Bedside Medicine. Verghese is a Fellow of the Association of American Physicians, an elected member of the Institute of Medicine of the National Academies and the Royal College of Physicians of Canada. He received the John P. McGovern Medal from the Osler Society, the Nicholas Davies Humanities Award from the American College of Physicians, the National Humanities Medal and numerous teaching awards.

Verghese's first book, My Own Country: A Doctor's Story, was a finalist for the National Book Critics Circle Award for General Nonfiction. The Tennis Partner, also non-fiction, was a New York Times "Notable Book." His first novel, Cutting for Stone, was on the New York Times bestseller list for two years. He has published more than five dozen articles in widely read publications including The Atlantic, New York Times Magazine, the Wall Street Journal, the New Yorker, Life Magazine, Forbes and Sports Illustrated. In 2011, Verghese delivered the TED Talk, "A Doctor’s Touch," making the compelling argument that modern medical technology is not a substitute for traditional physician-patient interaction. The talk has been viewed more than 1.3 million times.
François Bréchignac, Doctor of Science

François Bréchignac is a globally respected radioecologist who is spearheading efforts to develop a conceptual framework for assessing impacts of low-dose radiation exposures on ecosystems. He is Deputy Scientific Director of the Institut de Radioprotection et de Sûreté Nucléaire at the Centre d’Études de Cadarache and also a Member of the Scientific Board of the Alliance for the Environment, a Permanent Member of the Scientific Committees of the Doctoral School in Environmental Sciences and a Member of the Research Federation on Natural and Industrial Risk. He is also an expert evaluator on issues related to radioecology and the environment for the European Commission and other institutions.

Bréchignac was Head of the European Research and Technology Program in Space Biotechnology for the European Space Agency and is the President of the International Union of Radioecology and the Chair of that organization’s Ecosystem Approach Task Force. He is a Member of the NEA/OECD-EGIS Expert Group on the Implications of Radiation Protection Science as well as a Member of the NATO Nuclear Expert Group of the Science for Peace Program. The author of approximately 150 publications, including more than 70 peer-reviewed research articles, Bréchignac has received the prestigious support of the Alexander von Humboldt Foundation and was granted the N.V. Timofeev-Resovsky “biosphere and humanity” medal from the radiology branch of the Russian Academy of sciences. He was a co-founding member of the environment protection committee of ICRP and worked as associate editor of the Journal of Environmental Radioactivity. Bréchignac served as President of the International Congress on Radioecology and Environmental Radioactivity (ICRER) held in 2011 at McMaster University.

Cynthia Dale, Doctor of Laws

Cynthia Dale, Doctor of Laws

Cynthia Dale performed on stage and television as a child and rose to prominence with her Gemini-nominated role as Olivia Novak in the CBC drama Street Legal. She had previously achieved big-screen success with roles in films including Norman Jewison’s classic Moonstruck. On stage, she won a Dora Mavor Moore Award for Best Actress in a Musical and, at the Stratford Festival, she has brought an impressive list of celebrated roles to life including Maria in the Sound of Music and Maggie in Cat on a Hot Tin Roof. An accomplished musical performer, Dale created the Cynthia Dale Scholarship for the Arts at Mount Allison University and supports a number of not-for-profit organizations and literacy programs.

Sarah Polley, Doctor of Letters

Sarah Polley is an actor, director, writer, producer and activist who rose to prominence in her Gemini Award-winning role of Sara Stanley in CBC’s Road to Avonlea. She also earned a Gemini Award for her role in the TV movie Lantern Hill and a Genie Award for her role in Isabel Coixet’s My Life Without Me. Polley wrote and directed the feature film Away from Her, for which she received an Academy Award nomination for Best Adapted Screenplay. In total, the film was nominated for more than 100 awards and won more than 60, including the Genie Award for Best Achievement in Directing, making Polley the first woman to win that award. She also wrote and directed the critically acclaimed feature Take This Waltz and the intensely personal documentary Stories We Tell. Among the many awards that film earned were Best Documentary Screenplay from the Writers Guild of America and Best Non-Fiction Film from the New York Film Critics Circle Awards. She is currently the Writer-Producer of the CBC/Netfl ix mini-series Alias Grace.

Polley is active in a number of social issues and was part of David Miller’s Transition Advisory Team when he became Mayor of Toronto. She has worked as a volunteer for the Ontario Coalition Against Poverty and the Canadian Peace Alliance. Polley is both an Officer of the Order of Canada and a recipient of the National Arts Centre Award.
Faculty of Social Sciences (Morning Ceremony)

**Michael Hayes, Doctor of Laws**

Michael Hayes is one of Canada’s most influential scholars and advocates in the field of population health and health geography. He is a three-time McMaster graduate whose first academic post was at Simon Fraser University, where he worked for 22 years. There he served as Associate Dean of Research and led the process of founding and building the Faculty of Health Sciences. In 2010, he moved to the University of Victoria where he has just completed his term as the inaugural Director of Health Research and Education.

Hayes produces research that merges rigorous health scholarship with effective policy engagement and, as a result, he helped create the field of population health in Canada. He has established that social inequalities play a profound role in determining long-term mental and physical health. He is a pioneer who helped bring this perspective into the public policy conversation and his approach is now entrenched through initiatives including the Institute of Population and Public Health. Hayes has served on important health-related panels such as the BC Provincial Medical Health Officer’s Advisory Committee, the Federal/Provincial/Territorial Advisory Committee on Population Health and the Public Health Promotion Expert Advising Group of the Public Health Agency of Canada.

Hayes was the inaugural North American Editor of the scholarly journal *Health & Place*. A Member of the McMaster Alumni Gallery since 2011, he has also been a Distinguished Visitor for the Government of Canada’s Cultural Personalities Exchange Program.

Faculty of Social Sciences (Afternoon Ceremony)

**Joseph. S. Mancinelli, Doctor of Laws**

Joseph Mancinelli is International Vice President and Regional Manager for Central and Eastern Canada for the Laborers’ International Union of North America (LIUNA). He is also Chair of the Labourer’s Pension Fund of Central and Eastern Canada, President of the LIUNA Ontario District Council and President of both the LIUNA Group Limited, which manages LIUNA entities including Liuna Station and Liuna Gardens and the LIUNA Local 837 Health Property (Hamilton) Corporation which owns long-term care facilities.

Born and raised in Hamilton, Mr. Mancinelli is also a community builder. He has served on the Board of Hamilton Health Sciences, Chaired the Bay Area Health Trust, served on the St. Joseph’s Healthcare Campaign Cabinet, started a scholarship program for children of LIUNA members and served as a Hamilton-Wentworth Separate School Board Trustee. At McMaster, he helped establish the Enrico Mancinelli Professorship in Global Labour Issues and the Chair in Heavy Construction. Mr. Mancinelli and LIUNA have been trailblazers in renewing downtown Hamilton through award-winning projects like the refurbishment of the James Street North train station and the restoration of the Lister Block. Their most recent initiative is the Student Housing development adjacent to the Lister Block and the revitalization of the north-east corner of King-William.

Mr. Mancinelli, a talented artist, has also been involved with numerous local arts organizations. Named one of the ten most influential people in Hamilton by Urbanicity Magazine, Joe has recently been inducted into the Hamilton Gallery of Distinction, he is the recipient of the Paul Harris Fellow from the Rotary Club and the David Crombie Award from the Canadian Urban Institute, the Business Excellence Award from the Canadian and Italian Business and Professional Association, has a star on the Italian Walk of Fame in Toronto, is the recipient of the Mohawk College Award of Merit, the Italian-Canadian Citizen of the Year award and the Queen’s Golden Jubilee Medal to name a few.

Faculty of Science (Morning Ceremony)

**Daphne Maurer, Doctor of Science**

Daphne Maurer is one of McMaster’s Distinguished University Professors and has been an Emeritus Professor since 2013.

Throughout her career Maurer has studied how perception develops and matures, concentrating on the visual system and beginning at birth. Her work has reshaped our understanding of the infant’s sensory world and of development, and has improved clinical care for children with eye problems. It has led to more than 200 scientific publications and a book, The World of the Newborn, co-authored with Charles Maurer, which won the Book Award of the American Psychological Association.

Maurer’s research has been so unusual and significant that she has had continuous funding from Canadian granting agencies for more than 40 years, plus 14 years of funding in Canada from the U.S. National Institutes of Health.

Maurer is a Fellow of the Royal Society of Canada and of the Association for Psychological Science. In 2004, the Centre for Excellence for Early Childhood Development named her Researcher of the Year. She has received the McMaster University Faculty Association’s Award for Outstanding Service and the David O. Hebb Distinguished Contribution Award from the Canadian Society for Brain, Behaviour and Cognitive Science.

Faculty of Science (Afternoon Ceremony)

**Bernhard Banaschewski, Doctor of Science**

Bernhard Banaschewski joined McMaster University’s faculty in 1955, becoming the McKay Professor in Mathematics in 1964 and emeritus McKay Professor in 1991. A Fellow of the Royal Society of Canada, Banaschewski is acknowledged as a master of the conceptual method of doing and presenting mathematical work and his work has influenced subjects including topology, category theory, order, mathematical logic and foundations and algebra.

Banaschewski has been both Chairman of the Grant Selection Committee for Pure and Applied Mathematics and a Member of the Committee for International Scientific Exchanges for the National Research Council of Canada. He served on the Selection Panel for the Steacie Prize and was Group Chairman for the NSERC Committee on Grants and Scholarships. He also served as Vice-President of the Canadian Mathematical Society. Banaschewski worked for 22 years on the Editorial Board of *Topology and Its Applications* and continues to serve an ongoing and even longer term on the Board of *Quaestiones Mathematicae* and of *Applied Categorical Structures*. He was Associate Editor of the *Canadian Journal of Mathematics* for a decade. Banaschewski is an Honorary Member of the South African Mathematical Society and he has been recognized by the University of Cape Town with an honorary degree.
Faculty of Engineering (Morning Ceremony)

Michael Pley, Doctor of Science

Michael Pley is a McMaster alumnus who joined the aerospace company COM DEV International shortly after graduating. More than 80 percent of all communications satellites ever launched and many international space science missions have had COM DEV technology on board. Until his retirement in 2016, Pley guided the company from senior positions as Division President, Chief Operating Officer and Chief Executive Officer. Under his leadership, the company earned the Waterloo Junior Achievement Business of the Year Award, the Ontario Chamber of Commerce Large Business Award for Business Excellence, and the Waterloo Area’s Top Employers Award six times in a row.

Pley has been Chair of the Board for exactEarth Ltd and is currently on the Board of Waterloo North Hydro. He is Chair of the Advisory Board to McMaster’s Dean of Engineering and recently became a Camp Warden for the McMaster Engineering Kipling ceremony. Pley is an Executive Member of the Board of the Aerospace Industries Association of Canada and serves as the Chair of its Space Committee. He was appointed in April 2017 to the Government of Canada’s new Space Advisory Board.

Pley earned his Professional Engineer designation in 1987 and, in 2006, was the inaugural recipient of the L.W. Shemilt Distinguished Engineering Alumni Award presented by McMaster’s Faculty of Engineering.

Faculty of Engineering (Afternoon Ceremony)

Hamish Robertson, Doctor of Science

Hamish Robertson completed his PhD in Atomic-Beam and Nuclear Structure Physics at McMaster University then became a Professor of Physics at Michigan State University. His research there resulted in the first observation of an isobaric quintet of states in nuclei. He also carried out experiments on parity violation, nuclear astrophysics and nuclear reactions. Robertson moved to the Los Alamos National Laboratory to conduct research on neutrinos and was later appointed a Fellow of the Los Alamos National Laboratory. Robertson initiated the laboratory’s collaboration with the Sudbury Neutrino Observatory (SNO) and he is now SNO’s US Co-Spokesman. He served as the Observatory’s Scientific Director in 2003-2004.

Robertson joined the faculty at the University of Washington in 1994 and was appointed to the Boeing Distinguished Professorship in 2008. He has chaired the Nuclear Science Advisory Committee and the Division of Nuclear Physics for the American Physical Society (APS). A past Member of the Board of Physics and Astronomy of the National Research Council, he has also served on NRC Nuclear Physics and Neutrino Astrophysics panels, as well as the APS-DNP Executive Committee. Robertson is a Fellow of the Institute of Physics (London), the American Physical Society, the American Academy of Arts and Sciences, and the National Academy of Sciences. In 1997, he received the APS Tom W. Bonner Prize. In 2015 he shared in the award of the Breakthrough Prize in Physics.

Graduates who have pre-ordered degree frames and gifts from the McMaster Campus Store website may pick up their items in Wentworth Room A when the ceremony is complete and their gowns have been returned. Your degree will be framed in this location.

For those who have purchased a degree frame today before the ceremony, or would like to purchase a degree frame after the ceremony please visit the main lobby where the Campus Store offers a wide selection of Official McMaster University degree frames, crested giftware and limited edition Class of 2017 merchandise.

A representative from Jostan’s will be on hand before and after all graduation ceremonies to help size and design the perfect ring for your graduate. Complementary degree framing also takes place in the lobby area.
DISTINGUISHED UNIVERSITY PROFESSORS

Faculty of Health Sciences

Dr. John Kelton  
Professor, Michael G. DeGroote School of Medicine  
Executive Director, Michael G. DeGroote Initiative for Innovation in Healthcare

John Kelton is a Professor in the Michael G. DeGroote School of Medicine and Executive Director of the Michael G. DeGroote Initiative for Innovation in Healthcare. His research in hematology, which has changed clinical practice worldwide, has spawned nearly 300 scholarly articles, including 16 in the New England Journal of Medicine.

Kelton’s three terms as Dean and Vice-President of McMaster’s Faculty of Health Sciences featured historic growth that saw the School of Medicine ranked in the world’s top 15 university health programs. A Member of the Order of Canada, Kelton is also a Fellow of the Royal Society of Canada, the Canadian Academy of Health Sciences and the Royal College of Physicians. He has received the Prix Galien Research Award and the Gold Medal in Medicine from the Royal College of Physicians and Surgeons of Canada.

Faculty of Humanities and Arts & Science Program Ceremony

Dr. Barry Allen  
Professor, Department of Philosophy

A member of McMaster’s Department of Philosophy since 1986 and a Fellow of the Royal Society of Canada, Barry Allen’s research concentrates on the concept of knowledge, which he studies from interdisciplinary and multi-cultural perspectives in all its dimensions in human civilization, ecology, and evolution. His work is notable for bridging gaps between analytic and continental philosophy and Asian and Western thought, to address a wide audience in contemporary and comparative philosophy and the human sciences.

He has been a visiting professor and invited speaker in seven countries, and is associate editor of the interdisciplinary scholarly journal Common Knowledge. He is the author of five books, including Truth in Philosophy, Knowledge and Civilization, Artifice and Design, and Vanishing Into Things: Knowledge in Chinese Tradition. His most recent book, Striking Beauty: A Philosophical Look at the Asian Martial Arts, was selected as a Choice Outstanding Academic Title for 2016.

Faculty of Science (Morning Ceremony)

Dr. Laurel Trainor  
Professor, Department of Psychology, Neuroscience & Behaviour

Laurel Trainor is a Professor in the Department of Psychology, Neuroscience & Behaviour; the Director and Founder of the McMaster Institute for Music and the Mind; a Senior Fellow with the Canadian Institute for Advanced Research; and a Research Scientist with the Rotman Research Institute. She pioneered the study of the ways musical experiences influence brain development and founded LIVELab, McMaster’s unique laboratory/concert hall.

Trainor has been named one of the academic experts most frequently consulted by Canadian media and twice had papers listed among the Centre of Excellence for Early Childhood Development’s top ten articles of the year. A Fellow of the Royal Society of Canada and the Association for Psychological Science, Trainor holds Honorary Board Membership with the Suzuki Society of the Americas and received McMaster’s Innovator of Distinction Award.

Faculty of Science (Afternoon Ceremony)

Dr. Michael Brook  
Professor, Department of Chemistry and Chemical Biology

A Professor in the Department of Chemistry and Chemical Biology, Michael Brook is an expert in organosilicon, silica and silicone chemistry. He has won awards for his research, including the 2016 F. S. Kipping Award for Silicon Chemistry, American Chemical Society, and 2017 Macromolecular Engineering and Science Award, Chemical Institute of Canada; he was a Killam Research Fellow and co-winner of the Synergy Prize for Industrial Collaboration.

Brook is a pioneer in the development of synthetic methods for silicones with tailored properties, with implications for everything from cosmetics to microelectronics and biomaterials. He holds seven patents, and nearly 260 peer-reviewed papers and book chapters. His book Silicon in Organic, Organometallic and Polymer Chemistry is considered the standard in the field.

Brook has twice won the MSU Teaching Award for the Faculty of Science and the President’s Award for Instruction.
Dr. Bruce Gaulin  
Professor, Department of Physics and Astronomy,  
Director, Brockhouse Institute for Materials Research

A Professor in the Department of Physics and Astronomy, Bruce Gaulin is the Brockhouse Chair in the Physics of Materials and the Director of the Brockhouse Institute for Materials Research. His work in condensed matter physics has been published in more than 200 articles and placed him in the top one percent of NSERC Discovery Grant (Individual) award recipients.

Gaulin, who is expert at applying neutron scattering to problems in materials physics, also brought the first image furnaces to Canada for the discovery of crystals of new quantum materials. He is a fellow of the Royal Society of Canada and the recipient of the Brockhouse Medal. He is also a Senior Fellow of the Canadian Institute for Advanced Research who has received a Killam Research Fellowship and an Alfred P. Sloan Fellowship. Gaulin is a Fellow of the American Physical Society and the Neutron Scattering Society of America (NSSA). He was NSSA President from 2009 to 2013 and is currently Vice-President of the Canadian Association of Physicists.

GOVERNOR GENERAL’S ACADEMIC MEDAL

Alex Dhaliwal  
Faculty of Science (Afternoon Ceremony)

Alex is graduating from the Integrated Science program without Concentration, instead pursuing a triple minor in Physics, Mathematics, and Biochemistry. He recently completed his undergraduate thesis in biophysics alongside Dr. Maikel Rheinstädter, attempting to understand the fundamental interactions between sugars and lipid membranes.

Apart from his studies, Alex prides himself on being an active member of his school community. As outgoing president and co-founder of the McMaster Undergraduate Academic Astronomy Club, he helped to provide students from all faculties a group through which they could learn more about modern astronomy research. He also served as the two-time Senior Editor for The iScientist, McMaster’s first interdisciplinary peer-reviewed undergraduate journal, helping to publish both its first and second volumes. Finally, he served as a neuroscience teaching assistant for two years.

His broad research background and interdisciplinary foundations have motivated Alex to pursue a joint MD/PhD degree at the University of Toronto, conducting his research in the Department of Medical Biophysics. He would like to express deep gratitude to his friends, professors, and family, all of which he sees as the latter, as without their support and care his success would not be possible.

Emily Farquharson  
Faculty of Engineering (Morning Ceremony)

Emily Farquharson is graduating from Civil Engineering and Co-op. During her degree, she focused on structural engineering, and for her final-year design project, she worked with her group SCS Consultants Ltd. to design the terminal and runways for the future Pickering International Airport.

Between her third and final year, she completed a sixteen-month internship with the Partnership Ventures department of Dufferin Construction Company, working on bids for large infrastructure projects including the Highway 427 Expansion and the Finch West LRT.

Outside of school, Emily loved playing on the McMaster Field Hockey team for all four years of her degree. She also enjoyed volunteering as a coach for the Halton Field Hockey Club and at the Habitat for Humanity ReStore.

Following her final year, Emily began working as a Structural Engineer-in-Training at WSP, and has not closed her steel or concrete handbooks since.
PRESIDENT’S AWARD FOR OUTSTANDING CONTRIBUTIONS TO TEACHING & LEARNING

Faculty of Business

Dr. Anna Danielova
Associate Professor and Area Chair (Finance and Business Economics)

Dr. Anna N. Danielova is an Associate Professor of Finance at the DeGroote School of Business, McMaster University. Dr. Danielova’s leadership in teaching and learning has been evidenced by her involvement in the development and redesign of six courses, including the first year finance curriculum in the MBA program and participation in the Program Development Committee of the Executive MBA in Digital Transformation. Many students attribute their successes in the work place to Dr. Danielova’s innovative experiential pedagogy that fosters higher level of learning by bridging theory and practice, elevating peer learning, and empowering students to take control of their education. Dr. Danielova is a devoted, approachable and supportive mentor for students, making material impact in their lives. In her current position as Area Chair, Dr. Danielova has further generated an influential impact on the curricula of three of the key programs in the School of Business: MBA, Commerce and Master of Finance.

Faculty of Health Sciences

Dr. Sandeep Raha
Associate Professor, Department of Pediatrics

Dr. Raha is an Associate Professor in the Department of Pediatrics at McMaster University. He obtained his PhD. from the University of Toronto, Department of Biochemistry. His post-doctoral training was carried out the Hospital for Sick Children in the area of mitochondrial dysfunction and metabolic disease. He then worked in the biotech sector as the manager of the molecular biology group of FONA Technologies designing and optimizing biosensors to detect single nucleotide polymorphisms. He started his own research program in 2007, in the Department of Pediatrics. Dr. Raha’s research focuses on understanding how stress during pregnancy can affect the future health of the baby. Currently, he focuses on understanding how stress caused by pharmaceuticals and environmental chemicals may disrupt the function of the trophoblast cell, a type of stem cell that is central to the development of the placenta. His research aims to connect poor placental function with fetal health outcomes so that early life medical interventions can be developed. In 2011, Dr. Raha co-founded and is the current director of the McMaster Children and Youth University Program, a campus wide outreach program, which provides engagement opportunities between McMaster faculty, students and community youth and their families.

Faculty of Science (Afternoon Ceremony)

Dr. Chad Harvey
Assistant Professor, School of Interdisciplinary Sciences

Dr. Chad Harvey is a Teaching Track, Associate Professor, in the Integrated Science Program, School for Interdisciplinary Science and an Associate member of the Dept. of Biology. He received is B. Sc. in Zoology from the University of Guelph, M. Sc. in Entomology from Auburn University, and his Ph. D. in Zoology from the University of Wisconsin-Madison. His discipline research seeks to better understand foodweb and community level interactions of invasive species in human-dominated environments. As a winner of the Ontario Undergraduate Student Alliance Award for Teaching Excellence (2016) and twice nominated for a McMaster Student Union Teaching Award (2013, 2015) his true passion lies in interacting with students. He finds nothing more motivating than facilitating the student process of learning, as they journey from the struggle of understanding to the generation of their own new ideas. He actively pursues pedagogical research to find better ways to facilitate the student experience and challenge students to think for themselves. He has achieved fruitful national and international collaborations looking into research-based education and the importance of teaching skills in addition to information delivery. He truly cares about his students, the student experience and how today’s students can become tomorrow’s leaders – the process we call education.

Faculty of Science (Morning Ceremony)

Dr. Felicia Vulcu
Assistant Professor, Department of Biochemistry and Biomedical Sciences

Felicia Vulcu is a teaching professor in the Department of Biochemistry and Biomedical Sciences. Felicia is a homegrown McMaster alumna having completed both her B.Sc. and PhD in the same department she now works in. She currently teaches a number of courses in the Biochemistry and BDC (Biomedical Discovery and Commercialization) programs. She is also the undergraduate program advisor and the coordinator for the BHSc Biomedical Sciences Specialization. Felicia’s contributions to McMaster include a number of pedagogical innovations such as inquiry-based labs and an online course. Additionally, Felicia is dedicated to creating a safe, nurturing environment conducive to sharing of ideas. She feels that establishing such an environment is the best way to engage students and harness their curiosity and creativity in biochemistry and biomedical sciences.
Dr. Apostolou is a teaching-track assistant professor in the W Booth School of Engineering Practice and Technology. He is also the Chair of the Process Automation Technology Program and a MacPherson Institute Research Fellow. A chemical engineer with a Dipl.Eng. from the Aristotle University in Greece and a Ph.D. from the University of Minnesota, he has been teaching at McMaster for over ten years in a variety of fundamental engineering and process modeling courses. In his courses he strives to help his students reach and increase their potential, while equipping them with the tools necessary to become productive citizens. To achieve that, he uses ample active learning in the classroom, blended learning through on-line quizzes, and practical training through labs. Teaching in an applied field, he always tries to connect theory to practice through everyday examples and by actively pursuing students' interactions with the industry and the community.

**PRESIDENT’S AWARD OF EXCELLENCE IN STUDENT LEADERSHIP**

**Saly Halawa**

Faculty of Health Sciences

For two years, Saly worked as a campus emergency medical responder to provide on-call first aid and mental health support to students. During this time, Saly also helped encourage health education through teaching first aid courses on campus, as a Wellness Outreach volunteer through the Student Wellness Centre and as a peer support listener. This year, she led the coordination of a competition for a national conference that brought together 10 university response teams to test their response skills. Additionally, Saly helped first-year students transition into university as a residence community advisor and as a Leadership Developer for the Horizons Leadership Conference. She pursued her passion for advocacy work through conducting pedagogical research through McMaster's MacPherson Institute and as the sponsorship coordinator for Relay for Life, helping to raise over $74 000 towards cancer research. After graduation, Saly hopes to use her diverse skills and experiences as a clinician.

**Elaine Stirling**

Faculty of Health Sciences

For three years Elaine has served as a member of the McMaster Student Union’s Women and Gender Equity Network, a service dedicated to educating and empowering students about issues of sexual and gender equity and an intake centre for students who’ve experienced sexual assault and gender-based violence. This year as Coordinator, she helped to revolutionize the way peer support is provided to survivors of sexual assault, creating educational campaigns and programming to educate students on supporting survivors on campus. Throughout her term, Elaine has successfully spearheaded numerous collaborations with Hamilton community partners, such as the Leadership Summit for Women, SACHA and the Anti-Violence Network. Concurrent to her role as WGEN Coordinator, Elaine served as Co-Convener of the Violence Against Women/Gender Based Violence Working Group to advise the President and Provost on issues related to sexual and gender-based violence, and participated as a student consult in the creation of McMaster’s Sexual Violence Response Protocol, which was passed this year. After graduation, she hopes to use her skill set to pursue a career in health care, with a focus on trauma therapy.
For the past two years, Sonia has coordinated the Yonkwahahí:yos mentorship program which bridges the gap between Indigenous students, the greater McMaster community, and surrounding Indigenous communities, while promoting conversations between Indigenous and non-Indigenous students as we share in this time of Truth and Reconciliation. Sonia also co-created and co-planned the inaugural Indigenous Students and Studies Welcome Week to create a more inviting space for Indigenous students; easing their transition into the university setting, while increasing Indigenous presence on campus. This year, Sonia brought together a group of Indigenous students in an independent studies course to work towards a research exchange in Aotearoa (New Zealand). Sonia has also participated in the Cooperative of Indigenous Studies Students and Alumni (CISSA), as well as the Indigenous Undergraduate Summer Research Scholars program. Sonia’s research has focussed on the healing of intergenerational survivors of the Residential School system. In graduate school, she will be shifting her focus to the reclamation of Indigenous Knowledge (IK) and culture through youth lead environmental movements.

Sonia Monique Jakji is a Kanien’kehá:ka (Mohawk) woman from Six Nations of the Grand River. During her four years at McMaster, Sonia has worked to create a more inclusive environment for Indigenous students on campus. For two years, Sonia has coordinated the Yonkwahahí:yos mentorship program which bridges the gap between Indigenous students, the greater McMaster community, and surrounding Indigenous communities, while promoting conversations between Indigenous and non-Indigenous students as we share in this time of Truth and Reconciliation. Sonia also co-created and co-planned the inaugural Indigenous Students and Studies Welcome Week to create a more inviting space for Indigenous students; easing their transition into the university setting, while increasing Indigenous presence on campus. Sonia’s research has focussed on the healing of intergenerational survivors of the Residential School system. In graduate school, she will be shifting her focus to the reclamation of Indigenous Knowledge (IK) and culture through youth lead environmental movements.

Adam Chiaravalle

The poet Mary Oliver once wrote that we only have “one wild and precious life”. Adam Chiaravalle’s wild life has become much more precious over last two years, as he has devoted most of his time to making McMaster a more sustainable place through local food. The projects Adam has undertaken have stemmed from climate change presentations at elementary schools, bringing back honey bees to McMaster, working on creating community garden with the Stinson neighbourhood and establishing McMaster’s first local food discount card. Adam’s endeavors would certainly not be possible if it were not for the droves of McMaster students and faculty that have mentored and worked with him.

This summer Adam has the privilege to be a research assistant to Dr. Chad Harvey to do a feasibility assessment on creating a permaculture garden at McMaster. Adam has learned that McMaster is the best place for change to take place and that we simple students can be agents of social change; it is pretty cool to help to create the world of our dreams!

Akeel Ali

Akeel has spent the majority of his undergraduate career wearing multiple hats within the McMaster community, while also empowering other students to aim for success.

This year Akeel has served as the co-president of the McMaster Engineering and Management (E&M) Society, and has as well been a member of the Industrial Advisory Committee for the E&M Program. He has also been apart of a group of interdisciplinary McMaster students who worked on creating and improving processes for a new Innovation and Enrichment Centre that supports both gifted and special learners in the Hamilton-Wentworth District School Board. Akeel also has acted as a student voice for Cycle Hamilton, a non-for profit member-supported coalition that works to promote a healthy, safe, and sustainable cycling culture in Hamilton. Akeel would like to dedicate this award to his parents, Abdool and Fazielette, who he admits heavily attribute to the leadership skills he posses.
